Africa may have given rise to the first human beings and Egypt probably gave rise to the first great civilizations which continue to fascinate modern societies across the globe nearly 5 000 years later From the Library and Lighthouse of Alexandria to the Great Pyramid at Giza the Ancient Egyptians produced several wonders of the world revolutionized architecture and construction created some of the world s first systems of mathematics and medicine and established language and art that spread across the known world With world famous leaders like King Tut and Cleopatra it s no wonder that today s world has so many Egyptologists What makes the accomplishments of the Ancient Egyptians all the more remarkable is that Egypt was historically a place of great political turbulence Its position made it both valuable and vulnerable to tribes across the Mediterranean and the Middle East and Ancient Egypt had no shortage of its own internecine warfare Its most famous conquerors would come from Europe with Alexander the Great laying the groundwork for the Hellenic Ptolemy line and the Romans extinguishing that line after defeating Cleopatra and driving her to suicide Perhaps the most intriguing aspect of ancient Egyptian civilization was its inception from the ground up as the ancient Egyptians had no prior civilization which they could use as a template In fact ancient Egypt itself became a template for the civilizations that

followed The Greeks and the Romans were so impressed with Egyptian culture that they often attributed many attributes of their own culture usually erroneously to the Egyptians With that said some minor elements of ancient Egyptian culture were indeed passed on to later civilizations Egyptian statuary appears to have had an initial influence on the Greek version and the ancient Egyptian language continued long after the pharaonic period in the form of the Coptic language Although the Egyptians may not have passed their civilization directly on to later peoples the key elements that comprised Egyptian civilization their religion early ideas of state and art and architecture can be seen in other pre modern civilizations For instance civilizations far separated in time and space such as China and Mesoamerica possessed key elements that were similar to those found in ancient Egypt Indeed since Egyptian civilization represented some fundamental human concepts a study of pharaonic culture can be useful when trying to understand many other pre modern cultures Thus anyone who reads about ancient Egyptian civilization in this regard is best served by looking at its earliest phases the Early Dynastic Period and the Old Kingdom By examining the Old Kingdom and the period immediately preceding it attributes considered quintessentially Egyptian in later periods will become clearer

The Old Kingdom of Ancient Egypt The History and Legacy of the Beginning of Egyptian Civilization chronicles the tumultuous history that ushered in the beginning of Ancient Egyptian civilization Along with pictures depicting important people places and events you will learn about the Old Kingdom like never before

Ancient Egypt and the Near East ,2011 Ancient Egypt and the Near East explores the early civilizations that developed in Egypt and Mesopotamia between the start of farming in the Nile Valley around 6000 BCE and the defeat of the Persians by Alexander the Great in 330 BCE

Ancient Egypt Ian Shaw,2021 In this introduction Ian Shaw describes how our current ideas about Egypt are based not only on the discoveries made by early Egyptologists but also on fascinating new kinds of evidence produced by modern scientific and linguistic analyses He also explores the changing influences on our responses to these finds
