Lesbian Teachers Madiha Didi Khayatt, 1992-01-01 Teachers in general are hired to conform with set values of the community which hires them They are expected to reflect conventions which correspond with an ideological model of behavior sanctioned by the state and by the community in which they work In a publicly funded educational system not only are teachers expected to transmit dominant ideologies but as representatives of the state they are assumed to embody the dominant values of the society which hires them The notion of lesbian teachers inevitably contradicts mainstream assumptions about female teachers women whose image stereotypically corresponds with and implicitly conveys traditional female virtues of purity dedication and nurturance Using an analysis that combines feminist concepts of patriarchy with Gramsci's notion of hegemony this book is an institutional ethnography which begins from the standpoint of lesbian teachers but at the same time locates their experiences in the immediate social organization from which they arise and which gives them meaning Through intensive interviews with nineteen lesbian teachers Khayatt explores these women's lives as they themselves describe them How do they conceal their sexuality How do lesbian teachers cope in the classroom How do they deal with their perceived need to live a double life To whom do they come out Why do they feel unsafe to be out despite the potential protection of legal rights And finally what would they stand to lose if found out
