*The Textual Basis of English Translations of the Hebrew Bible* S. C. Daley, 2019-02-04 Foreword by A Schenker S C Daley's book *The Textual Basis of English Translations of the Hebrew Bible* moves us beyond existing uncertainties about the textual basis of modern Bible translations to a fresh understanding of the text critical constitution of well known English translations of the past four hundred years Most translations depart from the Masoretic Text selectively and in depth analysis of their textual decisions leads 1 to the identification of distinct periods in the textual history of the English Bible 2 to a classification of the translations by eclectic type and 3 to the observation that each translation is ultimately unique from a text critical perspective The study then revisits the topic of the text to be translated in Bibles intended for the wider public

the layout of Israel and other biblical locations for better context      **Zechariah** George L. Klein, 2008 One in an ongoing series of esteemed and popular Bible commentary volumes based on the New International Version text      **The Function of Story in the Hebrew Psalter** Rebecca W. Poe Hays, 2021-06-29 Providing balance to the general scholarly trend to focus on the non narrative aspect of Hebrew poetry this book argues that the Hebrew Psalter does contain stories and their inclusion in ancient Israel's worship texts contributes to the rhetorical power of the psalms in ways distinct from other poetic devices Rebecca W Poe Hays builds on literary theory and biblical studies of narrative to establish a clear definition of story and to identify where story appears in the book of Psalms The majority of the book explores how these story portions of the Psalter divided into the three broad categories of retellings of history testimonies and paradigms function within their larger contexts Each chapter includes a discussion of a particular category's general characteristics a close reading of representative texts and an assessment of distinctive ways each type of story functions in the psalms in which they appear These poetic psalmic stories have the rhetorical power to draw readers uniquely into narrative worlds and inspire empathy to guide readers into particular understandings of history and teach inductively and to concretize the abstract and so shape the beliefs and behaviors of the communities who regard them as sacred texts      The Text of the Hebrew Bible and Its Editions Andrés Piquer Otero, Pablo A. Torijano Morales, 2016-11-01 In The Text of the Hebrew Bible and its Editions some of the top world scholars and editors of the Hebrew Bible and its versions present essays on the aims method and problems of editing the biblical text's taking as a reference the Complutensian Polyglot first modern edition of the Hebrew text and its versions and whose Fifth Centennial was celebrated in 2014 The main parts of the volume discuss models of editions from the Renaissance and its forerunners to the Digital Age the challenges offered by the different textual traditions particular editorial problems of the individual books of the Bible and the role played by quotations It thus sets a landmark in the future of biblical editions      **A Handbook on Isaiah** Jan de Waard, 1997-01-01 In this volume the first of a projected series on the Hebrew Bible de Waard aims to give translators better insight into the viewpoint of the textual critic to help them find a good base for translation Though of primary interest for translators students and scholars will also be pleased to find that de Waard summarizes the arguments and ratings of the Hebrew Old Testament Text Project Because the final report of the HOTTP was published in French and was the work of textual critics rather than translation specialists its valuable contribution was found to have practical limitations DeWaard's work is also valuable because it examines three major Jewish versions in addition to the Christian versions selected by the Project for study Future volumes are planned to cover other portions of the Hebrew Bible Old Testament      **The Book of Ezekiel, Chapters 1-24** Daniel I. Block, 1997-08-26 A study of the first half of the biblical book of Ezekiel with commentary on what his message could mean for the church in the twentieth century      **Books in Print Supplement**, 1982      **Studies in the Text of the Old Testament** Dominique Barthélemy, 2012-11-01 Studies in the Text of the Old Testament offers to the English speaking world the combined

introductions to the first three volumes of Dominique Barthélemy's *Critique Textuelle de l'Ancien Testament* CTAT was the culmination of the Hebrew Old Testament Text Project launched by the United Bible Societies in 1969 and carried out by an international team of Old Testament textual critics under the leadership of Eugene Nida. As Emanuel Tov has stated, these introductions form an almost complete introduction to the textual criticism of the Hebrew Bible. They hold an important place in Old Testament textual criticism and can stand alone apart from the detailed discussions of the textual problems found in the volumes. Part one surveys the history of OT textual criticism from its origins to J. D. Michaelis and presents the Hebrew Old Testament Text Project and its goals. Part two describes in detail the background of the modern versions that the HOTTP took into account in its work. Part three, the most extensive section, discusses the textual witnesses, the different forms of the Hebrew text, and the contribution of the ancient versions. As his concluding program for a critical edition makes clear, the groundbreaking work of Barthélemy and the HOTTP served as the basis for the new *Biblia Hebraica Quinta*, which began publication in 2004. UBS undertook the HOTTP to offer Bible translators help in applying the results of textual criticism to their work, but there is no doubt that many others will benefit from this work as well as the other volumes in the series.

**Textual Criticism and the Translator**

**Scripture in Its Historical Contexts** James A. Sanders, 2018-10-29 In this important collection of essays, James A. Sanders offers his most significant work on the text and canon of the Hebrew Bible, along with his seminal studies of the Qumran Scrolls. He has been at the forefront of the study of canon formation, history of interpretation, and textual criticism, with specialty in the Dead Sea Scrolls and the use of the Old Testament in the New. These studies document the variety of textual traditions as well as the diversity and unsettled incipient state of the collection of sacred literature that was regarded as authoritative or canonical in the late Second Temple period. They laid the foundation on which today's scholarly discussion is focused.

**On the Trail of the Septuagint Translators** Anneli Aejmelaeus, 2007 The essays of this revised and expanded collection were written by Prof. Anneli Aejmelaeus over a period of 25 years. The thread that runs through all these essays and holds the collection together is translation technique, which is characterized as a central aspect of methodology rather than an object of study. Only by tracing the trail of the Septuagint translators is it possible to gain a reliable picture of the different translators and of the Hebrew Vorlage their work was based on. The themes dealt with in the individual essays range from the study of syntactical features of the Greek language used in the Septuagint to the quest for the correct understanding of the underlying Hebrew, from the overall description of the translation character of certain biblical books to the application of translation technical data in textual criticism of the Hebrew text, and from methodological questions to the discussion of theological interpretation by the translators, reflecting the ongoing discussion in the international field of Septuagint studies and representing a significant and distinctive critical position in it.
