Corvallis Bypass Construction ,1983 The Park Builders Thomas R. Cox,2011-04-21 Among the greatest attractions of the Pacific Northwest are its state parks campgrounds and tree lined highways From Idaho hot springs to the Oregon coast millions of people enjoy this priceless legacy every year but few stop to think about the source of this bounty The Park Builders profiles the men who provided the parks and the times that shaped them From its beginnings as part of the progressive crusades to its evolution into an expected function of state government the state parks movement in the Northwest is a window onto the political and social developments of the twentieth century The states of Washington Idaho and Oregon were generally in the mainstream of the parks movement but each of their histories is unique Taken together they help to define the nature and limitations of regionalism in the Northwest Especially in the early years the story of state parks was largely the story of individuals Drawing extensively from interviews and personal papers Thomas Cox creates memorable pictures of parks activists in each state Robert Moran creator of the battleship Nebraska spent a decade lobbying the state of Washington to accept his magnificent acreage on Orcas Island Sam Boardman went from a road crew to the head of Oregon s park system and took up his mission with a zeal that was literally religious To me a park is a pulpit he wrote The more you keep it as He made it the closer you are to Him In Idaho Senator Weldon Heyburn no proponent of state expenditures set out to create a national park and ended up with a premier state park named for him State parks serve more people at far less expense than do those in the National Park System Since their fates are determined largely at the state level they are an ideal venue for the study of grassroots activism and regional trends This book is the first to collect these themes into a coherent whole It will serve as a model for further regional studies of its kind **Opinions of the Attorney**

Oregon Plans Sy Adler, 2012 Oregon Plans provides a rich detailed and nuanced analysis of the origins and early evolution of Oregon's nationally renowned land use planning program. Drawing primarily on archival sources Sy Adler describes the passage of key state laws that set the program into motion by establishing the agency charged with implementing those laws adopting the land use planning goals that are the heart of the Oregon system and monitoring and enforcing the implementation of those goals through a unique citizen organization. Oregon Plans documents the consequential choices and compromises that were made in the 1970s to control growth and preserve Oregon's quality of life. Environmental activists farmers industry groups local governments and state officials all played significant roles. Adler brings these actors among them governors Tom McCall and Robert Straub business leaders John Gray and Glenn Jackson 1000 Friends of Oregon and the Oregon Home Builders Association to life. Adler's story is about unusual conditions purposeful action dynamic personalities and the messiness of democratic and bureaucratic processes. His conclusions reveal much about how Oregonians defined liveability in the late twentieth century. William L. Lang from the Preface. A volume in the Culture and Environment in the West series.
