American Homo Jeffrey Escoffier, 2018-10-02 *American Homo* offers a sweeping interpretation of the political cultural and economic struggles of lesbian gay and bisexual people to reveal how sexual minorities have challenged and changed American society These provocative essays by long time activist writer and theorist Jeffrey Escoffier tracks the lesbian and gay movements across the contested terrain of American political life Starting from an urban subculture created by stigmatized and invisible men and women LGBT movements have had to negotiate the historical tension between the homoeroticism that courses through American culture and virulent outbreaks of homophobic populism Escoffier explores how every new success whether it's civil rights marriage or cultural recognition also enables new disciplinary and normalizing

forms of domination and why only the active exercise of democratic rights and participation in radical coalitions allows LGBT people to sustain both the benefits of community and the freedom of sexual perversity

The World's Youth Benson Bradford Brown, Reed W. Larson, T. S. Saraswathi, 2002-10-10 The life stage of adolescence now occurs in most corners of the world but it takes different forms in different regions. Peers with such a central role in Western adolescence play a comparatively minor role in the lives of Arabic and South Asian adolescents. Emotional turmoil and individuation from family occur in some societies but not others. Adolescent sexual revolutions are sweeping through Japan and Latin America. In this 2002 book, scholars from eight regions of the world describe the distinct nature of adolescence in their regions. They draw on research to address standard topics regarding this age: family and peer relationships, schooling, preparation for work, physical and mental health, and show how these have a different cast across societies. As a whole, the book depicts how rapid global change is dramatically altering the experience of the adolescent transition, creating opportunities and challenges for adolescents, parents, teachers, and concerned others.
