Disease and Crime Robert Peckham, 2013-12-04 Disease and crime are increasingly conflated in the contemporary world News reports proclaim epidemics of crime while politicians denounce terrorism as a lethal pathological threat Recent years have even witnessed the development of a new subfield epidemiological criminology which merges public health with criminal justice to provide analytical tools for criminal justice practitioners and health care professionals Little attention however has been paid to the historical contexts of these disease and crime equations or to the historical continuities and discontinuities between contemporary invocations of crime as disease and the emergence of criminology epidemiology and public health in the second half of the nineteenth century When how and why did this pathologization of crime and criminalization of disease come about This volume addresses these critical questions exploring the discursive construction of crime and disease across a range of geographical and historical settings

The Early Poetry of Robert Graves Frank L. Kersnowski, 2013-11-06 Like many men of his

generation poet Robert Graves was indelibly marked by his experience of trench warfare in World War I. The horrific battles in which he fought and his guilt over surviving when so many perished left Graves shell shocked and disoriented, desperately seeking a way to bridge the rupture between his conventional upbringing and the uncertainties of postwar British society. In this study of Graves's early poetry, Frank Kersnowski explores how his war neurosis opened a door into the unconscious for Graves and led him to reject the essential components of the Western idea of reality: reason and predictability. In particular, Kersnowski traces the emergence in Graves's early poems of a figure he later called The White Goddess, a being at once terrifying and glorious who sustains life and inspires poetry. Drawing on interviews with Graves's family as well as unpublished correspondence and drafts of poems, Kersnowski argues that Graves actually experienced the White Goddess as a real being and that his life as a poet was driven by the purpose of celebrating and explaining this deity and her matriarchy.

Priscilla's Love-story Harriet Elizabeth Prescott Spofford, 1906 *Love and Romance in China* Pan Wang, 2025-09-04

Love and Romance in China examines love, affection, and emotions in China from Maoist to contemporary China, focusing on the intersections with politics, economics, gender, class, race, and technology. From the founding of the People's Republic of China to the end of the Cultural Revolution, political ideology and class struggle dominated everyday life, and love was subordinated to the communist revolution and socialism. During the Cultural Revolution, this turbulent period witnessed the paradoxical existence of self-abstinence and self-indulgence. Since China changed its political ideology in 1979 and shifted to a market-oriented economy, the country embraced the idea of romantic love. This emotional turn fostered opportunities for diverse intimate relationships characterized by the growth of cross-cultural love, LGBTQI love, and the emergence of a sexual revolution (Zhang, 2011; Jeffreys and Yu, 2015). The new dynamic was linked to contested discourses of fantasized, eroticized, and racialized foreign love intertwined with nationalist sentiments and ongoing tensions between sexual minorities and the government. The new millennium has witnessed love crises characterized by growing concerns about leftover men and women, high divorce rates, declining marriage and birth rates, and other relationship problems. The deepening of the market economy and technological advances have turned love into a fast-food commodity for mass consumption, manifested in dating shows, digital platforms, and intimacy between humans and AI dolls. Wang draws on a wide range of texts, including government statistics on marriages and divorces, legal documents, Maoist folk songs, poems, posters, love letters, media texts, popular discourses, online dating websites, and ethnographic observations and interviews. *School of Love* H. M. Richmond, 2015-12-08. Challenging the view of Shelley, Arnold, and Eliot that there has been a decline in human sensibility in the later history of European culture, H. M. Richmond demonstrates that the history of the love lyric at least reveals a progressive enrichment of human awareness. His original combination of traditional and new critical methods is particularly effective in this study.
