Prensa Y Educacion Un Enfoque Cognitivo:

Prensa y educación José A. León, 1996 Reading Comprehension in Educational Settings José A. León, Inmaculada Escudero, 2017-10-19 Text comprehension is a critical area of psychological and educational research and has particular relevance to educational context The general aim of this international volume *Reading Comprehension in Educational Settings* is to encourage excellence in research and to bring together teachers students researchers and other professionals from different disciplines e g psychology linguistics neuroscience education information technology and communication as well as all those members of the general public who have an interest in the study of reading The specific objectives of the different chapters in this volume are to analyze existing methods of studying the various aspects of reading comprehension disseminate results already obtained by research groups working in the field and debate current and future trends in the study of reading Para argumentar mejor. Lectura comprensiva y producción escrita Norma Matteucci, 2008 Los textos argumentativos poseen una gran relevancia social puesto que invaden los campos de la política la economía la publicidad y la ciencia exigiendo competencias comunicativas tanto para su lectura comprensiva como para su producción En el mundo actual las argumentaciones son utilizadas para persuadir y hasta para manipular al oyente lector ya que construyen y transmiten significados que pueden ser internalizados sin tener en cuenta el carácter político de las opiniones ante determinados hechos sociales Lograr sujetos competentes en la comprensión y producción de argumentos requiere de un trabajo continuo y sostenido conducente al desarrollo de diversas estrategias que generen actividades cognitivas propias de los procesos implicados Esta obra propone abordar la comprensión y producción de textos argumentativos escritos desde múltiples enfoques tales como el enfoque comunicativo la teoría de la enunciación de los actos de habla o de la connotación para el logro de una mirada abarcativa de este tipo textual Emociones en la comprensión del texto y del discurso María Teresa Dávalos Romo, 2021-02-19 La finalidad de este libro es introducir elementos poco investigados en la comprensión del texto y del discurso específicamente en el campo de las emociones Se propone el uso de historias verbales visuales y mixtas empleando estmulos en palabras imágenes y emoticonos así como el análisis a profundidad de uno de los componentes emocionales la valencia Las aportaciones más relevantes de esta obra son el carácter automático en la activación de las inferencias emocionales cuando se presentan estmulos verbales las inferencias predictivas y explicativas con contenido emocional se activan en tiempos similares las imágenes emocionales complejas requieren de un mayor tiempo de procesamiento por lo tanto de más recursos cognitivos las historias con elementos verbales y visuales mixtas facilitan la activación de la inferencia emocional el procesamiento de palabras y emoticonos es muy similar en ambos casos demandan pocos recursos cognitivos Sumado a lo anterior queda el efecto de la valencia emocional el cual es contundente pues la valencia al ser un componente nuclear básico y dicotómico de la emoción presenta un carácter asimétrico en el procesamiento de información es decir lo negativo produce representaciones mentales más complejas que requieren de un proceso cognitivo

más largo y consciente en comparación con lo positivo en donde se comprueba que el procesamiento de información es más esquemático superficial y rápido

Comprensión lectora en contextos universitarios María Teresa Dávalos Romo, María del Carmen Farfán García, Enrique Navarrete Sánchez, 2020-04-24 La lectura es una herramienta básica para el aprendizaje escolar y para seguir aprendiendo a lo largo de la vida Delors 1998 es por esto que la competencia lectora es importante para que las personas puedan alcanzar sus objetivos como individuos y su participación en la sociedad como ciudadanos activos La competencia lectora implica además la capacidad de comprender y utilizar textos escritos y de reflexionar sobre ellos Al conocer los resultados obtenidos por los alumnos mexicanos de diferentes niveles educativos en las evaluaciones tanto nacionales como internacionales de la comprensión lectora y determinar que estos son lamentablemente desalentadores se decide realizar la presente obra la cual aborda esta temática para entender lo que pasa en los contextos universitarios se presenta un análisis del surgimiento de las evaluaciones y resultados de las competencias posteriormente mediante un trabajo de investigación se reflexiona y analiza la situación de los universitarios asimismo presentamos también una serie de métodos y estrategias para mejorar la comprensión del texto y del discurso
