Munro,2011-04-27 There s no question The cost of college continues to soar even when the rest of the economy stagnates and this reality is not likely to change any time soon Fortunately everyone including you the various governments federal and state and the colleges themselves are in on this secret so everyone can plan and plot well in advance of that eventual first day of your child s freshman year ways to get that child there and ways to help you pay the bills when they happen Consider this book to be your accomplice 529 there s also no question that with planning strategy and purpose you can achieve your goal To help you get there this book covers all these vital topics and more Evaluating all your resources Understanding the basics of Section 529 plans Working around the 529 shortcomings Contributing to Coverdell accounts Choosing savings bonds that work Looking at your investment options Searching for scholarships fellowships and grants Tapping into your Roth IRA Financial Aid 101 In this one size fits all world the powers that be have recognized that all people don t save money the same way Some save more some save less some can live with risk and others can t tolerate any risk Clearly no two are alike but you re all savers either present or potential Numerous options exist that make saving possible and desirable for everyone 529 Other College Savings Plans For Dummies is here to tell you that it is possible to understand the costs associated with college both right now and in the future and then find ways to pay for those costs State College Savings and Prepaid Tuition Plans Michael A. Olivas,2004 The growth of state prepaid plans and state savings plans 529 plans named for the IRS Code section has been nothing short of phenomenal with several states having billions of dollars in their 529 reserves and a number of states selling tens of thousands of contracts each year Florida s prepaid plan is among the nation s premier programs with over 750 000 beneficiaries and almost 5 billion in assets Every state now has a savings plan and 18 have both a saving plan and prepaid plan This growth spurred by generous federal tax legislation has brought exceptional professionalization into play with several national financial organizations such as TIAA CREF Fidelity and others providing services to states The advantageous tax treatment has given rise to many states offering multiple programs with generous provisions and helpful features That said a number of policy issues have surfaced including federal tax treatment of the plans financial viability during unstable economic periods system

complexity that makes it difficult to evaluate plans or comparison shop and understanding the proper role of states in a federal financial aid system For example a number of states have privatized these programs setting up shops with turnkey elements A small number of states have given full faith and credit protection to 529 plans raising the possibility that a state's general fund resources will be used to bail out losing programs Several issues of state and federal taxation remain unclear such as how 529 plans count in federal aid determination and why gains on prepaid plans are included in the Expected Family Contribution while proceeds from savings plans are not included in the EFC Until Congress extends the 2011 sunset provision parents or other potential purchasers may be reluctant to purchase 529 plans even though it is likely that Congress will act to extend the tax treatment before that cutoff date Finally there remain important equity institutional and legislative policy implications Among these are the extent to which these plans exacerbate the gap between the well to do and the financially needy the extent to which prepaid plans will distort the admissions process and need blind financial aid admissions and the likelihood that enormously successful 529 plans may restrict needed tuition increases or trade off against legislative appropriation levels There is evidence to support all these equity concerns Additional questions that have not been addressed include the extent to which generous tax treatment actually stimulates additional family savings for college or simply re directs family investment strategies At the end of the day prepaid plans are popular vehicles for the more advantaged but their success has within it a number of policy concerns that deserve attention by scholars legislators and families
