Preparation And Properties Of Stereoregular Polymers:

Preparation and Properties of Stereoregular Polymers R.W. Lenz, F. Ciardelli, 2013-03-13 This book contains the texts of the main lectures presented at the NATO Advanced Studies Institute on Advances in Preparation and Properties of Stereoregular Polymers held at Tirrenia near Pisa Italy from October 3 to 14 1978 A few contributed papers have also been included because they were concerned with topics not included in the main lectures The primary objective of the Institute was to assist in the further development of stereoregular polymers because of the ever increasing demand for new products with exceptional chemical and physical properties This need has reawakened interest in the field Indeed there is now a rapidly increasing activity in the study of stereoregular polymerization and the preparation of structurally ordered polymers with the aim of achieving appreciable improvements in existing polymeric materials through new developments in synthesis and properties as well as in discovering new polymeric structures In order to achieve these objectives a broad interdisciplinary cooperation among scientists involved in investigations on the design synthesis characterization and application of stereoregular or structurally ordered polymers will be necessary Preparation and Properties of Stereoregular Polymers R.W.
