Preparing For Power Americas Elite Boarding Schools:

Preparing For Power Peter W Cookson Jr, Caroline Hodges Persell, 2008-08-04 Why do private boarding schools produce such a disproportionate number of leaders in business government and the arts In the most comprehensive study of its kind to date two sociologists describe the complex ways in which elite schools prepare students for success and power and they also provide a lively behind the scenes look at prep school life and underlife

Preparing For Power Peter W. Cookson Jr, Caroline Hodges Persell, 1987-09-30 Why do private boarding schools produce such a disproportionate number of leaders in business government and the arts In the most comprehensive study of its kind to date two sociologists describe the complex ways in which elite schools prepare students for success and power and they also provide a lively behind the scenes look at prep school life and underlife

Preparing for Power Peter Cookson (W., Jr), 1985 *The Best of the Best* Rubén A. Gaztambide-Fernández, 2010-01-30 For two years Rubén A. Gaztambide-Fernández shared the life of what he calls the Weston School an elite New England boarding school Vividly describing the pastoral landscape and graceful buildings the rich variety of classes and activities and the official and unofficial rules that define the school *The Best of the Best* reveals a small world of deeply ambitious intensely pressured students For Gaztambide-Fernández Weston is daunting yet strikingly bucolic inspiring but frustratingly incurious and sometimes especially for young women a gilded cage for a gilded age

Educating Elites Adam Howard, Rubén A. Gaztambide-Fernández, 2010-10-16 The gaze of educational researchers has traditionally been turned down toward the experiences of communities deemed at risk presumably with the purpose of improving their plight Indeed theorizing about the relationship between education culture and society has typically emerged from the study of poor and marginalized groups in public schools Seldom have educational researchers considered class privilege and educational advantage in their attempts at understanding inequality and fomenting social justice This collection of groundbreaking studies breaks with this tradition by shifting the gaze of inquiry up toward the experiences of privilege in educational environments characterized by wealth and the abundance of material resources This edited volume brings together established and emerging scholars in education and the social sciences working critically to interrogate a diversity of educational environments serving the interests of influential groups both within and beyond schools The authors investigate the power relations that underlie various contexts of class privilege They shed light into the ways in which the success of a few relates to the failure of many

Privilege, Agency and Affect C. Maxwell, P. Aggleton, 2013-10-22 Drawing on a range of theoretical perspectives and engaging with new empirical evidence from around the world this collection examines how privilege agency and affect are linked and where possibilities for social change might lie

American Educational History Journal Paul J. Ramsey, 2012-10-01 The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors

come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history

Elites and People Fredrik Engelstad, Trygve Gulbrandsen, Marte Mangset, Mari Teigen, 2019-10-07 This volume contains an Open Access chapter The present volume of Comparative Social Research offers a broad set of comparative studies of elites stretching from the Arab Spring in Tunisia and Egypt to women's political leadership in Brazil and Germany via attainment of elite positions among minorities in France and the US

Encyclopedia of Adolescence Roger J.R. Levesque, 2011-09-05 The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence Comprehensive in breath and textbook in depth the Encyclopedia of Adolescence with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks By making full use of Springer's print and online flexibility the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society Substantively the Encyclopedia draws from four major areas of research relating to adolescence The first broad area includes research relating to Self Identity and Development in Adolescence This area covers research relating to identity from early adolescence through emerging adulthood basic aspects of development e.g biological cognitive social and foundational developmental theories In addition this area focuses on various types of identity gender sexual civic moral political racial spiritual religious and so forth The second broad area centers on Adolescents Social and Personal Relationships This area of research examines the nature and influence of a variety of important relationships including family peer friends sexual and romantic as well as significant nonparental adults The third area examines Adolescents in Social Institutions This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents These major institutions include schools religious groups justice systems medical fields cultural contexts media legal systems economic structures and youth organizations Adolescent Mental Health constitutes the last major area of research This broad area of research focuses on the wide variety of human thoughts actions and behaviors relating to mental health from psychopathology to thriving Major topic examples include deviance violence crime pathology DSM normalcy risk victimization disabilities flow and positive youth development

The SAGE Handbook of Research in International Education Mary Hayden, Jack Levy, Jeff Thompson, 2015-10-13 The landscape of international education has changed significantly in the last ten years and our understanding of concepts such as international global and multicultural are being re-evaluated Fully updated and revised and now including new contributions from research in South East Asia the Middle East China Japan Australasia and North America the new edition of this handbook analyses the origins interpretations and contributions of international education and explores key

contemporary developments including internationalism in the context of teaching and learning leadership standards and quality in institutions and systems of education the promotion of internationalism in national systems This important collection of research is an essential resource for anyone involved in the practice and academic study of international education including researchers and teachers in universities governmental and private curriculum development agencies examination authorities administrators and teachers in schools

Blacks in the White Elite Richard L. Zweigenhaft, G. William Domhoff, 2003-08-01 This extensively revised edition of Blacks in the White Establishment adds fifteen years to the life stories of the African Americans whose opportunities were dramatically changed by a nationally prominent educational opportunity program that provided scholarships for disadvantaged people of color to attend the same elite boarding schools that educate the children of wealthy white Americans Beyond tracing the individuals into middle age and expanding coverage of their careers with special attention to experiences in the corporate world a new chapter on their children's education and early careers gives the new edition a poignant and unusual intergenerational perspective Blacks in the White Elite shows why America is at a crucial juncture in relations between blacks and whites when advances made since the Civil Rights Movement could either continue or retrench depending on the decisions made by our governments communities and schools The voices of African Americans heard in this book bring home for the reader the everyday impact of national policy issues and debates on race and class in America

Minding the Children Geraldine Youcha, 2009-04-28 Beyond childcare theories and early childhood gurus here is how children have actually been raised in America over the last four centuries From wet nurses and Southern mammys settlement houses and orphan trains to rigid British nannies foster care and the modern two worker family Geraldine Youcha's delightful book paints a wide ranging picture of American childhood In this updated paperback edition a lively new chapter brings the story through current childcare wars and present economic realities All in all it is a reassuring picture for despite a bewildering array of different styles and fads children have survived and often thrived While there are some harsh lessons to be learned here there is also plenty to lend optimism and help anxious parents relax

Researching Elites and Power Francois Denord, Mikael Palme, Bertrand Réau, 2020-08-12 This open access book describes how elite studies theoretically and methodologically construct their object i.e. how particular conceptualizations of elites are turned into research practice using different methods for collecting dealing with and analyzing empirical data The first of four sections focuses on what Mills named the power elite and includes Bourdieu's field of power The second section addresses studies of the domain of economic power whereas the third section centers on research on elite education The fourth and last section highlights research on symbolic power either within social fields or as a dimension of social structure at large areas where recognition is essential All sections comprise empirical case studies of elites and power whereby each of which makes explicit the various methodological choices made in the research process Through focusing on methodological approaches for the study of elites and power and on how such approaches relate to each other as well as to the theoretical

perspectives that underpin them this book will be a valuable source for social scientists

College Students' Experiences of Power and Marginality Elizabeth M. Lee, Chaise LaDousa, 2015-03-27 As scholars and administrators have sharpened their focus on higher education beyond trends in access and graduation rates for underrepresented college students there are growing calls for understanding the experiential dimensions of college life This contributed book explores what actually happens on campus as students from an increasingly wide range of backgrounds enroll and share space Chapter authors investigate how students of differing socioeconomic backgrounds genders and racial ethnic groups navigate academic institutions alongside each other Rather than treat diversity as mere difference this volume provides dynamic analyses of how students come to experience both power and marginality in their campus lives Each chapter comprises an empirical qualitative study from scholars engaged in cutting edge research about campus life This exciting book provides administrators and faculty new ways to think about students vulnerabilities and strengths

Elite Schooling and Social Inequality Aline Courtois, 2017-11-28 This book is the first significant sociological study of Ireland's elite private schools It takes the reader behind the gates of these secretive institutions and offers a compelling analysis of their role in the reproduction of social inequality in Ireland From the selection process to past pupils' union events from the dorms to the rugby pitch the book unravels how these schools gradually reinforce exclusionary practices and socialize their students to power and privilege It tackles the myths of meritocracy and classlessness in Ireland while also providing keys to understanding the social practices and legitimacy of elites By bringing out the voices of past pupils parents and school staff and incorporating vivid ethnographic descriptions the book provides a rare snapshot into a privileged world largely hidden from view It offers a unique contribution to research on elite education as well as to the broader fields of sociology of education and inequality As such it will appeal to researchers practitioners and the general public alike in Ireland and beyond

Elite Education Claire Maxwell, Peter Aggleton, 2015-10-05 *Elite Education International Perspectives* is the first book to systematically examine elite education in different parts of the world Authors provide a historical analysis of the emergence of national elite education systems and consider how recent policy and economic developments are changing the configuration of elite trajectories and the social groups benefiting from these Through country level case studies this book offers readers an in depth account of elite education systems in the Anglophone world in Europe and in the emerging financial centres of Africa Asia and Latin America A series of commentaries highlight commonalities and differences between elite education systems and offer insights into broader theoretical issues with which educationalists researchers and policy makers are engaging With authors including Stephen J Ball Donald Broady Rubén Gaztambide Fernández Heinz Hermann Krüger Maria Alice Nogueira Julia Resnik and Agnès van Zanten the book offers a benchmark perspective on issues frequently glossed over in comparative education including the processes by which powerful groups retain privilege and elite status in rapidly changing societies *Elite Education International Perspectives* will appeal to policy makers and academics in the fields

of education and sociology Simultaneously it will be of special relevance to post graduates enrolled on courses in the sociology of education education policy and education and international development *Perfectly Prep* Sarah A. Chase,2008-03-20 Although New England boarding schools have been educating America s elite for four generations they along with their privileged students rarely have been the subject of study Living in a senior boys dorm at a co ed school Sarah Chase was able to witness the inner workings of student culture and the dynamics of their peer groups In an environment of ivy covered buildings institutional goals of excellence and aspirations to Ivy League colleges the boys and girls acted extremely masculine or feminine While girls typically worked themselves into a state of sleep deprivation and despair during exam period the boys remained seemingly unconcerned and relaxed As much as the girls felt pressure to be cute and perfect the boys felt pressure to be bad ass and the best at everything Tellingly the boys thought that it would suck to be a girl while over one third of the girls wanted to be male if given the chance From her vantage point of sitting in the back of the football and field hockey buses attending prom and senior pranks and listening to how students described their academic and social pressures competition rumors backstabbing sex and partying Chase discovered that these boys and girls shared similar values needs and desires despite their highly gendered behavior The large class ethnic and individual differences in how the students perform their genders reveal the importance of culture in development and the power of individual agency This book examines the price of privilege and uncovers how student culture reflects and perpetuates society and institutional power structures and gender ideologies Youth Cultures in America Simon J. Bronner,Cindy Dell Clark,2016-03-21 What are the components of youth cultures today This encyclopedia examines the facets of youth cultures and brings them to the forefront Although issues of youth culture are frequently cited in classrooms and public forums most encyclopedias of childhood and youth are devoted to history human development and society A limitation on the reference bookshelf is the restriction of youth to pre adolescence although issues of youth continue into young adulthood This encyclopedia addresses an academic audience of professors and students in childhood studies American studies and culture studies The authors span disciplines of psychology sociology anthropology history and folklore The Encyclopedia of Youth Cultures in America addresses a need for historical social and cultural information on a wide array of youth groups Such a reference work serves as a corrective to the narrow public view that young people are part of an amalgamated youth group or occupy malicious gangs and satanic cults Widespread reports of bullying school violence dominance of athletics over academics and changing demographics in the United States has drawn renewed attention to the changing cultural landscape of youth in and out of school to explain social and psychological problems **New Sociologies of Elite Schooling** Jane Kenway,Aaron Koh,2019-07-09 Elite schools have an intriguing capacity to endure and adapt in the face of social cultural and political change They help both to reproduce power privilege and status and also to regularly produce them afresh The intricacies involved over time and place have attracted the abiding empirical methodological and conceptual interest of

sociologists and historians recently anthropologists and geographers have also responded to their allure Collectively the focus of such studies is usually on class making and the manner in which gender and race ethnicity place and mobility overlap and are part of the mix This edited collection is framed around the notion of a new sociology of elite education but it speaks into this wider space of inquiry in which studies of such schools are becoming more interdisciplinary In so doing it brings together a new array of conceptual and theoretical tools while also deepening those that already exist The contributions examine various configurations of contemporary class making and their attendant politics These explorations are situated in the specificities of geographical locales where the complex dynamics of both national local educational priorities and global transnational forces are played out In addition to showing how these dynamics put pressure on elite schools to redefine them the book s diverse international focus shines a light on new and emerging global patterns This book was originally published as a special issue of British Journal of Sociology of Education Social Stratification and Power in America Lynda Ann Ewen,1998 To find out more on Rowman Littlefield titles please visit us a [www rowmanlittlefield com](http://www.rowmanlittlefield.com)
