Preparing Africa for the Twenty-First Century John Mukum Mbaku, 2018-12-20 First published in 1999 this volume is written by seasoned African scholars and is intended to make a significant contribution to the debate on peaceful coexistence and sustainable development in the continent The book contains a very refreshing rigorous informative and multidisciplinary analysis of the transition in Africa and provides practical and effective policy options for Africans It breaks new ground in that it emphasizes the importance of institutions to economic growth and development in Africa As such it differs significantly from previous efforts which have tended to blame Africa's underdevelopment on incompetent ill informed and poorly educated leadership While agreeing that the shortage of competent and skilled technocrats has been a significant problem for many African countries during the last four decades the contributors argue that the most critical determinant of poverty and deprivation in the continent has been the absence of institutional arrangements that enhance the creation of wealth and allow ethnic and other social cleavages to live together peacefully Thus as Africans prepare their societies for the new century the first line of business should be state reconstruction a task that was supposed to have been undertaken shortly after independence but was never accomplished The main purpose of such an exercise is for each African country to design and adopt institutional arrangements that enhance peaceful coexistence of groups the creation of wealth and sustainable development

Iraq in the Twenty-First Century

Tareq Y. Ismael, Jacqueline S. Ismael, 2015-02-20 Much has been written about the events surrounding the 2003 Anglo American invasion of Iraq and its aftermath especially about the intentions principles plans and course of action of US policy but much less attention has been given to the consequences of US policy on Iraqi political and social development This book provides an in depth analysis of the impact of US policy on the social and political development of Iraq in the twenty first century It shows how not just the institutions of the state were destroyed in 2003 leaving the way open for sectarianism but also the country s cultural integrity political coherence and national oriented economy It outlines how Iraq has been economically impoverished assessing the appalling situation which ordinary people including women and children have endured not just as a result of the 2003 war but also as a consequence of the 1991 war and the sanctions imposed in the following years The book argues that the social political and cultural ruin that accompanied the Iraq war was an absolute catastrophe that the policies which had such adverse effects were the foreseeable consequences of deliberate policy choices and that those responsible continue to evade being made accountable
