Prescribing In Pregnancy:

Prescribing In Pregnancy Peter C. Rubin, 2000-04-17 A practical guide on prescribing in pregnancy for the busy doctor This text describes pharmacology in pregnancy and helps clinicians to make finely balanced decisions for the most effective treatment of both mother and baby Chapters by leading specialists cover the most common medical problems encountered in pregnancy including asthma epilepsy cardiovascular and endocrine disorders and diabetes *Drugs During Pregnancy and Lactation* Christof Schaefer, 2001-12-21 The care of pregnant women presents one of the paradoxes of modern medicine Women usually require little medical intervention during an uneventful pregnancy Conversely those at high risk of damage to their own health or that of their unborn require the help of appropriate medicinal technology including drugs Accordingly there are two classes of pregnant women the larger group requires support but not much intervention while the other needs the full range of diagnostic and therapeutic measures applied in any other branch of medicine This book presents the current state of knowledge about drugs in pregnancy In each chapter information is presented separately for two different aspects of the problem seeking a drug appropriate for prescription during pregnancy and assessing the risk of a drug when exposure has already taken place Practising clinicians who prescribe medicinal products to women who are or who may become pregnant will find this volume an invaluable reference **Handbook for Prescribing Medications During Pregnancy** Richard L. Berkowitz, Donald R. Coustan, Tara K. Mochizuki, 1981 **The Textbook of Non-Medical Prescribing** Dilyse Nuttall, Jane Rutt-Howard, 2015-06-15 The Textbook of Non Medical Prescribing is an easy to read comprehensive overview of the essential knowledge key issues and skills relevant to non medical prescribing Now fully updated and linked to the National Prescribing Centre Single Competency Framework for non medical prescribers with activities to help you link your continuing professional development within the competences required as a prescriber This practical title remains an ideal resource for all qualified health professionals to practice safe and effective non medical prescribing The section edition is structured around four core themes public health social and cultural issues prescribing principles and continuing professional development which are threaded throughout the text It also includes additional material on the importance on continuing professional development in prescribing as well as the history and context of non medical prescribing ethical legal and professional issues effective consultations essential pharmacology clinical skills prescribing for specific groups and the role of the multidisciplinary team Key Features Accessible and study friendly Each chapter has learning objectives and activities to support a deeper understanding of the theoretical knowledge base and its application to practice Case studies linking the topics to real life scenarios Companion website at www.wiley.com/go/nuttall with a range of self assessment questions quizzes numeracy exercises case studies and weblinks The Textbook of Non Medical Prescribing provides support to anyone studying for a prescribing qualification or looking for a refresher on the subject **Obstetrics: Prepare for the MRCOG** Philip N Baker, Alec S. McEwan, Sabaratnam Arulkumaran, Shreelata T Datta, Tahir A. Mahmood, Fiona
