## **Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology:**

*Presence and Coincidence* Chr Macann, 2011-09-26 For some twenty years now I have been working on a philosophical programme which falls into two parts a systematic metaphysics to be entitled Being and Becoming conceived in the general framework of ontological phenomenology but employing what I call a genetic methodology and an historical interpretation designed to support and confirm the ontological philosophy in question The historical part of the overall programme was originally conceived in the form of an Epochal Interpretation of the history of modern philosophy from Descartes on Part of the material accumulated towards such an Epochal Interpretation has however been deployed rather differently First the Kant material has already been turned into an interpretive transformation of Kant's Critical Philosophy Second the material on Husserl's Phenomenological Philosophy now forms the basis of the present study The interpretive transformation of Kant's Critical philosophy was published by Winter Verlag in the context of a Humboldt fellowship In that work I took Heidegger's Kant and the Problem of Metaphysics as my model Like Heidegger I subjected the Critical Philosophy to an interpretive procedure as a result of which I finished up with structures matching and reflecting the basic structures of my own genetic ontology But I sought to overcome certain limitations inherent in the Heideggerian project

**Presence and Coincidence** Chr Macann, 2012-12-06 For some twenty years now I have been working on a philosophical programme which falls into two parts a systematic metaphysics to be entitled Being and Becoming conceived in the general framework of ontological phenomenology but employing what I call a genetic methodology and an historical interpretation designed to support and confirm the ontological philosophy in question The historical part of the overall programme was originally conceived in the form of an Epochal Interpretation of the history of modern philosophy from Descartes on Part of the material accumulated towards such an Epochal Interpretation has however been deployed rather differently First the Kant material has already been turned into an interpretive transformation of Kant's Critical Philosophy Second the material on Husserl's Phenomenological Philosophy now forms the basis of the present study The interpretive transformation of Kant's Critical philosophy was published by Winter Verlag in the context of a Humboldt fellowship In that work I took Heidegger's Kant and the Problem of Metaphysics as my model Like Heidegger I subjected the Critical Philosophy to an interpretive procedure as a result of which I finished up with structures matching and reflecting the basic structures of my own genetic ontology But I sought to overcome certain limitations inherent in the Heideggerian project

### **Four Phenomenological**

Philosophers Christopher Macann, 2005-07-26 Introductory follows course structure and is ideal for beginners No other direct equivalent available      **From Phenomenology to Thought, Errancy, and Desire** B.E. Babich, 2013-04-17 For both continental and analytic styles of philosophy the thought of Martin Heidegger must be counted as one of the most important influences in contemporary philosophy In this book essays by internationally noted scholars ranging from David B Allison to Slavoj Žižek honour the interpretive contributions of William J Richardson's pathbreaking *Heidegger Through Phenomenology to Thought* The essays move from traditional phenomenology to the idea of essential another thinking the questions of translation and existential expressions of the turn of Heidegger's thought the intersection of politics and language the philosophic significance of Jacques Lacan and several essays on science and technology All show the influence of Richardson's first study A valuable emphasis appears in Richardson's interpretation of Heidegger's conception of *die Irre* interpreted as Errancy set in its current locus in a discussion of Heidegger's debacle with the political in his involvement with National Socialism      Historical Dictionary of Husserl's Philosophy John J. Drummond, 2022-03-14 Edmund Husserl is generally regarded as the founding figure of the philosophical movement of phenomenology by which he understands a descriptive science of the essential structures of experiences and of their objects precisely as these are experienced Phenomenology has had a decisive influence on philosophy in the 20th century especially in Europe The movement known as continental philosophy whether practiced in Europe or elsewhere has its roots in phenomenology and in the post Hegelian philosophies of Søren Kierkegaard Friedrich Nietzsche and Karl Marx *Historical Dictionary of Husserl's Philosophy* Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on his key concepts and major writings as well as entries on his most important predecessors contemporaries and successors This book is an excellent resource for students researchers and anyone wanting to know more about Edmund Husserl      *One Hundred Years of Phenomenology* D. Zahavi, Frederik Stjernfelt, 2013-04-17 This volume commemorates the centenary of *Logical Investigations* by subjecting the work to a comprehensive critical analysis It contains new contributions by leading scholars addressing some of the most central analyses to be found in the book

**Rediscovering Phenomenology** Luciano Boi, Pierre Kerszberg, Frédéric Patras, 2007-07-18 This book proposes a new phenomenological analysis of the questions of perception and cognition which are of paramount importance for a better understanding of those processes which underlies the formation of knowledge and consciousness It presents many clear arguments showing how a phenomenological perspective helps to deeply interpret most fundamental findings of current research in neurosciences and also in mathematical and physical sciences      **Phenomenology of Time** Toine Kortooms, 2012-12-06 Edmund Husserl occupied himself with the analysis of time consciousness throughout his life In this book the three stages that may be distinguished in Husserl's occupation with this theme are discussed in their interrelationship The first stage consists of a lecture manuscript from 1905 the second stage consists of the so called Bernau

manuscripts research manuscripts that were written in 1917 and 1918 and the final stage consists of the so called C manuscripts research manuscripts that were written in the late 1920s and the early 1930s Central themes in the discussion of Husserl's phenomenology of time in this book are the connection between the analysis of time consciousness and the analysis of phantasy consciousness and image consciousness Husserl's position in the debate between A Meinong and W Stern concerning the possibility of the perception of time the self constitution of absolute time consciousness the influence of Husserl's development of genetic phenomenology on his analysis of time consciousness and the question of the intentional character of time consciousness *Historical Dictionary of Heidegger's Philosophy* Frank Schalow, 2019-11-29 Martin Heidegger's thinking is a complex and his terminology is as nuanced as any thinker in the history of philosophy As the historian of philosophy par excellence he also exhibits both a greater appreciation and mastery of previous thinkers than any almost any other philosopher before or since The Historical Dictionary of Heidegger's Philosophy Third Edition addresses this dual challenge of reading understanding and interpreting Heidegger's vast writings The book provides a comprehensive and detailed account of the key terms shaping Heidegger's philosophy as well as outlining the development of his thought spanning the entirety of his career spanning almost sixty years The Dictionary also includes a discussion of Heidegger's seminal writings the spanning his entire Gesamtausgabe Complete Edition up through volume 99 of the projected 102 volumes This third edition of Historical Dictionary of Heidegger's Philosophy Third Edition contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 800 cross referenced entries that provides a clear and comprehensive exposition of the key developments in his life and his thought This book is an excellent resource for students researchers and anyone wanting to know more about Martin Heidegger Husserl's Position in the School of Brentano Robin D. Rollinger, 2013-06-29 Phenomenology according to Husserl is meant to be philosophy as rigorous science It was Franz Brentano who inspired him to pursue the ideal of scientific philosophy Though Husserl began his philosophical career as an orthodox disciple of Brentano he eventually began to have doubts about this orientation The Logische Untersuchungen is the result of such doubts Especially after the publication of that work he became increasingly convinced that in the interests of scientific philosophy he had to go in a direction which diverged from Brentano and other members of this school Brentanists who believed in the same ideal An attempt is made here to ascertain Husserl's philosophical relation to Brentano and certain other Brentanists Carl Stumpf Benno Kerry Kasimir Twardowski Alexius Meinong and Anton Marty The crucial turning point in the development of these relations is to be found in the essay which Husserl wrote in 1894 particularly in response to Twardowski under the title Intentional Objects which is translated as an appendix in this volume This study will be of interest to historians of philosophy and phenomenology in particular but also to anyone concerned with the ideal of scientific philosophy **Husserl and Heidegger on Being in the World** Søren Overgaard, 2004-04-30 It is a study of the phenomenological philosophies of Husserl and Heidegger Through a critical

discussion including practically all previously published English and German literature on the subject the aim is to present a thorough and evenhanded account of the relation between the two The book provides a detailed presentation of their respective projects and methods and examines several of their key phenomenological analyses centering on the phenomenon of being in the world It offers new perspectives on Husserlian and Heideggerian phenomenology e g concerning the importance of Husserl's phenomenology of the body the relationship between the Husserlian concept of constitution and Heidegger's notion of transcendence as well as in its argument that being designates the central phenomenon for both phenomenologists Though the study sacrifices nothing in terms of argumentative rigor or interpretative detail it is written in such a way as to be accessible and rewarding to non specialists and specialists alike **Body, Text, and Science** M.

Sawicki,2013-12-01 What is scientific about the natural and human sciences Precisely this the legibility of our worlds and the distinctive reading strategies that they provoke That account of the essence of science comes from Edith Stein who as Husserl's assistant 1916-1918 labored in vain to bring his massive *Ideen* to publication and then went on to propose her own solution to the problem of finding a unified foundation for the social and physical sciences Stein argued that human bodily life itself affords direct access to the interplay of natural causality cultural motivation and personal initiative in history and technology She developed this line of approach to the sciences in her early scholarly publications which too soon were overshadowed by her religious lectures and writings and eventually were obscured by National Socialism's ideological attack on philosophies of empathy Today as her church prepares to declare Stein a saint her secular philosophical achievements deserve another look **Structure and Diversity** E. Kelly,2013-03-14 FOUNDATIONALISM IN PHILOSOPHY

n his autobiographical work *The Education of Henry Adams* this I brooding and disillusioned offspring of American presidents confronted at age sixty his own perplexity concerning the new scientific world view that was emerging at the end of the century He noted that the unity of things long guaranteed morally by the teachings of Christianity and scientifically by the Newtonian world view was being challenged by a newer vision of things that found only incomprehensible multiplicity at the root of the world What happened if one dropped the sounder into the abyss let it go frankly gave up Unity altogether What was Unity Why was one to be forced to affirm it Here every body flatly refused help Adams got out his Descartes again dipped into his Hume and Berkeley wrestled anew with his Kant pondered solemnly over his Hegel and Schopenhauer and Hartmann strayed gaily away with his Greeks all merely to ask what Unity meant and what happened when one denied it Apparently one never denied it Every philosopher whether sane or insane naturally affirmed it I Adams then approaching with heavy pessimism a new century felt instinctively that were one to attack the notion of unity the entire edifice of human knowledge would quickly collapse For understanding requires the unification of apparently different phenomena *Truth and Singularity* Rudi Visker,2013-12-01 THE PART OF THE SUBJECT At the origin of these essays an increasing weariness produced by all those attempts to oppose what came to be known as Foucault's post structuralism to phenomenology as if the

two were incompatible and as if one could only proceed with thought after having chosen sides And an equal reluctance to join those who pretended they could carry on as they had before since quite obviously there were no sides to choose Foucault being but the latest example of a relativism that one could easily ignore since it had like all relativism already refuted itself by daring to speak And finally behind that weariness and that reluctance a suspicion that what these two reactions to Foucault had in common was a refusal to go toward the things themselves and thus a refusal to approach the texts that we refer to by that proper name as we would approach other phenomena not as the body object of a thought that we would have to locate as coming either before or after phenomenology but as a series of statements that appear to us in a certain way and whose appearing reveals to us something about our own finite being Idealism and Corporeity J. Dodd, 2012-12-06 In a way the problem of the body in Husserl's writings is relatively straightforward it is an exercise in faithful description and elaboration of a sense or meaning that of the lived body using the tools and methods of intentional analysis What is to be described is nothing exotic but a recognizable familiar element of experience further it is not something limited to any special type of experience but is ever present whether it is in the background or the center of attention Thus the lived body is in a way the most mundane of topics in phenomenology to be duly noted as a matter of course of course we should include the body in the analysis of lived space of course the body is an element in the consciousness of other persons Along with the obviousness of the task is the impression that at least at the outset the problem of the body does not appear to tax the resources of intentional analysis forcing us to raise critical questions about the scope and limits of phenomenological philosophy There is nothing extreme about the problem of the body it demands neither that we discern structures of the end most interior of consciousness as does the study of internal time consciousness nor does it call on us to fix the sense of the normativity that constitutes the logic of the world by grounding it in an absolute foundation *Eros and Eris* P. van Tongeren, Paul Sars, Chris Bremmers, Koen Boey, 2013-04-17 The articles in this book display the originality and creativity of Eros and Eris and their important role in the history of our culture particularly in the history of philosophy and its role in today's systematic philosophy Although these contributions to a hermeneutical phenomenology in this compilation are organized in a linear chronological order treating Homer Hesiod Plato Aristotle Augustine Bonaventure Thomas Aquinas Cusanus Kant Hegel Schelling Nietzsche Husserl Heidegger and Levinas they all carry out their own hermeneutical movement in the history of philosophy on the basis of a commitment with our life here and now and a thematic professional interest Among the contributors are R Bernasconi J Colette J F Courtine L Dupré Kl D sing J Greisch J Kockelmans P J Labarrie and G Jarczyk E Levinas Al Lingis J L Marion O Poggeler W Richardson P Ricoeur J Sallis M Theunissen and S Jusseling

**Lifetime** M.S. Frings, 2013-06-29 In comparison to Husserl and Heidegger Max Scheler's philosophy of time as first presented here is considerably wider in scope Using posthumous manuscripts Frings shows that Scheler conceived the origin of time in the self-activating center of individual and universal life as threefold absolute time of a four-dimensional expanse

This serves as a basis for establishing the phenomenon of objective time in multiple steps of constitutionality including the physical field theory and theory of relativity For Scheler objective time even though anchored in absolute time deserves maximum attention in a technological society Frings focuses here with Scheler on time experience of values and among social groups time experiences in the mind set of capitalism in politics and morals in population dynamics and time experiences in the process of aging all of which were signposts in Scheler s thought before his early demise Founding Community H.P. Steeves,1998-02-28 The direction of this text is both phenomenological and prescriptive as it attempts to provide a phenomenological foundation for communitarian ethical theory It argues that the Ego and the Other arise together in sense and we are committed to community in a foundational way Seeing the Self Einar Øverenget,2013-12-01 die Augen hat mir Husserl eingesetzt 1 he aim of Twentieth century phenomenology is to provide a non T psychologistic interpretation of subjectivity Husserl agrees with Frege to adopt psychologism is to give up truth But this should not prevent us from investigating the subjective perspective On the contrary Husserl thinks that an appropriate rejection of psychologism must be able to show how propositions are correlated to and grounded in subjective intuitions without thereby reducing them to psychological phenomena Obviously this calls for an interpretation of subjectivity that makes a sharp distinction between the subjective perspective and the psychological realm Phenomenology is devoted to the development of a notion of subjectivity that is in accordance with our experience of the world A fundamental tenet of phenomenology is that philosophy should not dispute this experience but rather account for it Hence phenomenology must avoid a notion of subjectivity in which it becomes a problem to account for how a subject can ever hook up with the world In other words a phenomenological interpretation of subjectivity must radically disassociate itself from what is often referred to as a worldless Cartesian subject a res cogitans But neither can an interpretation of SSubjectivity consistently advocate a position according to which the human order is described only in the categories appropriate to the physical order Such an interpretation is obviously not compatible with the phenomenal basis for undertaking this very interpretation that is our experience of the world

### **Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology Introduction**

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However,

## **Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology**

the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology free PDF files is convenient, it is important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it is essential to be cautious and verify the authenticity of the source before downloading Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Presence And Coincidence The

### **FAQs About Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology Books**

1. Where can I buy Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.

## **Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology**

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Presence And Coincidence The Transformation Of Transcendental Into Ontological Phenomenology books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
