## **Presence New Works Of Contemporary Art From Scotland:**

Presence ,2002-01-01      Scott Myles Scott Myles,Beatrix Ruf,2007 The oeuvre of Scottish artist Scott Myles is strongly gestural It consists of photographs objects serigraphs paintings and performance based projects a kind of reactivation of ideas on the valuation of art and social reality by means of the re use of already established aesthetic codes Thus along with known art historical works and their themes concepts such as generosity or communication play a big role as well as the involvement of the subject in his her own environment Myles work however also always deals with his experience as an artist with the role of the viewer and a certain openly avowed romanticism Along with all of this is a high degree of fictionalization and included in these fictions the potential for producing art This volume offers a comprehensive look into Myles artistic production from 1999 to 2006

**Re-envisioning the Contemporary Art Canon** Ruth Iskin,2016-12-08 Re envisioning the Contemporary Art Canon Perspectives in a Global World seeks to dissect and interrogate the nature of the present day art field which has experienced dramatic shifts in the past 50 years In discussions of the canon of art history the notion of inclusiveness both at the level of rhetoric and as a desired practice is on the rise and gradually replacing talk of exclusion which dominated critiques of the canon up until two decades ago The art field has dramatically if insufficiently changed in the half century since the first protests and critiques of the exclusion of others from the art canon With increased globalization and shifting geopolitics the art field is expanding beyond its Euro American focus as is particularly evident in the large scale international biennales now held all over the globe Are canons and counter canons still relevant Can they be re envisioned rather than merely revised Following an introduction that discusses these issues thirteen newly commissioned essays present case studies of consecration in the contemporary art field and three commissioned discussions present diverse positions on issues of the canon and consecration processes today This volume will be of interest to instructors and students of contemporary art art history and museum and curatorial studies

[Life, Times and Work of William Gillies, 1898-1973](#) Andrew McPherson, 2024-11-30 For seventy years William Gillies has been seen as a placid painter of landscape and decorative still life Andrew McPherson explodes this view to reveal a modernist whose response to the instabilities and violence of modernity touched universals of human experience Gillies' idiom was shaped by institutions for artistic production unique to Scotland

But it was the politics of Scotland's connections to the rest of the British Isles that produced his mythic and misleading reputation. New paintings and new meanings are uncovered placing the micro effects of modernity on mental health, family and community in the wider contexts of war, nationalism and public patronage. McPherson also shows how this changing world led Gillies towards new applications of modernist expression. Lavishly illustrated and referencing almost one thousand works, this major reappraisal is an indispensable source on the cultural politics of a four nation state and the reception of modernism in Britain.

**Scottish Art since 1960** Craig Richardson, 2017-07-05 Craig Richardson here addresses key areas of cultural politics and identity in a way that not only illuminates the development of Scottish art but teases out another strand of the plurality of developments which led to the success of artists throughout the UK in the 1990s. It is of the highest relevance whether one's perspective is that of the development of the Scottish art, British art or European art of this period. The book adds significantly to our knowledge of the art of this period in a way that will aid not only our historical understanding but our understanding of the dynamics of art practice today. Providing an analysis and including discussion, interviewing artists, curators and critics and accessing non catalogued personal archives towards a new chronology, Richardson here examines and proposes a sequence of precisely denoted exemplary works which outlines a self conscious definition of the interrogative term Scottish art. Among the artists whose work is discussed are John Latham, Simon Starling, Alan Johnston, Roderick Buchanan, Glen Onwin, Christine Borland, William Johnstone, Joan Eardley, Alexander Moffat, Douglas Gordon, Alan Smith, Graeme Fagen, Ross Sinclair and many others. The discussion culminates in a critically original demonstration of the scope for further research and practice within the subject, facilitating national cultural debate on the character of Scottish national visual art.
