Present Imperfect Imagining Utopia:

Present Imperfect, 1999 Presents three annotated works of utopian science fiction *The Roads Must Roll* Herland and *The Republic of the Southern Cross* and a section of related articles with discussion questions Law and the Utopian Imagination Austin Sarat, Lawrence Douglas, Martha Merrill Umphrey, 2014-05-21 *Law and the Utopian Imagination* seeks to explore and resuscitate the notion of utopianism within current legal discourse The idea of utopia has fascinated the imaginations of important thinkers for ages And yet who writes seriously on the idea of utopia today The mid century critique appears to have carried the day and a belief in the very possibility of utopian achievements appears to have flagged in the face of a world marked by political instability social upheaval and dreary market realities Instead of mapping out the contours of a familiar terrain this book seeks to explore the possibilities of a productive engagement between the utopian and the legal imagination The book asks is it possible to re imagine or revitalize the concept of utopia such that it can survive the terms of the mid century liberal critique Alternatively is it possible to re imagine the concept of utopia and the theory of liberal legality so as to dissolve the apparent antagonism between the two In charting possible answers to these questions the present volume hopes to revive interest in a vital topic of inquiry too long neglected by both social thinkers and legal scholars Radical Imagination Margarete Keulen, 1991 Before the New Feminism of the 1970s provided an ideological frame women writers of utopian fiction had not proposed radical alternative models of society On the basis of three contemporary American feminist novels *The left Hand of Darkness* by Ursula K LeGuin *Woman on The Edge of Time* by Marge Piercy and *The Wanderground* by Sally Miller Gearhart this study investigates the relations between different feminist theories and the creation of alternative fictional societies the influence of ideology on content and its impact on narrative technique **Sex in Imagined Spaces** Caitriona Dhuill, 2017-07-05 From Thomas More onwards writers of utopias have constructed alternative models of society as a way of commenting critically on existing social orders In the utopian alternative the sex gender system of the contemporary society may be either reproduced or radically re organised Reading utopian writing as a dialogue between reality and possibility this study examines the relationship between historical sex gender systems and those envisioned by utopian texts Surveying a broad range of utopian writing from the nineteenth and twentieth centuries including Huxley Zamyatin Wedekind Hauptmann and Charlotte Perkins Gilman this book reveals the variety and complexity of approaches to re arranging gender and locates these re arrangements within contemporary debates on sex and reproduction masculinity and femininity desire taboo and family structure These issues occupy a position of central importance in the dialogue between utopian imagination and anti utopian thought which culminates in the great dystopias of the twentieth century and the postmodern re invention of utopia **Edges of Reality** McGraw-Hill, 1998-11-01 **Feminist Imagination** Vikki Bell, 1999-11-28 Reading feminist theory as a complex imaginative achievement *Feminist Imagination* considers feminist commitment through the interrogation of its philosophical political and affective connections

with the past and especially with the race trials of the twentieth century The book looks at the directionlessness of contemporary feminist thought the question of essentialism and embodiment the racial tensions in the work of Simone de Beauvoir the totalitarian character in Hannah Arendt the mimetic Jew and the concept of mimesis in the work of Judith Butler Vikki Bell provides a compelling rethinking of feminist theory as bound up with attempts to understand oppression outside a focus on women She affirms femini

Geopolitical Imagination Mikhail Suslov,2020-11-02

In his timely book Mikhail Suslov discusses contemporary Russian geopolitical culture and argues that a better knowledge of geopolitical concepts and fantasies is instrumental for understanding Russia s policies Specifically he analyzes such concepts as Eurasianism Holy Russia Russian civilization Russia as a continent Novorossia and others He demonstrates that these

concepts reached unprecedented ascendance in the Russian public debates tending to overshadow other political and domestic discussions Suslov argues that the geopolitical imagination structured by these concepts defines the identity of post Soviet Russia while this complex of geopolitical representations engages at the same time with the broader international criticism of the Western liberal world order and aligns itself with the conservative defense of cultural authenticity across the globe Geopolitical ideologies and utopias discussed in the book give the post Soviet political mainstream the intellectual instruments to think about Russia's exclusion imaginary or otherwise from the processes of a global world which is reshaping itself after the end of the Cold War they provide tools to construct the self perception of Russia as a sovereign great power a self sufficient civilization and as one of the poles in a multipolar world and they help to establish the Messianic vision of Russia as the beacon of order tradition and morality in a sea of chaos and corruption

Earthing the Cosmic Christ of Ephesians—The Universe, Trinity, and Zhiyi's Threefold Truth, Volume 4 John P. Keenan,2024-02-26 In a Tiantai theology conventional truth is conventionally arisen which means that such truth is never set once and for all but is to be cherished and rethought in new circumstances whether interreligious or scientific but always in critical consonance with its ancient embodiments Contexts shift frameworks but life in Christ is translatable across cultures Christian faith and theology discourage the assumption that the point of it can be clearly pinned down God s appearance to Elijah out of the whirlwind is an eternal reminder of the paltriness of all human perspectives Symbolic worlds of faith and wisdom are not themselves finished products Because it has a past and a future the cosmos itself is unfinished Christian creeds ought not be defended as last word ideological positions and bastions against relativity but instead recognized in their cultural contexts and affirmed as grammars of communal and personal assent
