**The New Constitutional Law of Kenya. Principles, Government and Human Rights** Kiwinda Mbondenyei,Osogo Ambani,2012 The

golden thread that cuts across the various chapters of the book is the emphasis that good constitutions anchor certain tenets that have garnered recognition as hallmarks of democratic dispensation. These hallmarks include the concept of separation of powers, the doctrine of the rule of law, constitutionalism, and human rights. These attributes have largely been secured by the 2010 Constitution. Thus, this book is expected to contribute to this new promise by making knowledge on the Constitution accessible through breaking down and contextualising its provisions. It is certain to be useful to law and government students, lawyers, researchers, and other persons who seek to understand the new constitutional order. *Transformative*

*Constitutionalism and Kenya* Gautam Bhatia, 2025-06-10. A key book about rights, separation of powers, and the State which assesses a decade and a half of transformative constitutionalism in Kenya through the lens of landmark constitutional judgments, discussing their international import and suggesting new pathways towards democratic constitutionalism. In 2010, after more than two decades of struggle, Kenya's new Constitution was born. Widely accepted to be transformative in nature, in the decade and a half since it was enacted, the Constitution has been at the centre of national discourse. And in that time, the country's courts have been confronted with crucial and high-stakes constitutional disputes which are both distinctively Kenyan in nature but also are disputes that have long been common to constitutional democracies around the world. They include issues around constitutional change, federalism, imperial presidencies, the role of the legislature, election disputes, land rights, and horizontality, among others. Drawing comparisons with constitutional jurisdictions globally which often rely upon precedent from each other's jurisdictions, this book examines transformative constitutionalism under the 2010 Constitution and shows that while Kenyan courts have been informed by and been in conversation with global precedent, they have crafted unique and particular solutions. The book excavates the engagement of Kenyan Courts with the 2010 Kenyan Constitution to highlight the unique and innovative contributions that Kenyan courts have made to global constitutional problems and to suggest pathways for the future. Showcasing the jurisprudence of the courts in action, this book discusses how and when the power to amend a constitution can be limited or constrained and how constitutional change can be insulated from political interference. It examines issues of parliamentarianism and devolution in the context of the national controversy around constituency development funds and reveals how Kenya provides a model for understanding constitutional separation of powers. It looks at the process for challenging presidential elections and details how the Supreme Court has aimed to set out clear legal and evidentiary standards for how a court ought to deal with a pure political dispute, something with which judiciaries around the world have struggled. It explores the evolution of socio-economic rights, including the right to housing, non-discrimination, and equality before the law, as well as the question of how transformative constitutionalism interrogates private power. Placing contemporary Kenyan constitutionalism at its heart, this work of comparative constitutional law asks what the ongoing global constitutional conversation can learn from the Kenyan experience under its new order. risdictions globally which often rely upon precedent from each other's jurisdictions, this book examines transformative constitutionalism

African Politics P.F. Goniidec,2012-12-06 To an increasing extent nationals of Third World countries are protesting against the tendency of foreign theoreticians and observers to study their problems political problems in

particular in terms of concepts and theories established on the basis of European experiences For instance the Egyptian Abdel Malek I in *La diaiectique sociaie* writes At the starting point whose broad lines we sketch here there is evidence of inadequation deriving from the fact of difference Inadequation of the conceptual system of the social sciences Differences between Western societie which have provided the larger part of the analytical material for the con ceptual elaboration and establishment of theoretical systems in different disciplines on the one hand and non Western societies those of Asia Africa and Latin America on the other hand This does not mean that the author impugns universalism and that he advocates enclosing the Third World in a sort of intellectual ghetto overemphasizing its specificity and constituting as it were reserves designed to highlight the exotic aspect for the benefit of foreigners 2 On the contrary what he takes sociology to task for is its insufficiently universal and universalizing nature This being so his aim is to make concepts more universal and to rebuild theory with the help of reshaped concepts Abel Malek s criticisms are largely justified There is indeed a certain

eurocentricity in the theories elaborated by political scientists even if they deny it

**Postcolonial Legality: Law, Power and Politics in Zambia** Jeremy Gould, 2023-03-24 This book interrogates the ideology and practices of liberal constitutionalism in the Zambian postcolony The analysis focuses on the residual political and governmental effects of an imperial form of power embodied in the person of the republican president termed here prerogativism Through systematic long term ethnographic engagement with Zambian constitutionalist activists lawyers judges and civic leaders the study examines how prerogativism has shaped the postcolonial political landscape and limited the possibilities of constitutional liberalism This is revealed in the ways that repeated efforts to reform the constitution have sidelined popular participation and thus failed to address the deep divide between a small elite stratum from which the constitutional activists are drawn and the marginalized masses of the population Along the way the study documents the intimate interpenetration of political and legal action and examines how prerogativism delimits the political engagements of elite actors Special attention is given to the reluctance of legal activists to engage with popular politics and to the conservative ethos that undermines efforts to pursue a jurisprudence of transformational constitutionalism in the findings of the Constitutional Court The work contributes to the rising interest in applying socio legal analysis to the statutory domain in postcolonial jurisdictions It offers a pioneering attempt to deconstruct the amorphous and ambivalent assemblage of ideas and practices related to constitutionalism through detailed ethnographic interrogation It will appeal to scholars students and practitioners with an interest in theorizing challenges to political liberalism in postcolonial contexts as well as in rethinking the methodological toolbox of socio legal analysis
