Presidents Psychoanalyst

Peter Loewenberg, Nellie L. Thompson

Presidents Psychoanalyst:

Leadership, Psychoanalysis, and Society Michael Maccoby, Mauricio Cortina, 2022-05-09 Leadership Psychoanalysis and Society describes leadership as a relationship between leaders and followers in a particular context and challenges theories of leadership now being taught This book includes essays that view leadership from psychoanalytic social psychological sociological evolutionary developmental anthropological and historical points of view to fully describe the complexity of leadership relationships and personalities These essays analyze the different kinds of leadership needed in organizations the development of Black Leadership that provides hope for people who have been oppressed the difference between charismatic and inspirational leadership and the kind of training needed to develop leaders from diverse backgrounds who inspire followers and collaborate with them to further the common good This book offers a guide to understanding the different types of leadership and will be of interest to business government health care universities and other organizations

The Contemporary American President Robert E DiClerico, 2016-12-05 Debuting in its first edition The Contemporary American President explores the potential and limitations of presidential influence in times of rising public expectation for the office and the declining ability of presidents to meet it It focuses on six major areas concerning the presidency selection power accountability decision making personality and leadership and offers an appreciation of the challenges of the office as the institution attempts to function in an increasingly controversial political environment

A History of the Division of Psychoanalysis of the American Psychological Association Robert C. Lane, Murray Meisels, 2013-02-01 In 1909 G Stanley Hall the founder of the American Psychological Association invited Sigmund Freud Sandor Ferenczi Carl Jung and Ernest Jones to Clark University to present their understanding of psychoanalysis Although their presentations were enthusiastically received by many the discrepancy with what was then considered the mainline American psychological thought was too great and the two fields remained separate The formation of the Division of Psychoanalysis in 1979 seventy years later had as a major goal a rapprochement between psychoanalysis and psychology Analytically trained psychologists and those seeking training have responded with enthusiasm to the formation of the Division which now numbers 3 500 members in thirteen short years This volume records the history of the Division and the seminal contributions of its founding members It describes the dynamic tensions that have existed over the years between differing clinical and theoretical concepts of psychoanalysis leading to creative dialogue

The Annual of Psychoanalysis, V. 31 Jerome A. Winer, James W. Anderson, 2013-09-05 In 1958 William L Langer in a well known presidential address to the American Historical Association declared the informed use of psychoanalytic depth psychology as the next assignment for professional historians Psychoanalysis and History volume 31 of The Annual of Psychoanalysis examines the degree to which Langer's directive has been realized in the intervening 45 years Section I makes the case for psychobiography in the lives of historical figures and exemplifies this perspective with analytically informed studies of the art of Wassily Kandinsky the films of Stanley Kubrick

and the anti-Semitism of Adolf Hitler Section II reviews Freud's own psychohistorical contributions and then considers the relevance to historical inquiry of the more recent perspectives of Winnicott, Kernberg and Kohut Section III explores an intriguing tributary of psychobiographical inquiry: the impact of the biographer's own subjectivity on his or her work Section IV turns to a topic of perennial interest: the psychobiographical study of American presidents Section V turns to the special challenges of applying psychoanalysis to topics of religious history and includes topical studies of religious figures as disparate as the 15th century Asian Drukpa Kunley and Osama bin Laden Section VI focuses on the recent extension of psychohistorical inquiry to groups of people and to cultural phenomena more generally: an investigation of the youth movement in pre-Nazi Germany; consideration of how societies no less than individuals reenact and work through traumas over time; and an outline of the role of analysis in constructing a depth psychological social psychology of use to historians. These papers no less than those that precede them are compelling testimony to the claim with which editors James William Anderson and Jerome A. Winer begin the volume: to wit, that Psychoanalysis would seem to be a resource indispensable to the study of history.

Truth, Reality and the Psychoanalyst Silvia Flechner, 2018-10-08 Psychoanalysis has long thrived in Latin America. Like the rest of the psychoanalytic world, our Latin American colleagues are diverse in their thinking, but there is nevertheless a distinct cultural voice with which they speak. Unfortunately, language barriers have interfered with the communication of this unique and highly sophisticated way of thinking to colleagues around the world. This stimulating new volume goes a long way to fill this void by presenting a collection of essays that present Latin American psychoanalysis at its best. An added treat is the cross-cultural dialogue provided by commentators for each chapter from other psychoanalytic cultures. I highly recommend this exciting new contribution to both candidates and experienced analysts.

The Future of Psychoanalysis Peter Zagermann, 2018-05-08 This book is concerned with the question of what psychoanalytic training should look like today. Should we go on with the system that has developed over time? Or should we abandon it, and if so, for which reasons? It provides a detailed and compelling account of the ongoing, sometimes heated international debate about psychoanalytic training. After nearly a century since the onset of formal psychoanalytic training in the 1920s in Berlin, experiences with the prevalent Eitingon model are presented and looked at from different perspectives. Experienced psychoanalysts from all the regions of the psychoanalytic world and from different schools of psychoanalytic thought and clinical conceptualizations share their ideas, critique, and on occasion their diagnoses. Perhaps no other topic of present-day scientific discussion in the field is as prone to evoke more controversial and passionate reactions than the subject of training.

Psychoanalysis and Psychotherapy in China David E. Scharff, 2018-05-08 This volume of *Psychoanalysis and Psychotherapy in China* continues the tradition we began last year of featuring cultural issues that confront analysts and therapists as they apply psychoanalytic thinking to their work with Chinese patients and students. Therapy and work with institutions is embedded in the civilization in which we work, so the issues facing China and its people confront us every day.

that we conduct therapy consultation and training there

Psychoanalysis on the Move Arnold M. Cooper, Peter Fonagy, Robert S. Wallerstein, 2003-09-02 Peter Fonagy Winner of the 2010 Sigourney Award Joseph Sandler has been an important influence in psychoanalysis throughout the world during the latter part of the twentieth century contributing to changing views on both psychoanalytic theory and technique He has also been a bridging force in psychoanalysis helping to close the gap between American ego psychologists and British Kleinian and object relations theorists Psychoanalysis on the Move provides a comprehensive and accessible overview of Sandler's contribution to the development of psychoanalysis The contributors trace the development of the main themes and achievements of Sandler's work in particular his focus on combining psychoanalytic theory and clinical practice Timely and important Psychoanalysis on the Move should make interesting reading for psychoanalysts psychotherapists and all those who wish to know more about one of the most creative figures in psychoanalysis of the past few decades

Psychoanalysis Burness E. Moore, Bernard D. Fine, 1999-11-01 In this important book experts in the field survey current psychoanalytic theory discussing its principles technical aspects clinical phenomena and applications The book is both an introduction to and a statement of mainstream American psychoanalysis today and will be a standard reference for psychoanalytic trainees authors and teachers Under the direction of the editors and a distinguished panel of advisors the contributors present a broad overview of more than forty key clinical and theoretical concepts They define each concept trace its historical development within psychoanalysis describe its present status discuss criticisms and controversies about it and point out emerging trends A selected reference list is supplied for each concept Together the articles provide a systematic examination of the theoretical infrastructure of psychoanalysis The book has been designed as a companion volume to Psychoanalytic Terms and Concepts a glossary edited by Drs Moore and Fine under the auspices of the American Psychoanalytic Association

The Trojan Horse President Peter A. Olsson and Laurence F. Messner, 2019-03 Authors Peter A Olsson and Laurence F Messner both had high hopes when Barack Obama was elected President of the United States We were impressed with Obama's gift for moving and eloquent speeches As both black and white himself Obama had a unique opportunity We had hopes that Obama would bring black America and white America together to continue our country's solid progress toward freedom and justice for all the authors state After a severe economic crisis we hoped for the return of American economic prosperity military power and spiritual leadership for peace in the world through American strength of leadership We have been sorely disappointed in Mr Obama This book expresses our intense disappointments and the rationale behind our thinking The opinions discussions and correspondence in The Trojan Horse President took place from soon after Barack Obama's election to the presidency until just before the presidential election of 2016

Psychoanalysis in Asia Alf Gerlach, Maria Teresa Savio Hooke, Sverre Varvin, 2018-04-27 The world is looking East Whilst in the West psychoanalysis is fighting to maintain its position among the other therapies in a society which has less time for introspection and self reflective thought in Asia a new frontier is opening up we are witnessing a

surge of interest for psychoanalysis among the mental health professionals and among the younger generations interest which is articulated and nuanced differently in the different Asian countries In Asia and particularly in India Japan South Korea Taiwan and China the development of psychoanalysis reflects separate socio political historical contexts each with a rich cultural texture and fuelled by the interest of a new generation of mental health professionals for psychoanalysis as a therapeutic method

Psychoanalysis and Covidian Life Howard B. Levine, Ana Staal, 2021-03-29 Showcasing a diverse range of contributions from psychoanalysts of many different countries and theoretical orientations Psychoanalysis and Covidian Life a collective work edited by Howard B Levine and Ana de Staal offers readers the opportunity to explore and reflect upon the ways in which the Covid 19 pandemic has begun to influence analytical practice From the changes imposed on the framework online sessions to the impact of the trauma of isolation and the disruption of our social anchoring required by confinement and health protection gestures to the challenge presented to the ordinary denial of mortality this book explores the lessons of what the pandemic can teach us about how to understand and treat collective distress individually and puts psychoanalytical tools to the test of the profound psychosocial upheavals that the twenty first century may hold in store This book will be of interest to practising and trainee clinicians and anyone with an interest in the all consuming effects of a global pandemic Contributions from Christopher Bollas Patricia Cardoso de Mello Bernard Chervet Joshua Durban Antonino Ferro Serge Frisch Steven Jaron Daniel Kupermann Howard Levine Francois Levy Riccardo Lombardi Elias Alberto Rocha Barros Michael Rustin Ana de Staal and Jean Jacques Tyszler

The Psychological Assessment of Presidential Candidates Stanley A. Renshon, 2013-10-14 Looking back over the past 25 years Stanley Renshon explores how the issue of character has come to dominate presidential campaigns Drawing on his clinical and political science training Renshon has devised a theory which allows the public to evaluate the qualities of presidential candidates

Psychoanalysis Globally Networked Andrea Huppke, 2023-11-09 This enlightening volume examines the origins and development of the International Federation of Psychoanalytic Societies IFPS It investigates how its structure and concept differed from other societies and how the autonomy of IFPS members has remained fundamental from its inception up to the present day

Psychotherapy in the Third Reich Thomas Blomberg, 2018-04-27 The idea for this book sprang from Geoffrey Cocks curiosity as to what happened in the new dynamic field of psychotherapy in Germany with the advent of Hitler While traditional views merely asserted that the Nazis destroyed the field of psychotherapy in Germany a viewpoint justifiably based on the testimony of those in the field who had emigrated from Germany to escape Nazi persecution Cocks learned that there was more to the story He looked to several interesting shards of evidence that pointed to the possibility that one could reconstruct a history of morally questionable professional developments in German psychotherapy during the Third Reich The evidence included existence of a journal for psychotherapy published continuously from 1928 to 1944 accounts of a psychotherapist who assumed leadership of his colleagues and who was a relative of the powerful Nazi leader Hermann Goring and a strong

psychotherapeutic lobby in German medicine that was intellectually impoverished but apparently not destroyed by the expulsion of the prominent and predominantly Jewish psychoanalytic movement. Non-Jewish psychoanalysts and psychotherapists had in fact pursued their profession under the aegis of the so-called Goring Institute with substantial support from agencies of the Nazi party, the Reich government, the military and private business. Much research has been done in the ten years since the first edition of this book was published, hence the need for a second edition. Included is more information on the history of psychotherapy and psychoanalysis in Nazi Germany, on the social history of the Third Reich and on the history of the professions in Germany. Three new chapters analyze postwar developments and conflicts as well as broader issues of continuity and discontinuity in the history of modern Germany and the West. In addition, the author has reorganized the volume along chronological and narrative lines for greater ease of reading. *Psychotherapy in the Third Reich* is an important work for psychotherapists, psychologists, psychoanalysts, sociologists and historians. *The Astonishing*

Adolescent Upheaval in Psychoanalysis Roosevelt Cassorla, Silvia Flechner, 2024-02-26. This book brings together international contributors to share insight from their theoretical and clinical work with adolescents, considering the different psychopathological responses they see in adolescent patients and how these can be worked with in analysis. Each chapter addresses a specific topic, focusing on representing the clinical realities facing psychoanalysts in treating adolescents with different types of disturbances at the psychic level. They cover a range of situations and perspectives, including discussion of maternal violence, the erotic field, self-mutilation and social withdrawal, with a core focus on issues affecting contemporary adolescents. Bringing together a vast range of experience, *The Astonishing Adolescent Upheaval in Psychoanalysis* presents a new approach which re-establishes the impact of the responses of significant objects in the impasses present in narcissistic suffering. This book will be of great interest to all psychoanalytic and psychodynamic clinicians working with adolescents.

Presidential Personality And Performance Alexander L. George, Juliette L. George, 2019-09-11. This book, which examines the leadership styles and decision-making practices of presidents from Woodrow Wilson to Bill Clinton, reflects the authors' interest for over half a century in the impact of personality on the political behavior of our political leaders. Its contents range from the story of the Georges' collaboration on their pioneering study **100 Years of the IPA** Peter Loewenberg, Nellie L.

Thompson, 2019-06-26. This book offers a close glimpse of the nuanced dialectic between major psychoanalytic concepts and the sociopolitical environments in which such ideas were germinated, spread, took roots and further evolved. **Updating Midlife** Guillermo Julio Montero, Alicia Mirta Ciancio de Montero, Liliana Singman de Vogelfanger, 2018-05-08. Midlife is a concept used everywhere and from many different vantage points, though mostly imprecisely, even within the psychoanalytic paradigm. This book tries to settle its proper meaning through the challenge of laying the foundations for the development of a true psychoanalytic metapsychology for midlife, something that the editors believe in psychoanalysis was lacking. From this viewpoint, they invited fourteen renowned psychoanalysts to share their ideas about the issue. The outcome of that work is

Updating Midlife Psychoanalytic Perspectives which in addition to the various contributions includes an introductory paper by the editors This book is a true step forward in the development of a specific metapsychology for midlife A

Psychoanalytic Exploration of Social Trauma Cristina Călărășanu,Ulrich Schultz-Venrath,Hansjorg Messner,2022-12-30 A Psychoanalytic Exploration of Social Trauma presents a thorough introduction to social trauma from a range of perspectives exploring several key themes specific causes and symptoms and clinical interventions With chapters from a diverse range of authors the book considers social trauma as it relates to stories and history group identity the consulting room migration and post traumatic conditions These topics are explored via a range of frames including individual therapy group analysis social dream matrix large groups case studies narrative recollections and cinematographic expression The book also considers the implications of new technology in causing and treating social trauma A Psychoanalytic Exploration of Social Trauma will be of great interest to psychoanalytic psychotherapists in practice and in training psychoanalysts and psychoanalytically informed professionals working with trauma
