

Presidents and Parliaments

- Governments are formed through historical circumstances.
- Today most countries have some form of democratic government, either a **presidential system** or a **parliamentary system**.

Presidential

- President—Elected by the people for a limited term of office
- Head of state and in charge of executive branch
- Deals with cabinet members, policy, armed forces, foreign affairs, domestic legislation
- Powers checked by legislative branch

Parliamentary

- Most democracies modeled after British system
- Executive and legislative combined
- Prime minister chosen by and from parliament (elected legislature); member of majority party
- Appoints cabinet members from majority party

Presidents Parliaments And Policy

Herbert Döring

Presidents Parliaments And Policy:

Presidents, Parliaments, and Policy Stephan Haggard, Matthew D. McCubbins, 2001-01-15 Advocates of parliamentary rule have been highly critical of presidentialism for dividing powers and providing the opportunity for gridlock between branches Fixed executive terms can saddle publics with ineffectual leaders who are not easily removed Yet the great theorists of presidential rule beginning with the Federalists saw very different qualities in the same institutions a desirable combination of strong leadership with checks on executive discretion These diverse assessments arise because we have surprisingly little comparative work on how presidential democracies function The introductory essays in this volume lay the theoretical groundwork for such comparative analysis Drawing on detailed cases of economic policymaking in Asia Latin America and Central Europe this book shows the diversity of presidential systems and isolates the effects of presidentialism from other factors that influence public policy such as party systems In doing so it casts doubt on the critics of presidential rule and underscores the continuing vitality of this particular form of democratic rule

The Structure of Policy Evolution Oldrich Bubak, 2023-02-17 This book advances novel tools for the study analysis and development of public policy essential in a world of growing diversity complexity and accelerating change Inspired by research in technology innovation the book brings its forward applications into the studies of policy and institutional systems answering among others the disciplinary need for a common model of change Relating together the dynamics and the structure of policy evolution the unified approach offers scholars important new insights into the logics and direction of policy development while advancing policy practitioners capacity for forecasting and optimizing designs Analyzing social and labour market policy development across two model jurisdictions the United Kingdom and Denmark it substantiates the new approach while demonstrating its significance to the study of welfare modernization and to policy scholarship more generally The book will be of key interest to scholars and students of policy and institutional development policy analysis and public administration and management as well as comparative policy evolutionary and complexity policy and social policy and welfare state modernization research

Patterns of Parliamentary Behavior Herbert Döring, 2017-03-02 This volume begins where the first D ring book of 1995 finished by considering what effects the rules had on legislative output during the same period It addresses four distinct yet complementary research topics the connection between a number of veto players and law production in West European parliamentary democracies the impact of closed versus open rules the effects of committee structure and organization on the degree of conflict or consensus on the procedure of passing legislation the importance of agenda setting and agenda control for the prevention of cycling across issues and the distribution of particular benefits of shifting and transient majorities Fundamental to this volume is the ability of the project group to fashion an original data set As a consequence this volume is able to ascertain the extent to which parliamentary procedures contributed to shaping policy output in this field during the 1980s

Falling Behind , Shaping the Metropolis Zack Taylor, 2019-05-23 Rising income inequality and concentrated

poverty threaten the social sustainability of North American cities Suburban growth endangers sensitive ecosystems water supplies and food security Existing urban infrastructure is crumbling while governments struggle to pay for new and expanded services Can our inherited urban governance institutions and policies effectively respond to these problems In *Shaping the Metropolis* Zack Taylor compares the historical development of American and Canadian urban governance both at the national level and through specific metropolitan case studies Examining Minneapolis St Paul and Portland Oregon in the United States and Toronto and Vancouver in Canada Taylor shows how differences in the structure of governing institutions in American states and Canadian provinces cumulatively produced different forms of urban governance Arguing that since the nineteenth century American state governments have responded less effectively to rapid urban growth than Canadian provinces he shows that the concentration of authority in Canadian provincial governments enabled the rapid adoption of coherent urban policies after the Second World War while dispersed authority in American state governments fostered indecision and catered to parochial interests Most contemporary policy problems and their solutions are to be found in cities *Shaping the Metropolis* shows that urban governance encompasses far more than local government and that states and provinces have always played a central role in responding to urban policy challenges and will continue to do so in the future

Legislative Institutions and Lawmaking in Latin America Eduardo Alemán, George Tsebelis, 2016-09-01 In this volume twelve experts on Latin American politics investigate the ways in which the interaction between legislative institutions and the policy positions of key actors affects the initiation and passage of legislation covering seven Latin American Countries Argentina Brazil Chile Colombia Mexico Peru and Uruguay These seven presidential systems vary widely in terms of their legislative institutions and the position of relevant actors The introduction provides a framework to understand the interaction of legislative majorities political institutions and policy position and each chapter begins with a description of the constitutional and congressional rules that allocate powers to propose amend and veto legislation The authors then identify the political actors who have these prerogatives and apply the framework to show how their policy positions and relative strengths influence legislative decision making The findings are consistent with the basic argument of the book that presidents with extensive legislative powers may be constrained by the positions of their legislative allies whereas weaker presidents may be well positioned to build successful coalitions to achieve their legislative goals The essays in this volume demonstrate that institutional design which determines the allocation of legislative powers must be considered along with the policy preferences of key legislative actors in order to construct a full picture of law making Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of

Oxford **Politicians and Economic Reform in New Democracies** Kent Eaton, 2010-11 As economic reform in developing countries has shifted from macroeconomic stabilization to liberalization opportunities for legislators to influence the process and outcome of reform have increased and their role has become more important This book focuses attention on differences in institutional structure in political parties and electoral rules to show how they create incentives that can explain the varying ways in which legislators respond to policy initiatives from the executive branch In Argentina and the Philippines presidents proposed similar fiscal reforms in the 1990s expanding tax bases strengthening tax administration and redesigning tax revenue sharing with subnational governments Drawing on archival research and interviews with policy makers Kent Eaton follows the path of legislation in these three areas from initial proposal to final law to reveal how it was shaped by the legislators participating in the process Obstacles to the adoption of reform he demonstrates are greater in candidate centered systems like the Philippines where the cultivation of personal reputations is paramount than in party centered systems like Argentina s where loyalty to party leaders is emphasized To test his argument further Eaton looks finally at other kinds of reform ventured in these two countries and at tax reforms attempted in some other countries

Handbook of New Institutional Economics Claude Ménard, Mary M. Shirley, 2008-06-27 New Institutional Economics NIE has skyrocketed in scope and influence over the last three decades This first Handbook of NIE provides a unique and timely overview of recent developments and broad orientations Contributions analyse the domain and perspectives of NIE sections on legal institutions political institutions transaction cost economics governance contracting institutional change and more capture NIE s interdisciplinary nature This Handbook will be of interest to economists political scientists legal scholars management specialists sociologists and others wishing to learn more about this important subject and gain insight into progress made by institutionalists from other disciplines This compendium of analyses by some of the foremost NIE specialists including Ronald Coase Douglass North Elinor Ostrom and Oliver Williamson gives students and new researchers an introduction to the topic and offers established scholars a reference book for their research **Responsive Democracy**

Jeeyang Rhee Baum, 2011-01-18 When and why do democratic governments respond to their citizens **Presidential Impeachment and the New Political Instability in Latin America** Aníbal Pérez-Liñán, 2007-07-09 For two decades students of presidentialism have argued that extreme executive legislative conflict ignites military interventions However in recent years many Latin American presidents have been removed from office without democratic breakdowns This book addresses the emerging paradox of unstable governments in the midst of stable democracies **Routledge Handbook of**

Russian Politics and Society Graeme Gill, 2022-12-23 This second edition of the highly respected Routledge Handbook of Russian Politics and Society both provides a broad overview of the area and highlights cutting edge research into the country Through balanced theoretical and empirical investigation each chapter examines both the Russian experience and the existing literature identifies and exemplifies research trends and highlights the richness of experience history and continued

challenges inherent to this enduringly fascinating and shifting polity Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook answers questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption the development of a market economy and Russia s likely place in the emerging new world order Providing a comprehensive resource for scholars students and policy makers alike this book is an essential contribution to the study of Russian studies politics Eastern European studies politics and International Relations

Post-Communist and Post-Soviet Parliaments Philip Norton, David M. Olson, 2013-09-13 The sudden collapse of communism stimulated both the rapid emergence of fledgling democracies and scholarly attention to the post communist transition These newly democratized parliaments have been described as parliaments in adolescence This book identifies six parliaments which exemplify the wide range of developments in the new post communist political systems from the stable consolidated democracies to the less stable and more authoritarian states within which their respective parliaments function Finally the post communist parliaments are compared with the presumptively more established west European parliaments This book bridges the usual gap in research between the post communist parliaments and more normal democratic parliaments to develop a common legislative research perspective on both new and established parliaments This book was previously published as a special issue of the Journal of Legislative Studies *Environmental Taxation in Practice* Thomas Sterner, 2017-05-15 Since the 1980 s market based instruments for environmental policy have become increasingly important Focusing on environmental taxation in practice this volume collects key contributions on a wide range of topics including comparisons of environmental taxation schemes in different countries political economy issues and key aspects of concrete implementation It presents a wealth of ex ante and ex post analyses intended as a source of guidance for policy implementation and research The volume features a full length introduction locating the literature on environmental taxation in practice in a wider context of theoretical and applied issues

The Political Economy of the Small Welfare State in South Korea Chae-jin Yang, 2017-09-28 Machine generated contents note 1 Introduction 2 Theoretical reinterpretation of the small welfare state in South Korea 3 The emergence of the small welfare state under the authoritarian developmental state 1961 1987 4 Democratization and limited welfare state development under the conservative rule 1987 1997 5 Economic crisis power shift and welfare politics under the Kim Dae Jung government 1997 2002 6 Economic Unionism and the limits of the Korean welfare state under the Roh Moo Hyun government 2003 2007 7 Wind of welfare and tax politics under the returned conservative rule 8 Conclusion Approaching the EUropean Federation? Søren Dosenrode, 2016-04-08 The European project has within only 52 years achieved a surprising momentum and the European Union is now approaching full statehood The Convention on the Future of Europe has finished its work and handed over a proposal for a constitutional treaty to the Heads of State and Government of the EU It is therefore the ideal time to present an integrated analysis of what

appears to be the emerging European State This key volume therefore discusses the central questions and concepts within the field of European studies which include federalism the relationship between statehood and constitution integration and constitution the regions in the new Europe and the EU as an international actor These discussions are then developed and analyzed in relation to the draft constitution Timely and insightful the volume is suitable for courses on European integration federalism and international politics Legislative Politics and Economic Power in Russia P. Chaisty,2006-04-12 Chaisty looks at the legislative actors and institutions that have shaped economic law making in Russia since 1990 Assessing the influence of partisan bureaucratic regional and corporate interests in Russia s post communist parliaments the book considers Russia s political stability and economic development *The Oxford Handbook of Legislative Studies* Shane Martin,Thomas Saalfeld,Kaare W. Strøm,2014-06-19 Legislatures are political bodies essential to democracy and the rule of law They present social scientists with numerous intriguing puzzles with far reaching implications for our understanding of political institutions Why and how have these ancient assemblies established in pre democratic times survived the transition to mass democracies How have they adapted How do they structure such processes as budgeting legislation and executive oversight How do their members get selected and what consequences flow from differences in these rules What roles do committees and political parties play in contemporary legislatures What functions do legislatures perform in autocratic semi democratic or recently democratized societies What explains the similarities and differences in legislative rules powers and recruitment What are the policy and other consequences of variation in how legislatures are organized and function The 33 chapters in *The Oxford Handbook of Legislative Studies* written by 47 of the most distinguished legislative scholars provide a comprehensive and up to date description and assessment of the state of the art in legislative studies Key themes explored include theoretical paradigms and methodological approaches to the study of legislatures representation and legislative careers internal organization the role of parties within legislatures and the role of legislatures in policy making and accountability The Handbook also explores the emergence of parliaments in historical and contemporary contexts including new democracies and trans national institutions International Financial Co-Operation Bryce Quillin,2008-02-14 Pt 1 Historical and theoretical perspectives on the 1988 Basel Accord pt 2 Quantitative studies pt 3 Case studies **Reforms that Stick** Joannah Luetjens,2023-08-14 This incisive book examines how and why some major policy reforms endure while others fail to gain traction and embed themselves Tracing the development of key policy reforms over time it offers original insight into how to create and embed positive changes that continue to deliver over the long term **Judging Regulators** Eric C. Ip,2020-10-30 Drawing insights from economics and political science *Judging Regulators* explains why the administrative law of the US and the UK has radically diverged from each other on questions of law fact and discretion
