Guerrillas and Revolution in Latin America Timothy P. Wickham-Crowley, 2018-06-26 In this comparative survey of guerrilla movements in Latin America Timothy Wickham Crowley explores the origins and outcomes of rural insurgencies in nearly a dozen cases since 1956 Focusing on the personal backgrounds of the guerrillas themselves and on national social conditions the author explains why guerrillas emerged strongly in certain countries but not others He considers for example under what circumstances guerrillas acquire military strength and why they do or do not secure substantial support from the peasantry in rural areas

Militarism and Politics in Latin America Daniel Masterson, 1991-08-26 This comprehensive case study of the modern Peruvian military examines the professional development of South America's most controversial military establishment from the early 1930s to the present Based on extensive research in Peruvian military archives and numerous interviews with active and retired members of the Peruvian armed forces this study is placed in the context of Peruvian national politics and South American military affairs Particular emphasis is given to the impact of France and U S military theory upon the Peruvian military mentality Revolutionary politics from the Alianza Popular Revolucionaria Americana APRA in the 1930s to the present day's Sendero Luminoso also figure prominently This study also explores the rationale behind General Velasco's social and economic reforms 1968-1975 and assesses the Velasco government's legacy for contemporary Peru For the first time the Soviet Union's heavy involvement in Peru is examined As the only comprehensive case study in English of the modern Peruvian military this volume will be of interest to students and scholars of contemporary Latin America This is a detailed historical study of the highly complex Peruvian military establishment and its place in Peruvian society It includes a review of the 1930s an in depth analysis of the armed forces from the late 1930s to the first Belaunde regime 1963-1968 the immediate antecedents of Peru's 12 year military government 1968-1980 known as the Docenio preliminary overview of the Docenio and its troubled legacy an assessment of the Sendero Luminoso Shining Path insurgency and a critique of the armed force's counter terrorism campaign Militarism and Politics in Latin America draws extensively on Latin American and U S

archival sources and personal interviews and includes rare photographs The Rise and Fall of the Peruvian Military Radicals 1968-1976 George D.E. Philip, 2015-11-19 Philip tackles the major problems posed by military radicalism in Peru between 1968 and 1976 He discusses the ideology of the military the commitment of the officer corps to reform the degree of reformism and the limits of popular participation and attempts to answer why it was possible for a radical military government to arise in Peru The answers contribute not only to an understanding of modern Peru but also to the general study of the military in politics **Shock to the System** Michael K. Miller, 2021-07-20 How violent events and autocratic parties trigger democratic change How do democracies emerge Shock to the System presents a novel theory of democratization that focuses on how events like coups wars and elections disrupt autocratic regimes and trigger democratic change Employing the broadest qualitative and quantitative analyses of democratization to date Michael Miller demonstrates that more than nine in ten transitions since 1800 occur in one of two ways countries democratize following a major violent shock or an established ruling party democratizes through elections and regains power within democracy This framework fundamentally reorients theories on democratization by showing that violent upheavals and the preservation of autocrats in power events typically viewed as antithetical to democracy are in fact central to its foundation Through in depth examinations of 139 democratic transitions Miller shows how democratization frequently follows both domestic shocks coups civil wars and assassinations and international shocks defeat in war and withdrawal of an autocratic hegemon due to autocratic insecurity and openings for opposition actors He also shows how transitions guided by ruling parties spring from their electoral confidence in democracy Both contexts limit the power autocrats sacrifice by accepting democratization smoothing along the transition Miller provides new insights into democratization s predictors the limited gains from events like the Arab Spring the best routes to democratization for long term stability and the future of global democracy Disputing commonly held ideas about violent events and their effects on democracy Shock to the System offers new perspectives on how regimes are transformed The Political Economy of Peru 1956-78 E. V. R. Fitzgerald, 1980-01-10 **Democracy Without Decency** William M. Epstein, 2013-05-31 The conservative attacks on the welfare system in the United States over the past several decades have put liberal defenders of poverty relief and social insurance programs on the defensive In this no holds barred look at the reality of American social policy since World War II William Epstein argues that this defense is not worth mounting that the claimed successes of American social programs are not sustained by evidence Rather than their failure being the result of inadequate implementation or political resistance stemming from the culture wars these programs and their built in limitations actually do represent what the vast majority of people in this country want them to be However much people may speak in favor of welfare the proof of what they really want is in the pudding of the social policies that are actually legislated The stinginess of America s welfare system is the product of basic American values rooted in the myth of heroic individualism and reinforced by a commitment to social efficiency the idea that social services need to be minimal and

compatible with current social arrangements The Internationalization of Communal Strife (Routledge Revivals) Manus I. Midlarsky, 2014-06-03 First published in 1992 this edited collection argues that conflicts have a growing tendency both to intensify and to lengthen thus increasing the likelihood of external actors being drawn into the on going violence Here leading experts in comparative and international politics examine this tendency of communal conflicts to spill over into the international arena They also look at the conditions under which these processes do not occur and are mediated successfully The authors combine theoretical perspectives with case studies covering examples from the origins of the First World War to state building in Iraq and whether it was a precursor of the Iran Iraq War and the Gulf Crisis They present both a global overview and a focus on the state as the single most important intermediary in the internationalization process A comprehensive and relevant reissue this volume will appeal to students and scholars of International Relations Comparative Politics and Strategic Studies Peasant Cooperation and Capitalist Expansion in Central Peru Norman Long, Bryan R. Roberts, 2014-11-06 This book brings together the research into regional development and social change carried out in highland Peru by a team of British and Latin American social anthropologists and sociologists The area studied the Mantaro Valley of central Peru is one of the most densely populated and economically differentiated of highland zones it is also notable for its community based forms of cooperation and its high level of peasant political activity The book presents a series of case studies that examine cooperative forms of organization in relation to developments in the regional economy and to changes in national policy The analysis attempts to avoid interpreting local processes merely as responses to externally initiated change It stresses instead the need to consider the interplay of local and national forces because local groups and processes themselves affect the pattern of regional and national development The case studies cover a range of political and economic topics from peasant movements to the achievements and shortcomings of government sponsored agricultural and manufacturing cooperatives The concluding chapter by the editors explores the theoretical implications of these studies *The New Authoritarianism in Latin America* David Collier, Fernando Henrique Cardoso, Joint Committee on Latin American Studies, 1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic authoritarian model there has been growing dissatisfaction with various elements of this model In light of this dissatisfaction a group of leading economists political scientists and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman Jose Serra Robert Kaufman and Julio Coder In Part Three Guillermo O

Donnell James Kurth and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism opportunities for extending the analysis to Europe and priorities for future research The book includes a glossary and an extensive bibliography

The State, Industrial Relations and the Labour Movement in Latin America Jean Carriere, Nigel Haworth, Jacqueline Roddick, 1989-06-18 An examination of the role of the Latin American State in the day to day practice of collective bargaining and the conflicts surrounding it It also provides a study of the social and political role of labour and the impact of today's economic crisis on existing patterns of organization

Orlove, 2014-05-10 *Alpacas Sheep and Men* The Wool Export Economy and Regional Society in Southern Peru investigates the response of the Sicuani region in southern Peru to the wool export economy and its consequent integration into the nation state in the late nineteenth century The book traces the economic and political conflicts engendered by the export economy such as those between landlords and peasants in the countryside and landlords versus traders in town It also examines how these conflicts shaped the metamorphosis of a closed isolated localized society into an open one and its incorporation into national politics as well as global economics Comprised of 11 chapters this book begins with a review of the theories of modernization and dependency followed by a discussion on the development of the world market for wool and the component elements of the wool economy of the entire southern Peru Subsequent chapters focus on the regional society in more detail with emphasis on the concept of region and the economic activities of different sectors variation in forms of land tenure and labor relations in two provinces the relations among herders peasants and artisans and regional politics The three major groups of artisans and workers in the region who use wool are considered namely urban furriers textile mill workers and rural weavers The book concludes with an analysis of the fundamental importance of the wool export economy in the Sicuani region using the sectorial model This monograph should be of interest to students and anthropologists

Reinventing the State Carol Wise, 2003-01-17 Publisher Description

Struggle in the Andes Howard Handelman, 2014-11-06 A massive land seizure movement first erupted in Peru in 1958 and spread across the Andean highlands in 1963 1964 Several hundred peasant communities in the Peruvian Andes occupied neighboring haciendas in an attempt to retake lands they felt had been stolen from them over the years Hacienda

peasants also participated in this movement forming peasant sindicatos unions to improve their labor conditions The land seizure movement brought with it an upsurge in community political mobilization Throughout the highlands village leaders banded together in regional federations often allying themselves with progressive or radical urban groups Radical activists from labor unions and university student groups joined with indigenous peasant leaders breaking down the highland peasantry's traditional isolation from the political system Struggle in the Andes is an analysis of the causes and consequences of extensive social and political mobilization among Peru's peasant population in the 1960s In addition to describing the growth of the peasant land movement Howard Handelman investigates the social and economic conditions that contributed to rural unrest Using data that he collected in forty one diverse highland communities Handelman examines the correlates of peasant political activity concluding that land seizures in the traditional southern sierra had different origins and political implications than did unrest in the more socioeconomically modernized central highlands The data suggest a model of peasant mobilization that calls into question prevailing scholarly hypotheses on the relationships between modernization peasant political mobilization and radicalization Handelman discusses the land reform program and the accompanying rural mobilization that was being implemented by Peru's reformist military regime Using his model of peasant mobilization he speculates on the possible effects of the government's contemporary programs on future peasant political behavior
