Preventing Conflict In The Post Communis:

Preventing Conflict in the Post-communist World Abram Chayes, 1996 Western politicians pundits and the public were wholly unprepared for the violent conflicts erupting in eastern and central Europe and the former Soviet Union after the end of the Cold War The governments emerging from communism lack both the authoritarian control to suppress domestic differences and the democratic power to manage them Old conflicts resurfaced and new ones were kindled in virulent form from Bosnia to Chechnya The stability of governments and the status quo of borders have been thrown into question Actual and threatened disintegration of states in the area is widespread No reference points have emerged to replace the cold war paradigm Nor is there a way of knowing which conflicts can be contained within accepted borders and which may spill over The prospect not only of widening conflict but also of new precedents challenging old certainties of international life causes deep concern in western Europe and the United States Europe has many experienced international organizations under whose umbrella states organize to achieve common purposes This book asks how they have performed that function How are these organizations attempting to deal with the many forms of internal conflict that are both the cause and the result of the end of communism and the East West confrontation Despite significant organizational and financial resources the results have been meager The authors show how difficult it is to achieve effective joint action on a sustained basis They contend that a concerted effort to discover how to achieve joint action is the necessary next step in mobilizing international organizations for preventing ethno national conflict In addition to the editors the contributors are Diana Chigas Jarat Chopra Michael W Doyle Keitha Sapsin Fine David S Huntington Christophe Kamp Jean E Manas Elizabeth McClintock John Pinder Wolfgang H Reinicke Reinhardt Rummel Melanie H Stein Shashi Tharoor Thomas G Weiss Richard Weitz and Mario Zucconi A Brookings Occasional Paper Conflict Prevention from Rhetoric to Reality Albrecht Schnabel, David Carment, 2004-01-01 Together with local actors many governments regional organizations and the UN are embracing preventive action as a viable path towards sustainable peace The contributions to this volume trace conflict prevention efforts in various regional contexts and explain how preventive thinking is being successfully mainstreamed into the activities of regional organizations and the UN

Problems of Post-communism , 2005 Managing Conflict in the Former Soviet Union Aleksei Arbatov, Aleksei Georgievich Arbatov, 1997 This collaborative effort by Russian and American scholars documents Russian policy toward ethno national conflict in its near abroad American policy toward these conflicts and the attempts of international organizations to prevent and resolve them Case studies consider the causes dynamics and prospects of conflicts in Latvia the Crimea the Transdniester region of Moldova Georgia Kazakhstan and the region of North Ossetia and Ingushetia **Democratisation and the Prevention of Violent Conflict** Jenny Engström, 2016-12-05 Challenging the often held belief that democratization necessarily leads to aggressive ethnic nationalism and even violent conflict this book offers an alternative account of democratization and inter ethnic relations It suggests that democratization can in fact help to prevent violent conflict in

divided societies as demonstrated by two case studies Bulgaria and Macedonia At a time when democracy promotion is increasingly becoming part of international relations and foreign policy this study offers some poignant lessons for democratization and conflict resolution in places such as Iraq Afghanistan and Israel Palestine to name but a few **Europe and the Recognition of New States in Yugoslavia** Richard Caplan, 2005-09-01 Europe's recognition of new states in Yugoslavia remains one of the most controversial episodes in the Yugoslav crisis Richard Caplan offers a detailed narrative of events exploring the highly assertive role that Germany played in the episode the reputedly catastrophic consequences of recognition for Bosnia Herzegovina in particular and the radical departure from customary state practice represented by the EC's use of political criteria as the basis of recognition The book examines the strategic logic and consequences of the EC's actions but also explores the wider implications offering insights into European security policy at the end of the Cold War the relationship of international law to international relations and the management of ethnic conflict The significance of this book extends well beyond Yugoslavia as policymakers continue to wrestle with the challenges posed by violent conflict associated with state fragmentation **Democratic Consolidation in Eastern Europe: Volume 2: International and Transnational Factors** Jan Zielonka, Alex Pravda, 2001-06-14 This is the second volume in a two volume series of books on democratic consolidation in Eastern Europe The first volume focused on the issue of institutional engineering This second volume analyses the external parameters of democratic consolidation in thirteen Eastern European countries how different international actors and various economic cultural and security types of transnational pressures have shaped democratic politics in the region The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it seeks to establish what has really happened in the region and which of the existing theories are helpful in explaining these developments The volume is divided into two parts The first part presents a conceptual and comparative frame of analysis the second consists of detailed studies of individual countries undergoing democratic consolidation Case study chapters deal with the following countries Estonia and Latvia Hungary Poland the Czech Republic Slovakia Romania Bulgaria and Macedonia the states of former Yugoslavia Belarus and Ukraine and finally Russia The concluding chapter identifies a set of variables responsible for the enormous impact of external factors on democratic consolidation in Eastern Europe It conceptualises the interplay of internal and external factors impinging upon democracy and shows the interplay of different positive and negative types of external pressures It also evaluates the conscious Western effort to craft or engineer democracy in Eastern Europe **Preventing Deadly Conflict** David A. Hamburg, 1998-06

From Reaction to Conflict Prevention Fen Osler Hampson, David Malone, 2002 Contributors in public policy politics international affairs development conflict management and peace studies discuss the practical challenges of conflict prevention within the UN system considering the causes and dynamics of war tools being developed to predict the eruption

of conflict and what is being done to move from reaction to prevention of conflict They touch on areas such as measuring the societal impact of war a systems approach to mitigating violent conflict and electoral assistance and democratization Hampson teaches international affairs at Carleton University Canada Malone is president of the International Peace Academy Annotation copyrighted by Book News Inc Portland OR *The Slippery Slope to Genocide* I. William Zartman, Mark Anstey, Paul Meerts, 2011-05-01 Genocide results from the culmination of conflicts over identity A group of people that feels threatened by extinction resorts to genocide as a pathologically defensive reaction This poses a security dilemma that can only be broken by quelling the feelings of threat and fear that prompt mass violence In order to prevent genocide it is essential to understand the internal dynamics of identity conflict It is also important to intervene at the early stages of identity conflict the parties involved require external help to ease tensions In this volume noted thinkers and practitioners of conflict management who hail from ten different countries present ideas on how to prevent identity issues from causing fear and escalating into genocide They focus on measures for handling the internal dynamics of parties facing identity conflicts as well as considerations for arranging external assistance Contributors address the problem of outbidders actors whose non conciliatory attitudes put them in positions of leadership in their identity groups Since political extremism and violence can signal resolve and commitment to a group cause moderates give way to hardliners Spoilers who believe that peace undermines their interests and power also play a key role in the dynamics of conflicts Careful attention is necessary to select appropriate third parties who can pull conflicting parties off the course of conflict The authors discuss the concepts and practices involved in changing structures and attitudes to ease tensions as well as the measures interveners must take to work in the midst of conflicting groups **The Prevention of Humanitarian Emergencies** E. Wayne Nafziger, Raimo Väyrynen, 2016-01-23 Since the end of the cold war civil wars and state violence have escalated resulting in thousands of deaths This book provides a toolbox for donors international agencies and developing countries to prevent humanitarian emergencies The emphasis is on long term rather than mediation or reconstruction after the conflict ensues **Human Rights in the Council of Europe and the European Union** Steven Greer, Janneke Gerards, Rose Slowe, 2018-03-29 Confusion about the differences between the Council of Europe the parent body of the European Court of Human Rights and the European Union is commonplace amongst the general public It even affects some lawyers jurists social scientists and students This book will enable the reader to distinguish clearly between those human rights norms which originate in the Council of Europe and those which derive from the EU vital for anyone interested in human rights in Europe and in the UK as it prepares to leave the EU The main achievements of relevant institutions include securing minimum standards across the continent as they deal with increasing expansion complexity multidimensionality and interpenetration of their human rights activities The authors also identify the central challenges particularly for the UK in the post Brexit era where the components of each system need to be carefully distinguished and disentangled Give Peace a Chance David A. Hamburg, Eric

Hamburg,2015-11-17 In Give Peace a Chance the distinguished Dr Hamburg teams up with his filmmaker son to tell the story of selected significant peace achievements over the past 25 years Including lessons from personal experience pithy quotes from interviews with international dignitaries and the insights of a documentary sensibility this book reflects upon striking moments in peace history and inflects them with the perspective of preventive medicine From Jane Goodall s rainforest research station to a hostage taking in Eastern Africa to the Reagan Gorbachev post summit epiphany in Reykjavik the Hamburgs take us there They then distill the wisdom of these and many other encounters into an essential six pillars of prevention education early action democracy building socioeconomic development human rights and arms control These six pillars are essential not only to reflections upon the past but to future prospects emerging from recent challenges to peace the Arab Spring the violent repression in Syria and the brewing faceoff with Iran Features of this engaging text Combines personal experience including involvement in a hostage rescue mission with ongoing research in a variety of areas over 50 years Includes feature quotes and vignettes from international figures including Kofi Annan Sam Nunn and Hillary Clinton among many others Builds upon six key pillars of prevention education early warning democracy development human rights and arms control Concludes with prescriptions for peace action in four key areas the US and Western democracies the UN the EU and NATO Offers carefully selected Recommended Readings for every chapter See Stanford University s website for twenty nine videotaped interviews with world leaders in the prevention of mass violence at <http://lib.stanford.edu/preventing-genocide/list-interviews>

The Structural Prevention of Mass Atrocities Stephen McLoughlin,2014-07-17 This book offers a different approach to the structural prevention of mass atrocities It investigates the conditions that enable vulnerable countries to prevent the perpetration of such violence Structural prevention is commonly framed as the identifying and ameliorating of the root causes of violent conflict a process which typically involves international actors determining what these root causes are and what the best courses of action are to deal with them This overlooks why mass atrocities do not occur in countries that contain the presence of root causes In fact very little research has been conducted on what the causes of peace and stability are particularly in relatively countries located in regions marred by civil war and mass atrocities To better understand how such vulnerable countries prevent the commission of mass atrocities this book proposes an analytical framework which enables not only an understanding of risk which arises from the presence of root causes but also of the factors that build resilience in countries and consequently mitigate and manage such risk Using this framework three countries Botswana Zambia and Tanzania are analysed to account for their long term stability despite their location in neighbourhoods characterised by decades of civil war ethnic repression and mass atrocities This work is a significant contribution to the field of genocide studies and crimes against humanity and will be of interest to students and scholars alike

Opportunities Missed, Opportunities Seized Bruce W. Jentleson, 2000 The basic logic of preventive diplomacy is unassailable Act early to prevent disputes from escalating reduce tensions that could lead to war deal with today's conflicts before they become tomorrow's crises Yet as we look at the record of these first years of the post Cold War era it is quite mixed There have been some preventive diplomacy successes and opportunities that have been seized by major powers and international organizations to help preserve and protect the peace But there also have been other opportunities that have been missed with some of the century's most deadly conflicts the result This study examines ten major post Cold War cases including Croatia Bosnia Rwanda the Baltics Russia Ukraine Macedonia and North Korea to assess the key factors contributing to both the success and failure of preventive diplomacy The method of case study analysis employed is based on the work of Alexander L George Authors include both leading academics and prominent policy officials with first hand knowledge

The World and Yugoslavia's Wars Richard Henry Ullman, 1996 What can outside powers do now to help

heal the terrible wounds caused by Yugoslavia's wars Why did the victors in the Cold War and the 1991 Gulf War not act to stop the slaughter The nature scope and meaning of the actions and inactions of outsiders is the subject of this book

Global Insecurity Mary Kaldor, 2000-07-01 The first half of the 1990s was a period of great optimism about humanitarian intervention In the aftermath of the Cold War it was hoped that the international community could begin to act cohesively in defence of fundamental international principles and that a global security policy aimed at the prevention of conflict and upholding human rights could be established The actual experience of this period however has been sobering Agreements engineered from above like the Dayton Agreement or the Oslo Agreement have mixed consequences Efforts at humanitarian relief have often ended up frustrating good intentions and prolonging conflict This book looks at what we learn from such experiences Should we retreat from intervention Is there a global responsibility for wars and for massive violations of human rights The authors start from a conviction that in a globalized world we do have certain responsibilities and that the point is to look at how we intervene They aim to open up a third approach an alternative to the dominance of realist or neo liberal approaches which would address the reality of contemporary conflict Key themes include the need for a more democratic approach in terms of the accountability and openness of both governments and international institutions the importance of international humanitarian law and the future of formal military forces

Responsibility to Protect Alex J. Bellamy, 2013-04-24 At the 2005 UN World Summit world leaders endorsed the international principle of Responsibility to Protect R2P acknowledging that they had a responsibility to protect their citizens from genocide and mass atrocities and pledging to act in cases where governments manifestly failed in their responsibility This marked a significant turning point in attitudes towards the protection of citizens worldwide This important new book charts the emergence of this principle from its origins in a doctrine of sovereignty as responsibility through debates about the legitimacy of humanitarian intervention and the findings of a prominent international commission and finally through the long and hard negotiations that preceded the 2005 commitment It explores how world leaders came to acknowledge that sovereign rights entailed fundamental responsibilities and what that acknowledgment actually means The book goes on to analyze in detail the ways in which R2P can contribute to the global effort to end genocide and mass atrocities Focusing on the prevention of these crimes and the improvement of the world's reaction to them the book explores the question of how to build sustainable peace in their aftermath Alex J Bellamy argues that although 2005 marked an important watershed much more work is needed to defend R2P from those who would walk away from their commitments and in the words of UN Secretary General Ban Ki moon to translate the principle from words into deeds This fascinating book will appeal to students and scholars of international relations international affairs human rights and humanitarian emergencies as well as anyone concerned about the protection of civilians on a global scale
