,2004 *Medical Humanities Companion: V2* Rolf Ahlzen,Martyn Evans,Raimo Puust,2018-12-20 When a person falls ill their experience changes sometimes in a very minor and transient way sometimes in a decisive and lasting one Diagnosis is often seen as the process of scientifically and objectively identifying the causes of this subjective experience but is the process and meaning of diagnosis really as simple as this implies As this volume of The Medical Humanities Companion argues diagnoses are an answer to complex human needs that spring from being ill and are in turn a complex culturally mediated interaction between individuals scientific discoveries social negotiation and historical change This volume makes visible the complexities and ambiguities involved in giving and receiving diagnoses and how they shape and are shaped by views on what is real and acceptable and how people relate to the phenomena of illness Musology 101: Muses Are Among Us John D. Evans, EdD,2017-03-13 Inspiration is the positive energy that comes from positive people places things and ideas including yourself your experiences and your relationships with family friends and support systems It is vital for overcoming the lethargy and depression that affect human beings all over the world Musology 101 Muses Are among Us seeks to educate muses all over the globe about the transforming power of inspiration as well as its benefits and implications for numerous fields It presents three approaches to understanding inspiration poetic philosophical and scholarly Part 1 features original verse intended for readers of all ages Part 2 focuses on arguments and logic statements designed to reveal the philosophy of inspiration while part 3 consists of author John D Evanss doctoral dissertation a qualitative study of the impact and importance of inspiration It also introduces the science of inspiration which Evans calls musology Through these examinations we can come to understand that muses are among us that we are muses This three part self help resource considers the topic of inspiration from various perspectives addressing it both as a positive construct and essential phenomenon *Bioethical Challenges in New Hiv Prevention Technologies* Calvin Gwandure,Ruth Gwandure,2018-05-23 Ruth Gwandure earned her master of science degree in medicine bioethics and law from the University of the Witwatersrand South Africa Her research and consulting fields include bioethics health law environmental bioethics research ethics HIV and AIDS ethics and law clinical ethics and HIV counselling and testing in schools Calvin Gwandure has a PhD in psychology He

graduated from Nelson Mandela University South Africa His research and consulting fields include HIV and AIDS prevention new HIV prevention technologies HIV risk behavior and group behavior Clinical trials on HIV and AIDS prevention face challenges associated with infection of participants with HIV and sexually transmitted infections Participants also experience adverse events associated with voluntary medical male circumcision and the use of microbicides and vaccines in clinical trials The results obtained from clinical trials investigating the efficacy of microbicides and vaccines in preventing HIV infection are disappointing but there is hope that one day a breakthrough could be made Clinical trials on voluntary medical male circumcision and preexposure prophylaxis have shown positive results that warranted approval by the US Food and Drug Administration FDA and the World Health Organization WHO The major challenge experienced in new HIV prevention clinical trials that are underway and in approved interventions that are being scaled up apparently relates to HIV incidence that threatens the social value and scientific validity of the interventions Paradoxically the clinical trials and scale up interventions have become the new sources of HIV infection although the hypothesized benefit to be realized in the end is conceptualized as outweighing the current risks involved **Journal of the American Medical Association** ,2005
