Mace,1983-11 The vast literature on family problems suggests that most researchers and professionals see these problems as inevitable and their own role as one of curing rather than preventing them The family wellness movement attempts to step back a stage with the emphasis on prevention rather than cure Citing parallels with the movement towards prevention in medicine Mace draws upon the insights of noted workers in the field who discuss their own roles in developing family enrichment programmes Their readable accounts of the philosophical and practical benefits of family wellness will make this book crucial reading for family researchers social service professionals educators clergy and students **Iournal** of Marriage and Family Enrichment Wallace Denton, 1986 A comprehensive overview of **Human Services Abstracts** ,1984 the history present status and future directions of the marriage and family enrichment movement **Sourcebook of Family** Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some guarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspec tive on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production
