## **Rituals Of National Loyalty:**

**Democracy and National Identity in Thailand** Michael Kelly Connors, 2007 This revised and updated edition of the widely praised *Democracy and National Identity in Thailand* provides readers with a fascinating discussion of how debates about democracy and national identity in Thailand have evolved from the period of counter insurgency in the 1960s to the current period Focusing on state and civil society centered democratic projects Connors uses original Thai language sources to trace how the Thai state developed a democratic ideology that meshed with idealized notions of Thai identity focusing on the monarchy The book moves on to explore how non state actors have mobilized notions of democracy and national identity in their battle against authoritarian rule It also invites readers to explore democratic ideology as a form of power aimed at creating ideal citizens able to support elite national projects

**Rituals of National Loyalty** Katherine Ann Bowie, 1997 In the 1970s the Thai state organized the Village Scout movement to counter communist insurgency The movement was soon used to thwart growing demands for democratic reform recruiting five million members to become the largest mass organization in Thai history and mobilized by the military controlled media helped topple a civilian government and restore military rule This book bridges both the macro and micro levels of analysis to place the dynamics of a national political movement within a richly detailed account of its working at the village level

**Liminality and Critical Event Studies** Ian R.

Lamond, Jonathan Moss, 2020-03-28 This book explores and challenges the concept and experience of liminality as applied to critical perspectives in the study of events It will be of interest to researchers in event studies social and discursive psychology cultural and political sociology and social movement studies In addition it will provide interested general readers with new ways of thinking and reflecting on events Contributing authors undertake a discussion of the borders boundaries and areas of contestation between the established social anthropological concept of liminality and the emerging field of critical event studies By drawing these two perspectives closer together the collection considers tensions and resonances between them and uses those connections to enhance our understanding of both cultural and sporting events and offer fresh insight into events of activism protest and dissent

**Royal Capitalism** Puangchon Unchanam, 2020-01-14 Thanks to its active role in national politics the market economy and popular culture the Thai crown remains both the country's dominant institution and one of the world's wealthiest monarchies Puangchon Unchanam examines the reign of Thailand's King Bhumibol Adulyadej or Rama IX 1946-2016 and how the crown thrived by transforming itself into a distinctly bourgeois monarchy that co-opted middle class values of hard work frugality and self-sufficiency The kingdom positioned itself to connect business elites patronize local industries and form strategic partnerships with global corporations Instead of restraining or regulating royal power white collar workers joined with the crown to form a dynamic symbiotic force that has left the lower classes to struggle in their wake Unchanam presents a surprising case study that kings and queens live long and large in cooperation with the bourgeoisie's interests and ideology

**Memory, Reconciliation, and Reunions in South**

Korea Nan Kim, 2016-10-31 Winner of the 2019 Scott Bills Memorial Prize for Outstanding First Book in Peace History Memory Reconciliation and Reunions in South Korea Crossing the Divide explores the history and tells the story of the emotionally charged meetings that took place among family members who after having lost all contact for over fifty years on opposite sides of the Korean divide were temporarily reunited in a series of events beginning in 2000 During an unprecedented period of reconciliation between North and South Korea those nationally televised reunions would prove to be the largest meetings held theretofore among civilians from the two states since the inter Korean border was sealed following the end of active hostilities in 1953 Drawing on field research during the reunions as they happened oral histories with family members who participated interviews among government officials involved in the events negotiation and planning and observations of breakthrough developments at the turn of the millennium this book narrates a grounded history of these pivotal events The book further explores the implications of such intimate family encounters for the larger political and cultural processes of moving from a disposition of enmity to one of recognition and engagement through attempts at achieving sustained reconciliation amid the complex legacies of civil war and the global Cold War on the Korean Peninsula

**Modernizing Repression** Jeremy Kuzmarov, 2012 A probing analysis of the impact of American policing operations abroad **Loyalty** George P. Fletcher, 1995-07-13 At a time when age old political structures are crumbling civil strife abounds and economic uncertainty permeates the air loyalty offers us security in our relationships with associates friends and family Yet loyalty is a suspect virtue It is not impartial It is not blind It violates the principles of morality that have dominated Western thought for the last two hundred years Loyalties are also thought to be irrational and contrary to the spirit of Capitalism In a free market society we are encouraged to move to the competition when we are not happy This way of thinking has invaded our personal relationships and undermined our capacities for friendship and loyalty to those who do not serve our immediate interests As George P Fletcher writes it is time for loyal bonds born of history and experience to prevail both over impartial morality and the self interested thinking of the market trader In this extended essay George P Fletcher offers an account of loyalty that illuminates its role in our relationships with family and friends our ties to country and the commitment of the religious to God and their community Fletcher opposes the traditional view of the moral self as detached from context and history He argues instead that loyalty not impartial detachment should be the central feature of our moral and political lives Writing as a political liberal he claims that a commitment to country is necessary to improve the lot of the poor and disadvantaged This commitment to country may well require greater reliance on patriotic rituals in education and a reconsideration of the Supreme Court s extending the First Amendment to protect flag burning Given the worldwide currents of parochialism and political decentralization the task for us Fletcher argues is to renew our commitment to a single nation united in its diversity Bringing to bear his expertise as a law professor Fletcher reasons that the legal systems should defer to existing relationships of loyalty Familial professional and religious loyalties should be respected as

relationships beyond the limits of the law Thus surrogate mothers should not be forced to surrender and betray their children spouses should not be required to testify against each other in court parents should not be prevented from willing their property to their children and the religiously committed should not be forced to act contrary to conscience Yet the question remains Aren t loyalty and particularly patriotism dangerously one sided Indeed they are but no more than are love and friendship The challenge Fletcher maintains is to overcome the distorting effects of impartial morality and to develop a morality of loyalty properly suited to our emotional and spiritual lives Justice has its sphere as do loyalties In this book Fletcher provides the first step toward a new way of thinking that recognizes the complexity of our moral and political lives

**The Spectacular City** Daniel M. Goldstein,2004-08-18 This study analyzes a popular festival and vigilante lynching examining them as a form of political spectacle performed by impoverished people who want to gain access to the potential benefits of citizenship in a modern city

Ritual Catherine Bell, From handshakes and toasts to chant and genuflection ritual pervades our social interactions and religious practices Still few of us could identify all of our daily and festal ritual behaviors much less explain them to an outsider Similarly because of the variety of activities that qualify as ritual and their many contradictory yet in many ways equally legitimate interpretations ritual seems to elude any systematic historical and comparative scrutiny In this book Catherine Bell offers a practical introduction to ritual practice and its study she surveys the most influential theories of religion and ritual the major categories of ritual activity and the key debates that have shaped our understanding of ritualism Bell refuses to nail down ritual with any one definition or understanding Instead her purpose is to reveal how definitions emerge and evolve and to help us become more familiar with the interplay of tradition exigency and self expression that goes into constructing this complex social medium

implications of practices like religious freedom and cultural appropriation      Contemporary Consumption Rituals Cele C. Otnes, Tina M. Lowrey, 2004-05-20 This work offers a multifaceted exploration of new rituals such as Celebrating Kwanzaa and of the ways entrenched rituals such as Mardi Gras gift giving and weddings have changed Moreover it examines the influence of both cultures and subcultures      **Ritual** Catherine M. Bell, 1997 Catherine Bell provides a practical introduction to ritual and its study with comprehensive overviews of the most influential theories of religion and ritual The book examines the major categories of ritual activity      **Schooling the Nation** Hania Sobhy, 2023-03-23 Telling the story of the Egyptian uprising through the lens of education Hania Sobhy explores the everyday realities of citizens in the years before and after the so called Arab Spring With vivid narratives from students and staff from Egyptian schools Sobhy offers novel insights on the years that led to and followed the unrest of 2011 Drawing a holistic portrait of education in Egypt she reveals the constellations of violence neglect and marketization that pervaded schools and shows how young people negotiated the state and national belonging By approaching schools as key disciplinary and nation building institutions this book outlines the various ways in which citizenship was produced lived and imagined during those critical years This title is also available as Open Access on Cambridge Core      *"We Love Mr King"* Anusorn Unno, 2018-10-04 This book is an ethnography of the Malay Muslims of Guba a pseudonymous village in Thailand's Deep South in the wake of the unrest that was primarily reinvigorated in 2004 It argues that the unrest is the effect of the way in which different forms of sovereignty converge around the residents of this region and the residents at the same time have cultivated themselves and obtained and enacted agency through the sovereigns Rather than asking why the violence is increasing and who is behind it like most scholarly works on the topic it examines how different forms of sovereignty ranging from the Thai state and the monarchy to Islamic religious movements the insurgents and local strongmen impose subjectivities on the residents how they have converged in so doing and what tensions have followed and how the residents have dealt with these tensions and cultivated themselves and obtained and enacted agency through the sovereigns The phrase We Love Mr King or *rao rak nay luang* inscribed on the decorated footed tray is one example of how the residents crafted themselves as royal subjects and enacted agency through the sovereign monarch This book represents one of the very few locally focussed anthropological studies to be undertaken in Thailand's Muslim Malay border region since the upsurge in insurgent driven violence since 2004 Just as noteworthy the researcher is a Thai Buddhist who succeeded in establishing rapport with his Malay Muslim informants Unlike most journalistic and academic research in this field based on hit and run interviews Dr Anusorn's work is founded on sustained in situ observation and participation with the local residents of the hamlet of Guba in Yala Province Exploring a range of themes including local historical memory and place identification Islamic practices cultural rituals complex local rivalries and violence and interactions between villagers and military state officials and projects Anusorn skilfully highlights the co existence and tensions between different subjectivities in the context of the competing sovereignties that inform the world of

**Going Low** Finbarr Curtis, 2022-07-05 Liberalism puts its trust in civil discourse and rational argument Today its opponents enthusiastically flout these norms making a show of defying so called political correctness In the Trump era and beyond right wing figures delight in sheer offensiveness What is at stake in breaking the rules of civility to own the libs *Going Low* examines how the offensive style of contemporary politics challenges liberal democratic institutions Considering the rise of illiberal politics and debates about the limits of free speech Finbarr Curtis draws on the insights of religious studies to rethink provocation and transgression He argues that the spectacle of brazenly violating taboos is a show of dominance over a supposedly censorious liberalism Profaning liberal pieties is the ultimate form of winning Curtis

contends that deliberate offensiveness dovetails with the privatization of public goods both represent the refusal to accommodate the sensibilities of others in a diverse society Going Low offers a series of essays that recast recent controversies including Trump's reality TV presidency white evangelical complaints of liberal bigotry bakers who refuse to bake cakes for LGBTQ weddings and hostility toward the activism of athletes and college students Together these essays shed new light on contemporary political discourse and reveal why illiberalism has turned to profane politics for a profane age
