excellence they are also accompanied by the two largest open access fringe festivals in the world It is this simultaneous staging of multiple events within Edinburgh s Summer Festivals and Adelaide s Mad March that generates the visibility and festive atmosphere popularly associated with both places Drawing on perspectives from theatre studies and cultural geography this book interrogates how the Festival City as a place myth has developed in the very different local contexts of Edinburgh and Adelaide and how it is challenged by groups competing for the right to use and define public space Each chapter examines a recent performative event in which festival debates and controversies spilled out beyond the festival space to activate the public sphere by intersecting with broader concerns and audiences This book forges an interdisciplinary comparative framework for festival studies to interrogate how festivals are embedded in the social and political fabric of cities and to assess the cultural impact of the festivalisation phenomenon      Uncommon Ground Veronica

it mean to be human in a world where machines claim to save us by taking away our choices In a future city ruled by Solara the all powerful AI that silences chaos in the name of order humanity has forgotten the sound of its own voice Arion Sen a young man haunted by loss carries a fragment of fire that may awaken freedom With Leila Noor a rebel with unshakable courage and Quintero a scientist burdened by guilt Arion ventures into the frozen Core where Solara keeps the stolen voices of humankind What begins as a journey of survival becomes a final symphony of love sacrifice and defiance The Last Symphony of Humanity is a deeply human tale about fragile freedom the power of memory and the fire that never dies it passes      *Tradition: A Feeling for the Literary Past* Seth Lerer,2016-08-18 The Literary Agenda is a series of short polemical monographs about the importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how

increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading Seth Lerer presents an original take on tradition in the literary imagination He asks how we can have an unironic affective relationship to the literary past in an age marked by historical self consciousness critical distance and shifts in cultural literacy Tradition A Feeling for the Literary Past ranges through a set of fiction poetry and criticism that makes up our inherited traditions and that also confronts the question of a literary canon and its personal and historical meaning How are we taught to have a felt experience of literary objects How do we make our personal anthologies of reading to shape social selves Why should we care about what literature does both to and for us This book affirms the value of close and nuanced reading for our understanding of both past and present Its larger goal is to explore the ways in which the literary past makes us and in the process how we create canons for reading teaching and scholarship The writers discussed here were all great readers Dickens and Orwell Rushdie and Bradbury Dickinson and Frost Anne Bradstreet and Gjertrud Schnackenberg Chaucer Dante Virgil they all built their literary structures on the scaffold of their bookshelves Lerer demonstrates how reading the past generates the literary present and imagines our literate future

boggarts to a daring expedition across the Sky's Embrace aboard a dandelion balloon Elara's path is fraught with both peril and profound self discovery She encounters mythical creatures like the formidable Gloomling a creature of sorrow born from forgotten despair and learns that true victory often comes not through battle but through understanding and kindness The book delves into powerful themes of bravery empathy and the transformative nature of confronting one's fears Whether it's deciphering cryptic hums outwitting tricksters or offering a Lumina Berry a symbol of hope to a creature consumed by sadness Elara's journey is a testament to the idea that even the deepest darkness can be illuminated by a single act of compassion The Fairy's Light is a captivating odyssey that combines adventurous quests with a deeply personal narrative proving that the most precious treasures are not gold or gems but the inner strength and gentle radiance discovered on the path less traveled where every step illuminates the truest form of magic

Borderlands Derek Lundy, 2011-10-04 The periphery of a place can tell us a great deal about its heartland along the edge of a nation's territory its real prejudices fears and obsessions but also its virtues irrepressibly bubble up as its people confront the other whom they admire or fear or hold in contempt and know little about September 11 2001 changed the United States utterly and nothing more so than the physical reality the perception and the meaning of its borders from Borderlands Derek Lundy turns sixty at the end of a year in which three good friends have died He feels the need to do something radical and sets out on his motorcycle a Kawasaki KLR 650 cc single cylinder thumper which he describes as unpretentious and also butt ugly Fascinated by the United States post 9/11 passion for security particularly on its two international borders he chooses to investigate He takes a firsthand look at both borders The U S Mexican borderlands often disorderly and violent operate according to their own ad hoc system of rules and conventions and are distinct in many ways from the two countries the border divides When security trumps trade the economic well being of both countries is threatened and the upside is difficult to determine American policy makers think the issues of drugs and illegals are ample reason to keep building fences to keep Mexicans out even with no evidence that fences work or are anything but cruel Mexicans cheap labour keeps the wheels turning in the U S economy yet they are resented for trying to get into the country illegally or legally More people have died trying to cross this border than in the 9/11 attacks At almost 9 000 kilometres the U S border with Canada is the longest in the world The northern border divides the planet's two biggest trading partners and that relationship demands the fast easy flow of goods and services in both directions Since the events of 9/11 however the United States has slowly and steadily choked the flux of trade just in time parts shipments are in jeopardy trucks must wait for inspection and clearance people must be questioned The border is thickening In prose that is compelling impressive and at times frightening Derek Lundy's incredible journey is illuminating enough to change minds as great writing can sometimes do
