

An aerial photograph of a wide river, likely the Mississippi, winding through a vast, green, hilly landscape. The river is light-colored, possibly due to sand or silt, and contrasts sharply with the surrounding dense green vegetation. The hills are rolling and extend into the distance under a pale sky.

Ecospatality Lowell Wyse,2021-07-01 Ecospatality explores modern and contemporary American prose literature through the lens of place showing how authors like William Least Heat Moon Willa Cather Richard Wright and Leslie Marmon Silko represent and reimagine real places in the world and the human environment relationships therein Building on the work of scholars in geography sociology ecocriticism and geocriticism this book articulates the theory of ecospatality an understanding of place as simultaneously spatial ecological and historical In our current historical moment which is characterized by ongoing ecological collapse and a not unrelated increase in social disorder few issues are more urgent than the human relationship with our environments Whether we characterize this new epoch as the climate change era or the Anthropocene we can no longer ignore the fact that the places we live are rapidly changing in response to economic and environmental pressures Rather than thinking of place as a neutral site for social interaction we should recognize how it underpins and intertwines with human experience Fortunately literature can help us think through how place operates Lowell Wyse shows that texts can be understood as works of literary cartography Focusing on works of nonfiction and fiction whose primary settings are on the North American continent Ecospatality demonstrates how these narratives rely on realistic literary geography to invoke and sometimes retell important aspects of environmental history within particular communities and bioregions

Water Borne Dan Rubinstein,2025-06-10 An unconventional SUP journey to discover how embracing blue space could improve our lives and our world In June 2023 writer Dan Rubinstein lashed camping gear to his stand up paddleboard and embarked on an improbable solo voyage from Ottawa to Montreal New York City Toronto and back to Ottawa along the rivers lakes and canals of a landlocked region Over 1 200 miles and 10 weeks he explored the healing potential of blue space the aquatic equivalent of green space and sought out others drawn to their local waters But the farther Rubinstein paddled the more he realized that being in on or around water does more than boost our mental and physical health and prompt stewardship toward the natural world He discovered that blue spaces are also a way to connect

with the kaleidoscopic cross section of people he met and the diverse geographies and communities he passed through Weaving together research interviews and an unmacho malodorous anticolonial adventure tale *Water Borne* shows us that we don't need an epic journey to find solutions to so many modern challenges Repair and renewal may be close at hand just add water

What the River Carries Lisa Knopp, 2012-05-18 In this informed and lyrical collection of interwoven essays Lisa Knopp explores the physical and cultural geography of the Mississippi Missouri and Platte rivers she has come to understand and cherish At the same time she contemplates how people experience landscape identifying three primary roles of environmental perception the insider the outsider and the outsider seeking to become an insider Viewing the waterways through these approaches she searches for knowledge and meaning Because Knopp was born and raised just a few blocks away she considers the Mississippi from the perspective of a native resident a dweller in the land She revisits places she has long known Nauvoo Illinois the site of two nineteenth century utopias one Mormon one Icarian Muscatine Iowa once the world's largest manufacturer of pearl mussel shell buttons and the mysterious prehistoric bird and bear shaped effigy mounds of northeastern Iowa On a downriver trip between the Twin Cities and St Louis she meditates on what can be found in Mississippi river water state lines dissolved oxygen smallmouth bass corpses family history wrecked steamboats mayfly nymphs toxic perfluorinated chemicals philosophies Knopp first encountered the Missouri as a tourist and became acquainted with it through literary and historical documents as well as stories told by longtime residents Her journey includes stops at Fort Bellefontaine where Lewis and Clark first slept on their sojourn to the Pacific Little Dixie Missouri's slaveholding hemp growing region as revealed through the life of Jesse James's mother Fort Randall Dam and Lake Francis Case the construction of which destroyed White Swan on the Yankton Sioux Reservation and places that produced unique musical responses to the river including Native American courting flutes indie rock Missouri River valley fiddling Prohibition era jazz jam sessions and German folk music Knopp's relationship with the Platte is marked by intentionality she settled nearby and chose to develop deep and lasting connections over twenty years residence On this adventure she ponders the half million sandhill cranes that pass through Nebraska each spring the ancient varieties of Pawnee corn growing at the Great Platte River Road Archway Monument a never broken tract of tallgrass prairie the sugar beet industry and the changes in the river brought about by the demands of irrigation In the final essay Knopp undertakes the science of river meanders consecutive loops of water moving in opposite directions which form around obstacles but also develop in the absence of them What initiates the turning that results in a meander remains a mystery Such is the subtle and interior process of knowing and loving a place What the River Carries asks readers to consider their own relationships with landscape and how one can most meaningfully and responsibly dwell on the earth's surface

Threading a Kayak down the Mississippi Dennis Van Norman, 2023-08-01 In 2005 Dennis Van Norman climbed into a kayak for the first time to spend an afternoon Huck Finning down the Mississippi River with his son and grandson Little did he know that what started as an innocent eight
