River Through Rivertown:

River Through Rivertown Merrill Gilfillan, 1982 **Life in a Mississippi River Town** Laura Fischer, 2003 An overview of everyday life in the cities of the central Mississippi River Valley between 1820 and 1870 when the river was the primary means of transportation **Base Ball in a River Town** Justin Endres, 2016-09-05 Base Ball in a River Town seeks to answer how our national pastime started in New Albany Who were its founders Who got the ball rolling across the New Albany fields The answers to these questions open a window into the past the lively and booming post Civil War New Albany From steamships to railroads the first team experienced the end of one era and the start of another The growth of baseball in New Albany also mirrors the rise of baseball across the country From its infancy to national past time in no time Learn about the first pitch thrown at the first official game on September 29 1866 and join that unbroken line of young Southern Indiana men and women who have embraced our national past time *A River Town* Thomas Keneally, 2011-11-16 Fleeing to Australia to escape the repressive life of British controlled Ireland Tim Shea is alarmed by his new home s equally stifling social order and its inclination towards prejudice By the author of *Schindler s List* *A River in the City of Fountains* Amahia K. Mallea, 2018-10-15 Founded as a port at the confluence of two great rivers Kansas City has the waters of the Missouri running through its bloodstream threading expressways delivering drinking water carrying traffic and sewage and emerging most visibly in the city s celebrated fountains Despite or perhaps because of the river s ubiquity the complex and critical nature of its presence can be hard to understand which is precisely why Amahia Mallea s enlightening book is so essential Moving from the city s center to the outer limits of the metropolitan area *A River in the City of Fountains* offers a clear view of the reach and intricacies of the Missouri River s connection to life in Kansas City The history of this connection is one of science and industry working sometimes at cross purposes to bend the river to the needs of commerce and public health It is a story populated with heroes and villains visionaries and robber barons scientists and civil engineers politicians and activists all with schemes and plans and far reaching ideas about what and whose demands the power of the Missouri should serve And so inevitably it is a story of disparities a story of from one flood to the next the haves staking out higher ground leaving the have nots to the perils of low lying land But what the book also shows us is a slow awakening to the ways in which all those vying for the river s favor are inextricably connected by its course here we see finally a growing awareness of the river s essential role in the health and welfare of the whole urban environment In the end all citizens of Kansas City are both upstream and downstream all are equally dependent on the health of the river What this book helps us see is at last as much the city in the river as the river in the city **River Town** Bonnie Geisert, 1999-03-29 During the eighteenth and nineteenth centuries small towns sprouted up along the banks of America s rivers Through a year of changing seasons the reader is transported to the days when people s livelihoods were directly connected to the river The life of the townsfolk is shown to be an accumulation of events both large and small from a joyous Halloween parade to the frozen river in winter to the threat of

damaging springtime floods Children and adults alike will pour over these pages of intricate etchings noticing the changes and happenings of day to day season to season life lived along a river As they did in Prairie Town the Geiserts have once again created a stunning tribute to small town America as it once was and to an extent still remains today **Rivertown** Paul Stanton Kibel,2007 Each case study in Rivertown considers the critical questions of who makes decisions about our urban rivers who pays to implement these decisions and who ultimately benefits or suffers from these decisions book cover

An Old River Town Ada Douglas Littlefield,1908 **Episodes from a Hudson River Town** Clesson S. Bush,2011-08-01 Winner of the 2012 Award for Excellence presented by the Greater Hudson Heritage Network The seemingly unremarkable Hudson River town of New Baltimore has had its ups and downs you could certainly say that Here generations of families have worked the fields until the yield tapped out built and repaired ships and barges until the steam age died and harvested ice until refrigeration made icebox a quaint colloquialism Yet despite the various economic social and military forces that have transformed the town New Baltimore and its residents have endured celebrating their triumphs and enduring their tragedies Drawing on original town board minutes Greene County surrogate and land records federal and state military records land patents colonial documents conversations with local residents censuses and period newspapers town historian Clesson S Bush provides an authentic portrait of a small town community making the routine and drama of small town life on the Hudson River come alive Crown Landing LNG and Logan Lateral Projects ,2006 **Government Gazette** British Honduras,1963 Contemporary American Poetry Lloyd M. Davis,1985 Lists over 5 200 titles of books published by American poets between 1973 and 1983 Ted Ron Padgett,1993 LC copy inscribed by the author For Linda with love Ron **No. 111 2.7.93-10.20.96** Kenneth Goldsmith,1997 *Concordat Proviso Ascendant* Christopher Dewdney,1991 *Present Tense* Stephen Ratcliffe,1995 Poetry Things happen fast and abundantly as perceived in the present tense Not that the present isn't selected as much as the past is but being less a function of memory and more of attention to the sights and sounds and textual material before the writer any truly responsible present tense seems less constructed than received it is both littered with specificity and cumulatively abstract Two constants in Ratcliffe's scanner as this long poem in twelve sections hums by among the legible many are the sudden recognitions of music intimately heard in ear and mind and the remarkable articulations of the sense around sunstruck plenitude of natural phenomena that literally radiates outwards from his person in all directions a not always pleasant but inescapably full creation whose principle of order is always change And then he asks why not learn to read the right way monosyllabically as if to slow himself and us down to the actual moments that yield sensory delight and knowledge of the world To be precise and yet as continuous as attention is particular is to harness the presentational immediacy of this work's operative poetic muscle As we read we listen to the language speak but we also hear it streak fly mope glance loaf seduce dance In these stanzaically subtle sections Ratcliffe's performative pen scores a possible creation one filled with all manner of unpredictable noticings dislocations

False Memory

Tony Lopez, 1996 Poetry FALSE MEMORY is a major political poem

written through the events of the 1990s representing the damaged world that we know in all its violence and inequality

Focusing on public language rather than private experience FALSE MEMORY is a hilarious collage of all the specialized jargons and advertised slogans that situate us in the postmodern world

The Australian Country Girl: History, Image, Experience Catherine Driscoll, 2016-03-23 The Australian Country Girl History Image Experience offers a detailed analysis of the experience and the image of Australian country girlhood In Australia country girl names a field of experiences and life stories by girls and women who have grown up outside of the demographically dominant urban centres But it also names a set of ideas about Australia that is surprisingly consistent across the long twentieth century despite also working as an index of changing times For a long period in Australian history well before Federation and long after it public and popular culture openly equated Australian character with rural life This image of Australian ness sometimes went by the name of the bush man now a staple of Australian history This has been counterbalanced post World War II and increased immigration by an image of sophisticated Australian modernity located in multicultural cities These images of Australia balance rather than contradict one another in many ways and the more cosmopolitan image of Australia is often in dialogue with that preceding image of the bush This book does not offer a corrective to the story of Australian national identity but rather a fresh perspective on this history and a new focus on the ever changing experience of Australian rural life It argues that the country girl has not only been a long standing counterpart to the Australian bush man she has more importantly figured as a point of dialogue between the country and the city for popular culture and for public sphere narratives about Australian society and identity
