Riverboats And Rivermen:

Riverboats and Rivermen William Henry Drage, Michael F. Page, 1976 **Index to 'Riverboats and Rivermen' by William Drage and Michael Page**, 2007 **Murray** Paul Sinclair, 2013-05-24 The Murray River is in crisis and faces an uncertain future In this evocative book Paul Sinclair explores the reasons why the river has become degraded and what these changes have meant to Australians This in depth study of the Murray River examines the changing cultural meanings of the river the practical forgetfulness which has eroded the Aboriginal presence the triumphant narratives in which a supposedly empty land is made purposeful by the life giving powers of the Murray the passion to make the river s flow predictable and to replace primitive forces with a domesticated and balanced landscape The focus is on shifts and changes Sinclair describes the brief heyday of the riverboats and their transformation into a tourist attraction the decline of the mighty Murray cod and the rise of the European carp and the changing fortunes of the river towns He demonstrates that progress is often a myth and that ecological degradation always has cultural costs This is an innovative cultural and environmental history about landscape and fish memory and concepts imagination and desire Through a complex interweaving of history analysis poetry art and individuals recollections Paul Sinclair has created an original and subtly conceived work offering imaginative space to think about land and water in new ways Fishermen farmers tourists environmentalists lovers of the Australian landscape all these people will want to read this beautifully written book It will be an essential resource for those directly involved in the future of the Murray River contributing to the larger debate about Australia s threatened environment *Towboat on the Ohio* James E. Casto, 2014-07-11 To get a personal look at what it is like to work on the Ohio River newspaperman James E Casto spent eight days aboard the Blazer as it traveled the Ohio from Huntington West Virginia to Pittsburgh up the Allegheny and the Mongahela and then back to Huntington The Paul G Blazer a gleaming white towboat owned and operated by Ashland Oil pushes a group or tow as the rivermen call it of nine barges on this trip Along the way Casto introduces us to Captain Ronnie Davis pilot Ronnie Burge engineer Steve Bellomy the mates the deckhands and the cook as well as the river itself the life and the beauty that are the Ohio Interwoven with the narrative of the trip upriver and back is the history of commerce on the Ohio of how the flatboats and keelboats gave way to the steamboats and how in turn the steamboats were replaced by today s powerful diesel powered boats such as the Blazer Mark Twain wrote that the Mississippi had a new story to tell every day The same can be said of the Ohio As engaging as it is informative *Towboat on the Ohio* tells one of the many stories of the busy hardworking Ohio River **Water Politics in the Murray-Darling Basin** Daniel Connell, 2007 In January 2007 the Australian Prime Minister John Howard announced a 10 billion plan to reform rural water management Most of the effort will focus on the Murray Darling Basin In this book Daniel Connell explains why there is a crisis in the Murray Darling He highlights the disastrous consequences of a century of fitful reluctant co operation between the six governments responsible for the region Connell argues that a new institutional system is essential but a Commonwealth

takeover is not the best answer. Instead the Commonwealth government should use its constitutional and financial power to force the States to adopt national policies and stick to them whatever the local politics. The States would continue to play a substantial role but the controls would be tighter, the framework more comprehensive. He also shows how the National Water Initiative, the great blueprint for water reform, has stalled with many of its most important recommendations ignored. So far the public debate about the future of the Murray Darling Basin has concentrated on new technical projects and increased water trading. Connell argues that unless institutional change is given priority, hundreds of millions of dollars of annual investment will be frittered away and the crisis will continue.

[Bluegrass Renaissance](#) James C. Klotter, Daniel Bruce Rowland, 2012-07-31 Originally established in 1775, the town of Lexington, Kentucky, grew quickly into a national cultural center amongst the rolling green hills of the Bluegrass Region. Nicknamed the Athens of the West, Lexington and the surrounding area became a leader in higher education, visual arts, architecture, and music, and the center of the horse breeding and racing industries. The national impact of the Bluegrass was further confirmed by prominent Kentucky figures such as Henry Clay and John C. Breckinridge. The Idea of the Athens of the West: Central Kentucky in American Culture, 1792-1852 chronicles Lexington's development as one of the most important educational and cultural centers in America during the first half of the nineteenth century. Editors Daniel Rowland and James C. Klotter gather leading scholars to examine the successes and failures of Central Kentuckians from statehood to the death of Henry Clay in an investigation of the area's cultural and economic development and national influence. The Idea of the Athens of the West is an interdisciplinary study of the evolution of Lexington's status as antebellum Kentucky's cultural metropolis.
