The Movie Makers, 1935 [Reno's Big Gamble](#) Alicia Barber, 2023-05-19 When Pittsburgh socialite Laura Corey rolled into Reno Nevada in 1905 for a six month stay her goal was a divorce from the president of U S Steel Her visit also provided a provocative glimpse into the city's future With its rugged landscape and rough edged culture Reno had little to offer early

twentieth century visitors besides the gambling and prostitution that had remained unregulated since Nevada's silver mining heyday. But the possibility of easy divorce attracted national media attention. East Coast notables and Hollywood stars and soon the Reno Cure was all the rage. Almost overnight Reno was on the map. Alicia Barber traces the transformation of Reno's reputation from backward railroad town to the nationally known Sin Central as Garrison Keillor observed a place where you could see things that you wouldn't want to see in your own hometown. Chronicling the city's changing fortunes from the days of the Comstock Lode she describes how city leaders came to embrace an identity as The Biggest Little City in the World and transform their town into a lively tourist mecca. Focusing on the evolution of urban reputation Barber carefully distinguishes between the image that a city's promoters hope to manufacture and the impression that outsiders actually have. Interweaving aspects of urban identity she shows how sense of place promoted image and civic reputation intermingled and influenced each other and how they in turn shaped the urban environment. Quickie divorces notwithstanding Reno's primary growth engine was gambling; modern casinos came to dominate the downtown landscape. When mainstream America balked Reno countered by advertising tax freedom and natural splendor to attract new residents. But by the mid-seventies unchecked growth and competition from Las Vegas had initiated a downslide that persisted until a carefully crafted series of special events and the rise of recreational tourism began to attract new breeds of tourists. Barber's engaging story portrays Reno as more than a second string Las Vegas having pioneered most of the attractions: gaming and prizefighting, divorces and weddings that made the larger city famous. As Reno continues to remold itself to weather the shifting winds of tourism and growth Barber's book provides a cautionary tale for other cities hoping to ride the latest consumer trends.
