L s Dream which practically sings a soulful blues song itself *The Greater Awyu Languages of West Papua* Lourens de Vries, 2020-08-24 This book is a comprehensive and authoritative description of the Greater Awyu family of Papuan languages. The book brings together many decades of research on Greater Awyu languages including 10 years of field work by the author. The book presents a description of major patterns found in languages of the family: phonology, morphology, syntax and discourse. In addition, major aspects of the anthropological linguistics of Greater Awyu languages are described: counting systems, language names, kinship, linguistic ideologies, lexical substitution, registers, avoidance and taboo. The linguistic patterns of Greater Awyu languages are systematically placed in the genetic, typological, areal and historical contexts of New Guinea. The long dialect continuums within the family, by reflecting different diachronic stages, offer a window on the origin of switch reference, clause chaining, topic markers, postpositions and double headed relative clauses. The book is relevant for readers interested in the typological, historical and cultural linguistics of New Guinea, but also for anthropologists and historians, because the history and cultural practices of Greater Awyu speakers are a key part of the story of this language family.

The book starts by offering a phonological reconstruction of Proto Mataguayan with separate chapters dedicated to its consonants, vowels, word level prosody and morphophonological alternations. This is followed by an outline of the phonological evolution of each Mataguayan language, all the way from Proto Mataguayan to contemporary lects, with a special attention to the dialectal diversity of Niva le, Chorote and Wich. The study concludes with an etymological dictionary of Mataguayan, where known cognate sets are accompanied by comments on phonetic irregularities, semantic shifts, possible cognates in the neighbouring Guaicuruan family and references to earlier studies.
