*Technical Manual for Design and Construction of Road Tunnels--civil Elements* ,2010 The increased use of underground space for transportation systems and the increasing complexity and constraints of constructing and maintaining above ground transportation infrastructure have prompted the need to develop this technical manual This FHWA manual is intended to be a single source technical manual providing guidelines for planning design construction and rehabilitation of road tunnels and encompasses various types of road tunnels P ix      **Safety in Tunnels** Organisation for Economic Co-operation and Development. Road Transport and Intermodal Linkages Research Programme, Permanent International Association of Road Congresses. Committee on Road Tunnels, 2001-10-26 A serious incident involving dangerous goods in a tunnel can be extremely costly in terms of loss of human lives environmental degradation tunnel damage and transport disruption On the other hand needlessly banning dangerous goods from tunnels may create unjustified economic costs Moreover such a ban might force operators to use more dangerous routes such as densely populated areas and thus increase the overall risk This report proposes regulations and procedures to increase the safety and efficiency of transporting dangerous goods through road tunnels It introduces two models developed as part of the study the first quantifies the risks involved in transporting dangerous goods through tunnels and by road the second a decision support model assists in the determination of the restrictions which need to be applied to the transport of dangerous goods through tunnels Finally measures to reduce both the risks and the consequences of incidents in tunnels are examined in detail      *Public Roads* ,1939      *NFPA 502, Standard for Road Tunnels, Bridges, and Other Limited Access Highways* National Fire Protection Association.
