The Revolutionary Road to Me Chetan Bhatt, 2024-12-03 How can the left be credible when it can't decide what a woman is How can antiracists fight for equality if they promote fictions about race If identity politics is the answer why are so many Western left organizations being damaged by it As the culture wars rage this compelling book examines why much of the Western political left has foundered because of identity politics Identity issues have mired many good organizations in intractable conflicts and deflected them from their purpose In ignoring poverty and inequality the Western left has lost its way Meanwhile powerful social movements

from the past black women's gay and lesbian are reduced to corporate slogans Attuned to the needs of activists and academics this book offers intelligent explanations for how we got here It examines serious problems with antiracism transgender rights activism and the work of LGBTQ groups In showing how identities are outcomes of social and institutional forces it argues that technofinancial capitalism uses identity politics to mould new labour processes for the Western middle class while accelerating economic inequality Clearing a path through the vagaries of identity politics the book offers arguments the Western left must face amidst formidable far right and right wing authoritarianism climate emergency and severe inequalities **Mao's Road to Power: The pre-Marxist period, 1912-1920** Zedong Mao, Stuart Reynolds

Mao Zedong had begun talking about a New Stage of cooperation between the Guomindang and the Communist Party With the establishment of a framework for cooperation between the two parties and as Japan began its brutal war against China Mao began to develop this theme more systematically in both the political and military spheres This volume documents the evolution of Mao's thinking in this area that found its culmination in his long report to the Sixth Enlarged Plenum of the Central Committee in October 1938 explicitly entitled On the New Stage and presented here in its entirety It was also during this period that Mao delivered a course of lectures on dialectical materialism after reading and annotating a number of works on Marxist theory by Soviet and Chinese authors These lectures from which On Practice and On Contradiction were later extracted are also translated here in their entirety *Creating Consilience* Edward Slingerland, Mark Collard, 2012-01-19

Calls for a consilient or vertically integrated approach to the study of human mind and culture have for the most part been received by scholars in the humanities with either indifference or hostility One reason for this is that consilience has often been framed as bringing the study of humanistic issues into line with the study of non human phenomena rather than as something to which humanists and scientists contribute equally The other major reason that consilience has yet to catch on in the humanities is a dearth of compelling examples of the benefits of adopting a consilient approach *Creating Consilience* is the product of a workshop that brought together internationally renowned scholars from a variety of fields to address both of these issues It includes representative pieces from workshop speakers and participants that examine how adopting such a

consilient stance informed by cognitive science and grounded in evolutionary theory would concretely impact specific topics in the humanities examining each topic in a manner that not only cuts across the humanities natural science divide but also across individual humanistic disciplines By taking seriously the fact that science humanities integration is a two way exchange this volume takes a new approach to bridging the cultures of science and the humanities The editors and contributors formulate how to develop a new shared framework of consilience beyond mere interdisciplinarity in a way that both sides can accept

Mao's Road to Power: Revolutionary Writings, 1912-49: v. 1: Pre-Marxist Period, 1912-20

Zedong Mao, Stuart Schram, 2015-06-03 Revolution in its Leninist guise has been a dominant force in the world for most of the 20th century and the Chinese revolution has been with the Russian revolution one of its two most important manifestations Mao Zedong the architect of victory in China in 1949 stands out as one of the dominant figures of the century Guerilla leader strategist conqueror ruler poet and philosopher he placed his imprint on China and on the world Even though today communism is widely seen as bankrupt Mao Zedong's achievements as an innovative disciple of Lenin and Stalin in the most populous nation on earth guarantees his place in history Whatever the ultimate fate of communism in China the fact of Mao's influence on events during more than five decades and its resonance after his death will remain This edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought It has been compiled from all available Chinese sources including not only the 20 volume edition published in Tokyo years ago but many new materials issued in China since 1978 both openly and for internal circulation The editors have pursued a threefold goal firstly to translate every text by Mao which could be obtained so as to make this English version as complete as possible secondly to annotate the materials in sufficient detail to make them accessible to the non specialist reader and thirdly to combine accuracy with a level of literary quality which is intended to make the volumes agreeable as well as instructive to read

Volume 1 includes translations of the entire contents of the authoritative Mao Zedong Zaoqi Wengao 1912 6 1920 11 Draft writings from Mao Zedong's early period June 1912 November 1920 published in Beijing in 1990 plus some 15 additional texts for the same period which have been attributed to Mao Among the items thus made available in English are his first surviving work a middle school essay of 1912 in praise of Shang Yang his very extensive Classroom Notes of late 1913 on the lectures of his most influential teachers Yang Changji and Yuan the Big Beard a dozen letters to his then close friend Xiao Zisheng Siao yu who described a shared odyssey in Mao Tse tung and I were Beggars his marginal annotations of 1918 to the German philosopher Friedrich Paulsen's work on ethics in which Mao proclaimed himself a believer in individualism and an admirer of Nietzsche and many important letters articles and other writings documenting his evolution from liberalism to anarchism and finally to Marxism in 1919 1920

describes why the politically democratic state is a mythical and illegitimate concept that does not and cannot work and why without the corrective market feedback of profits and losses this unstable unmanageable inefficient and authoritative social organization will cause its own demise The Road to Freedom and the Demise of Nation States maps out an alternative path leading to a new contractual social organization based upon individual sovereignty and freedom Under this natural government of decentralized economic democracy individuals vote with their money ballot for the products and services they want including protection and jurisprudence The Road to Freedom constitutes an evolutionary continuation of the principles of individual sovereignty and freedom underlying the American Revolution as expressed in the Declaration of Independence leading to worldwide peace and prosperity

Gospel of the Open Road Robert C. Gordon, 2001 Gospel of the Open Road reclaims Ralph Waldo Emerson Walt Whitman and Henry David Thoreau as America's spiritual birthright It rescues them from literary history and reveals them in their true light as democracy's prophets of the soul Emerson Whitman and Thoreau were religious seers who developed a new form of spirituality and Gospel of the Open Road explains in scholarly yet passionate fashion the deep wisdom that is their enduring legacy It presents them as a viable spiritual path for those who do not belong and do not want to belong to any organized religion But this book does more It draws fascinating parallels between the new spirituality taught by Emerson Whitman Thoreau and ancient spiritual wisdom as found in shamanism Goddess worship Tantra Taoism Confucianism Vajrayana and Zen Buddhism and Hinduism This book is an evocative synthesis of humanity's most venerable spiritual wisdom and the most modern of philosophical social psychological political scientific and Humanistic concepts It traces the New Age spiritual revolution to its source in Emerson Whitman and Thoreau and explains how to apply their spiritual teachings to our everyday life here on Earth
