Roads And Highways Of Ancient Israel:

The Roads and Highways of Ancient Israel David A. Dorsey, 2018-11-30 Drawing on literary and archaeological evidence David A Dorsey examines the road system in Israel during the Iron Age ca 1200-586 B C He offers a comprehensive investigation of the nature and physical characteristics of roads in ancient Israel and reconstructs Israel's road network as it existed during the Old Testament period

Near Eastern Archaeology Suzanne Richard, 2003 Filling a gap in classroom texts more than 60 essays by major scholars in the field have been gathered to create the most up to date and complete book available on Levantine and Near Eastern archaeology

Migration and the Making of Global Christianity Jehu J. Hanciles, 2021-03-16 A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread Human migration has long been identified as a driving force of historical change Building on this understanding Jehu Hanciles surveys the history of Christianity's global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making Christianity the world's largest religion Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state But as Hanciles illustrates this top-down perspective overlooks the multifarious array of social movements cultural processes ordinary experiences and non-elite activities and decisions that contribute immensely to religious encounter and exchange Hanciles's socio-historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia In turning the focus of the story away from powerful empires and heroic missionaries *Migration and the Making of Global Christianity* instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world

Biblical Lexicology: Hebrew and Greek Eberhard Bons, Jan Joosten, Regine Hunziker-Rodewald, 2015-07-01 Lexicography together with grammatical studies and textual criticism forms the basis of biblical exegesis Recent decades have seen much progress in this field yet increasing specialization also tends to have the paradoxical effect of turning exegesis into an independent discipline while leaving lexicography to the experts The present volume seeks to renew and intensify the exchange between the study of words and the study of texts This is done in reference to both the Hebrew source text and the earliest Greek translation the Septuagint Questions addressed in the contributions to this volume are how linguistic meaning is effected how it relates to words and how words may be translated into another language in Antiquity and today Etymology semantic fields syntagmatic relations word history neologisms and other subthemes are discussed The main current and prospective projects of biblical lexicology or lexicography are presented thus giving an idea of the state of the art Some of the papers also open up wider perspectives of interpretation

Isaiah in Context Michaël van der

Meer,Percy van Keulen,Willem Th. van Peursen,Bas Ter Haar Romeny,2010-05-31 The present volume contains a collection of essays on the Book of Isaiah offered as a tribute to Arie van der Kooij on the occasion of his sixty fifth birthday which coincides with his retirement as Professor of Old Testament at Leiden University The twenty four contributions written by leading scholars in the field of Old Testament studies focus on the Book of Isaiah within the context of Hebrew and ancient near eastern writings particularly those from the Neo Assyrian period as well as on the book s reception history particularly in its Greek and Syriac translations Together these studies offer a rich and original contribution to the study of the Book of Isaiah in its Hebrew Aramaic Assyrian Greek Syriac and Dutch contexts Holman Illustrated Guide To Biblical Geography

Holman Bible Publishers,Paul Wright,2020-12-01 Reading the land enables us to read the Bible with greater insight Though the truths of the Bible transcend time and place they are rooted in them Geographical data inform our understanding of activity in the land of the Bible while the Bible s own description of these events embedded deeply in the realia of the land itself helps us better understand the living context in which these events took place When we develop a skill set that allows us to read the land of the Bible as fluently as we might read the text we stand not only to gain a better appreciation of the divine human events of Scripture we also gain an understanding of how these events become relevant to us in our own particular living contexts Chapters include Exploring the World of the Bible Building Blocks of Biblical Geography The Land of Ancient Israel The Southern Regions Judah Judea The Land of Ancient Israel The Central Regions Israel Samaria The Land of Ancient Israel The Northern Regions Galilee Transjordan Afterword Geography of the Heart Biblical geography has great apologetic value The biblical writers had to be accurate when presenting geographical material Unlike some matters of history and doctrine their assertions about the realities of land forms and climate or about the relation of one city to another or about the use of strategic routes could easily be verified both by their first readers as well as by contemporary readers Verifiable geographic information provides a solid foundation on which to place and evaluate the veracity of other truth claims in the biblical text Dictionary of the Old Testament: Historical Books Bill T. Arnold,H. G. M. Williamson,2011-09-26

Travel in the Byzantine World Ruth Macrides,2017-07-05 The contributions to this volume have been selected from the papers delivered at the 34th Spring Symposium of Byzantine Studies at Birmingham in April 2000 Travellers to and in the Byzantine world have long been a subject of interest but travel and communications in the medieval period have more recently attracted scholarly attention This book is the first to bring together these two lines of enquiry Four aspects of travel in the Byzantine world from the sixth to the fifteenth century are examined here technicalities of travel on land and sea purposes of travel foreign visitors perceptions of Constantinople and the representation of the travel experience in images and in written accounts Sources used to illuminate these four aspects include descriptions of journeys pilot books bilingual word lists shipwrecks monastic documents but as the opening paper shows the range of such sources can be far wider than generally supposed The contributors highlight road and travel conditions for horses and humans types of ships and speed of sea journeys the nature of trade in the Mediterranean the continuity of pilgrimage to the Holy Land attitudes toward travel Patterns of communication in the Mediterranean are revealed through distribution of ceramic finds letter collections and the spread of the plague Together these papers make a notable contribution to our understanding both of the evidence for travel and of the realities and perceptions of communications in the Byzantine world Travel in the Byzantine World is volume 10 in the series published by Ashgate Variorum on behalf of the Society for the Promotion of Byzantine Studies

Cinema at the Periphery Dina Iordanova,David Martin-Jones,Belén Vidal,2010 Highlights the industries markets identities and histories that distinguish cinema beyond the traditional hubs of mainstream Western cinema From Iceland to Iran from Singapore to Scotland a growing intellectual and cultural wave of production is taking cinema beyond the borders of its place of origin exploring faraway places interacting with barely known peoples and making new localities imaginable In these films previously entrenched spatial divisions no longer function as firmly fixed grid coordinates the hierarchical position of place as center is subverted and new forms of representation become possible In Cinema at the Periphery editors Dina Iordanova David Martin Jones and Belén Vidal assemble criticism that explores issues of the periphery including questions of transnationality place space passage and migration Cinema at the Periphery examines the periphery in terms of locations practices methods and themes It includes geographic case studies of small national cinemas located at the global margins like New Zealand and Scotland but also of filmmaking that comes from peripheral cultures like Palestinian stateless cinema Australian Aboriginal films and cinema from Quebec Therefore the volume is divided into two key areas industries and markets on the one hand and identities and histories on the other Yet as a whole the contributors illustrate that the concept

of periphery is not fixed but is always changing according to patterns of industry ideology and taste Cinema at the Periphery highlights the inextricable interrelationship that exists between production modes and circulation channels and the emerging narratives of histories and identities they enable In the present era of globalization this timely examination of the periphery will interest teachers and students of film and media studies "And in Length of Days Understanding" (Job 12:12) Erez Ben-Yosef,Ian W. N. Jones,2023-08-01 This two volume book presents cutting edge archaeological research primarily as practiced in the Eastern Mediterranean region These volumes key foci are inspired by the work of Thomas E Levy Volume 1 provides an in depth look at new archaeological research in the southern Levant primarily in modern Israel and Jordan inspired by Levy s commitment to understanding social political and economic processes in a long term or deep time perspective Volume 2 focuses on new research in several key areas of 21st century anthropological archaeology and archaeological science Volume 1 is organized around two major themes 1 the later prehistory of the southern Levant or the Neolithic Chalcolithic and Bronze Age and 2 new research in biblical archaeology or the historical archaeology of the Iron Age Each section contains a combination of new perspectives on key debates and studies introducing new research questions and directions Volume 2 is organized around five major themes 1 the archaeology of the Faynan copper ore district of southern Jordan a key region for archaeometallurgical research in West Asia where Levy conducted field research for over a decade 2 new research in archaeometallurgy beyond the Faynan region 3 marine and maritime archaeology focusing on issues of trade and environmental change 4 cyber archaeology an important 21st century field Levy conceived as the marriage of archaeology engineering computer science and the natural sciences and 5 key issues in anthropological archaeological theory In addition to presenting the reader with an up to date view of research in each of these areas the volume also has chapters exploring the connections between these themes e g the maritime trade of metals and cyber digital archaeological approaches to metallurgy The work contains contributions from both up and coming early career researchers and key established figures in their fields This book is an essential reference for archaeologists and scholars in related disciplines working in the southern Levant and the Eastern Mediterranean The Rescue of Jerusalem Henry Aubin,2010-08-13 In 701 BC the powerful Assyrian army laid siege to Jerusalem threatening the Hebrew kingdom with destruction What saved the City of David The Bible credits divine intervention Modern scholars have long speculated that a plague spread through the ranks of the Assyrian soldiers forcing them to withdraw Now in this ground breaking account award winning author Henry Aubin argues that it was the Kushites the black Africans who formed Egypt s 25th dynasty who saved Jerusalem the birthplace of Judaism Christianity and Islam In his powerful wide ranging analysis Aubin shows how Western scholarship turned its back on the theory of black African involvement The account of the long forgotten African and Hebrew alliance that rescued Jerusalem will change the face of Jewish and African history and contribute to a fresh understanding of our world today *Matthew's Judaization of Mark* Anne M. O'Leary,2006-11-23 An exploration of how

Matthew Judaizes Mark by basing Mark's account of Jesus on Jewish numerals and embedding Old Testament in his reworking of Mark

Excavating the Land of Jesus James Riley Strange, 2023-06-20 How do archaeologists unearth the daily life of people from Jesus's time Contrary to popular belief archaeology of first century Roman Galilee is not about illustrating or proving the Gospels drawing timelines or hunting treasure Rather it is about understanding the lives of people just like us who lived in the time of Jesus How do we understand Jesus and his mission as part of a larger world How do we interpret material culture alongside textual evidence from the Gospels How do we know where and how to dig James Riley Strange teaches students how to address these problems in this essential textbook Drawing on professional experience as a scientific archaeologist in Israel Strange explains current methodology for ground surveying excavating evidence and interpreting data *Excavating the Land of Jesus* is the ideal guide for students seeking answers in the dirt of the Holy Land

The Transjordanian Palimpsest Jeremy M. Hutton, 2009-06-02 This study analyzes several passages in the Former Prophets 2 Sam 19 12 44 2 Kgs 2 1 18 Judg 8 4 28 from a literary perspective and argues that the text presents Transjordan as liminal in Israel's history a place from which Israel's leaders return with inaugurated or renewed authority It then traces the redactional development of Samuel Kings that led to this literary symbolism and proposes a hypothesis of continual updating and combination of texts beginning early in Israel's monarchy and continuing until the final formation of the Deuteronomistic History Several source documents may be isolated including three narratives of Saul's rise two distinct histories of David's rise and a court history that was subsequently revised with pro Solomonic additions These texts had been combined already in a Prophetic Record during the 9th c B C E with A F Campbell which was received as an integrated unit by the Deuteronomistic Historian The symbolic geography of the Jordan River and Transjordan which even extends into the New Testament was therefore not the product of a deliberate theological formulation but rather the accidental by product of the contingency of textual redaction that had as its main goal the historical presentation of Israel's life in the land

Encounters with Jesus Adriana Destro, 2011 A candid compelling portrait of the man who has proved so significant and so controversial in Western culture by two of Europe's best known pioneers of the anthropological study of early Christianity Destro and Pesce bring the fruit of years of scholarship to bear on a radical figure in Roman Galilee his encounters with others and the movement those encounters inspired

The Way of the LORD in the Book of Isaiah Bo H.

Lim, 2010-05-13 What is the way of the LORD in the book of Isaiah Many scholars have adopted Walter Zimmerli's proposal that the way in Second Isaiah is a literal and physical highway extending from Babylon to Jerusalem only to be reinterpreted as a spiritual metaphorical and pious way of living in Third Isaiah This book will properly define each mention of the way in Isaiah as well as provide a coherent interpretation of this theme's theological significance within the book The way of the LORD is initially conceived of in the 1st half of the book as a highway leading to Zion common to both the dispersed Israelites as well as the nations In Isaiah Chs 34 35 provide a paradigm of what this way will entail and its theological significance

The Stele of YHWH in Egypt Csaba Balogh, 2011-09-20 Attempts to reconstruct the compositional history of the book of Isaiah confine themselves mainly to chapters 1 12 and 28 39 supposed to shroud the basic core of any early collection of Isaianic texts Other investigations which verge on the group of prophecies concerning the nations in Isa 13 23 rarely delve into exegetical details to the extent that the reader of Isaiah would feel convinced to stand here on familiar grounds Even others overtly restricted to a small pericope inside Isa 13 23 often neglect the significance of this larger context This book provides a thorough analysis of Isaiah 18 20 concerned with Egypt and Kush from the earliest stages to their final contextualisation within the developing corpus of the Isaianic prophecies regarding the nations **Jesus the Bridegroom** Phillip J. Long, 2013-11-06 Did Jesus claim to be the bridegroom If so what did he mean by this claim When Jesus says that the wedding guests should not fast while the bridegroom is with them Mark 2 19 he is claiming to be a bridegroom by intentionally alluding to a rich tradition from the Hebrew Bible By eating and drinking with tax collectors and other sinners Jesus was inviting people to join him in celebrating the eschatological banquet While there is no single text in the Hebrew Bible or the literature of the Second Temple Period which states the messiah is like a bridegroom the elements for such a claim are present in several texts in Isaiah Jeremiah and Hosea By claiming that his ministry was an ongoing wedding celebration he signaled the end of the Exile and the restoration of Israel to her position as the Lord's beloved wife This book argues that Jesus combined the tradition of an eschatological banquet with a marriage metaphor in order to describe the end of the Exile as a wedding banquet
