Bernard C. Beaudreau,2019-05-23 The decade of the 1920s is colloquially known as the Roaring Twenties when modernity came to the U S and the World ushering in a decade of unbounded growth and new found optimism GDP growth was particularly strong as was employment and investment However as counterintuitive as it may sound or appear the 1920s were also years of stagnation stagnation that owed to the fact that the new greater potential was not being fully exploited In other words while things were great they still fell short of the potential that had been created resulting in a form of growth stagnation That is stagnation in the midst of what was exceptional growth Bernard C Beaudreau is Professor of Economics at Universit Laval in Quebec Canada The Roaring Twenties and the Great Depression 1920-1940 Saddleback Educational Publishing,2010-09-01 Fast paced and easy to read these graphic U S history titles teach student about key historical events in American history from 1500 to the present Dramatic and colorful graphics highlights the text with easy transitions which avoids a choppy narrative These history titles offer a variety of rich material to support teaching to the standards Book features include Four color throughout speech bubbles and illustrations allow struggling readers multiple access points to the text speech bubbles in yellow are clearly separated from nonfiction in blue

Beaudreau,2019-06 In this Volume the various measures taken by successive Administrations to fully utilize the new found potential are examined critically These include the Smoot Hawley Tariff Act of 1930 the National Industrial Recovery Act of 1933 and the National Labor Relations Act of 1935 The readings in this case

consist of my own published work on the topic over the course of the past decade The articles in question set out to do two things namely situate the relevant policy measure in the appropriate historical context namely the presence of output gaps and second evaluate the efficacy or wisdom of the proposed policy measures For example contrary to popular belief the Smoot Hawley Tariff Act was a response to growing excess capacity related stagnation in the form of unemployment Evidence is presented which shows that the output gaps referred to above were clearly on the minds of Ranking Republicans at the Kansas City National Convention in June 1928
