portrait of his renowned earth work The Spiral Jetty as it juts into the shallows off the shore of Utah's Great Salt Lake. A voice over by Smithson reveals the evolution of the Spiral Jetty. Sequences filmed in a natural history museum are integrated into the film featuring prehistoric relics that illustrate themes central to Smithson's work. A one minute section is filmed by Nancy Holt for inclusion in the film as Smithson wanted Holt to shoot the earth's history. This idea came from a quote Smithson found the earth's history seems at times like a story recorded in a book each page of which is torn into small pieces. Many of the pages and some of the pieces of each page are missing. Smithson and Holt drove to the Great Notch Quarry in New Jersey where he found a facing about 20 feet high. He climbed to the top and threw handfuls of ripped pages from books and magazines over the edge of the facing as Holt filmed it. An Intermittent Illusion Hikmet Doğu, 1996 **Robert Smithson's Vision Realized in the Film Spiral Jetty** Jim Bergesen, Purchase College, State University of New York. Art History Board of Study, 2003 Inside the Spiral Suzaan Boettger, 2023-04-11. An expansive and revelatory study of Robert Smithson's life and the hidden influences on his iconic creations. This first biography of the major American artist Robert Smithson, famous as the creator of the Spiral Jetty, deepens understanding of his art by addressing the potent forces in his life that were shrouded by his success, including his suppressed early history as a painter, his affiliation with Christianity, astrology and alchemy, and his sexual fluidity. Integrating extensive investigation and acuity, Suzaan Boettger uncovers Smithson's story and with it symbolic meanings across the span of his painted and drawn images, sculptures, essays, and earthworks up to the Spiral Jetty and beyond to the circumstances leading to what became his final work, Amarillo Ramp. While Smithson is widely known for his monumental earthwork at the edge of the Great Salt Lake, *Inside the Spiral* delves into the arc of his artistic production, recognizing it as a response to his family's history of loss which prompted his birth and shaped his strange intelligence. Smithson configured his personal conflicts within painterly depictions of Christ's passion, the rhetoric of science fiction imagery from occult systems, and the impersonal posture of conceptual sculpture. Aiming to achieve renown, he veiled his personal passions and transmuted his professional persona, becoming an acclaimed innovator and fierce voice in the New York art scene. Featuring copious illustrations, never before published, of early work that eluded Smithson's destruction, as well as photographs of Smithson and his wife, the noted sculptor Nancy Holt, and recollections from nearly all those who knew him throughout his life, *Inside the Spiral* offers unprecedented insight into the hidden impulses of one of modern art's most enigmatic figures. With great sensitivity to the experiences of loss and existential strife that defined his distinct artistic language, this biographical analysis provides an expanded view of Smithson's iconic art pilgrimage site and the experiences and works that brought him to its peculiar, blood-red water.

Robert Smithson Unearthed Eugenie Tsai, Robert Smithson, 1991. Robert Smithson Unearthed: Drawings, Collages, Writings, the first full survey of this artist's work, reevaluates its larger resonance and its place in the historical development of recent art. Eugenie Tsai's re-presentation of the work of Smithson expands our

understanding of his achievement Looking beyond the Minimalist structures and the earthworks for which she is best known she explores his intellectual and aesthetic roots his early imaginings and discovers a richer range of personal affect in Smithson's art than we had been led to expect

Mirror-travels Jennifer L. Roberts, 2004 Robert Smithson 1938-1973 an artist of paramount importance in postwar America created radical new perspectives for landscape architecture photography art criticism and site specific installation His Spiral Jetty a 1 500 foot long coil of rock built in 1970 at the edge of the Great Salt Lake is widely appreciated as one of the most significant art projects of the twentieth century Less well known is the connection between the Jetty and the nearby Golden Spike National Historic Site location of the completion of the first U S transcontinental railroad The link between these two monuments is but one facet of an entire complex of historical reference and reflection that structures Smithson's work close analysis of the artist's working model of history and featuring comprehensive case studies of three of his most influential works The Monuments of Passaic Incidents of Mirror Travel in the Yucatan and the Spiral Jetty Incorporating abundant new material from Smithson's personal papers and library Jennifer Roberts offers surprising new interpretations about the artist and his responses to the social ideological and material contradictions of his time Publisher's description

Spirals Nico Israel, 2015-02-24 In this elegantly written and beautifully illustrated book Nico Israel reveals how spirals are at the heart of the most significant literature and visual art of the twentieth century Juxtaposing the work of writers and artists including W B Yeats and Vladimir Tatlin James Joyce and Marcel Duchamp and Samuel Beckett and Robert Smithson he argues that spirals provide a crucial frame for understanding the mutual involvement of modernity history and geopolitics complicating the spatio temporal logic of literary and artistic genres and of scholarly disciplines The book takes the spiral not only as its topic but as its method Drawing on the writings of Walter Benjamin and Alain Badiou Israel theorizes a way of reading spirals responding to their dual directionality as well as their affective power The sensations associated with spirals flying falling drowning being smothered reflect the anxieties of limits tested or breached and Israel charts these limits as they widen from the local to the global and recoil back Chapters mix literary and art history to explore pataphysics Futurism Vorticism Dada and Surrealism Concentrisme minimalism and entropic earth art a coda considers the work of novelist W G Sebald and contemporary artist William Kentridge In Spirals Israel offers a refreshingly original approach to the history of modernism and its aftermaths one that gives modernist studies comparative literature and art criticism an important new spin

The Art of Return James Meyer, 2019-09-11 More than any other decade the sixties capture our collective cultural imagination And while many Americans can immediately imagine the sound of Martin Luther King Jr declaring I have a dream or envision hippies placing flowers in gun barrels the revolutionary sixties resonates around the world China's communist government inaugurated a

new cultural era African nations won independence from colonial rule and students across Europe took to the streets calling for an end to capitalism imperialism and the Vietnam War In this innovative work James Meyer turns to art criticism theory memoir and fiction to examine the fascination with the long sixties and contemporary expressions of these cultural memories across the globe Meyer draws on a diverse range of cultural objects that reimagine this revolutionary era stretching from the 1950s to the 1970s including reenactments of civil rights antiwar and feminist marches paintings sculptures photographs novels and films Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed These cases show us that the past becomes significant only in relation to our present and our remembered history never perfectly replicates time past This Meyer argues is precisely what makes our contemporary attachment to the past so important it provides us a critical opportunity to examine our own relationship to history memory and nostalgia
