## Robert Bloch:

*The Selected Stories of Robert Bloch* Robert Bloch, 1987-01-01      **Robert Bloch** Richard Matheson, 1997-09 The contributors including Ray Bradbury Stephen King Peter Straub and Christopher Lee constitute a who's who of modern SF and horror writers In all a good selection of 20 of Bloch's best short stories accompanied by plenty of good feeling about a lovable man Booklist      *The Selected Stories of Robert Bloch: Last rites* Robert Bloch, 1990      **The Selected Stories of Robert Bloch: Bitter ends** Robert Bloch, 1990      **The Best of Robert Bloch** Robert Bloch, 1977      *Flowers from the Moon and Other Lunacies* Robert Bloch, 1998 This book collects for the first time a variety of Robert Bloch's early stories from *Weird Tales* and *Strange Stories* These stories range from whimsical and maniacal humor to dark and eldritch horrors editor Robert Price notes in his introduction Including the following stories *The Druidic Doom Fangs of Vengeance Death Is An Elephant A Question of Identity Death Has Five Guesses The Bottomless Pool The Dark Isle Flowers From The Moon He Waits Beneath the Sea Power Druid Be Yourself A Sorcerer Runs for Sheriff Black Bargain A Bottle of Gin Wine of Sabbath Soul Proprietor Satan's Phonograph The Man Who Told the Truth The Night They Crashed the Party and Philtre Tip*      *Out of My Head* Robert Bloch, 1986-01-01      **The Crowded Earth** Robert Bloch, 2022-09-22 This *Crowded Earth* is one of the early entries in the overpopulation subgenre It begins with Harry Collins in that far future year of 1997 and follows him through various adventures to 2065 Harry is one of the growing number of people who can't stand the over crowded cities He lives in a cramped bachelor's apartment he could upgrade to a larger one if he'd get married but he'd also have to add an hour to his commute each way bringing the total to six hours One day he suffers a mental breakdown and is sent to a bucolic clinic in the country where he soon enters a relationship with a nurse Or so he thinks A doctor at the clinic approaches him with the truth the nurse is another patient who was instructed to deceive him in order to start a tryst They're both in fact part of an experiment to solve the over population problem The doctor is apprehended by the Powers That Be at the clinic and Harry is told the man's a nut But soon his nurse disappears and he ends up in a relationship with another and then another and another Bloch plays coy about what exactly the experiments are about but we eventually learn that they're part of a project to end overcrowding by breeding midget babies Goodreads      *The Lost Bloch* Robert Bloch, 2002 The third volume in a series of uncollected work by the renowned horror writer features four pulp stories two nonfiction pieces an introduction by Gahan Wilson an interview conducted by Douglas E Winter and a tribute from Bloch's wife Eleanor      **The Selected Stories of Robert Bloch: Final reckonings** Robert Bloch, 1990 Best known as the author of *Psycho* Robert Bloch is world renowned for his stories of horror mystery fantasy and science fiction Many of the 25 stories in this first volume of *The Complete Stories of Robert Bloch* have been unavailable for decades The stories are in his classic style of gripping suspense science fiction and fantasy As Bloch writes These stories in this collection have a common theme they deal with monsters Some of the monsters are human some are not but all of them embody in one way or another the fears common to

us in our dreams We call these monsters by many names ghosts vampires extraterrestrials changelings But we recognize them for what they are manifestations of the secret dreads and desires which lurk beneath the surface of consciousness Bloch has become a virtual fixture on the popular culture landscape Publishers Weekly If you re not familiar with Bloch s short fiction find someone to borrow this from if you already are familiar you know that you want to own these volumes Locus

**Robert Bloch** Randall D. Larson,1986      **This Crowded Earth** Robert Bloch,2017-04-09 This Crowded Earth By Robert Bloch      *The Horror of Robert Bloch* Robert Bloch,2021 Robert Bloch has more than a few claims to fame he was a member of the Lovecraft Circle a group of writers who first corresponded with the legendary H P Lovecraft and then continued his writing style in the Cthulhu world Another thing he is known for is writing three classic Star Trek episodes Catspaw What Little Girls Are Made of and Wolf in the Fold which were the Halloween weird android duplicate and Jack the Ripper episodes But Robert Bloch s biggest claim to fame was a 1959 novel about a murderous hotel owner named Norman Bates which was made into the classic Hitchcock movie Psycho Here now are twenty five Bloch stories 24 horrors and one science fiction novella      **The Selected Stories of Robert Bloch** Robert Bloch,1987      **The Opener of the Way** Robert Bloch,1976

The Selected Stories of Robert Bloch Robert Bloch,1987      Fear and Trembling Robert Bloch,1989 A collection of some of the author s terrifying tales including The Yugoslaves The Chaney legacy Pranks Reaper and Horror Scope      *The Fear Planet* Robert Bloch,2005 It s no secret that a hefty helping of Robert Bloch s fiction remains unreprinted or uncollected since its original publication in pulp magazines digests and anthologies of original stories What many readers don t know is how good much of this fiction is These stories run the full gamut of genres for which Bloch wrote fantasy horror science fiction mystery and all showcase Bloch s inimitable style We can t presume to know why Bloch never collected them in his lifetime even though he sanctioned the reprinting of some in anthologies Possibly he felt they didn t fit the scheme of specific books Regardless the stories provide interesting snapshots of Bloch s career at the time they were written and the evolution of story markets where they appeared Subterranean Press s The Reader s Bloch series was conceived to give these stories a well deserved nesting place It is currently planned to run to two possibly three volumes containing approximately fifty stories spanning Bloch s career from the late 1930s to the early 1990s The series will stand independent of The Lost Bloch series which concentrated primarily on novella and short novel length works but readers who enjoyed those volumes will find the same fun and thrills in these books Currently we ve planned a volume devoted primarily to science fiction and another primarily to horror When you re talking Robert Bloch however genre categories have little meaning Several of the science fiction stories Bloch contributed to Amazing Startling Stories Fantastic Adventures and other pulps would have fit comfortably into any of his horror collections Likewise some of crime stories he contributed to Dime Mystery Detective Tales and Mammoth Mystery Most of the latter were never reprinted and more s the pity since they show Bloch mastering the hardboiled idiom and dealing with ghoulish themes that chart a line of direct descent from his early horror tales to the

psychological suspense novels and stories that became his trademark in the 1950s and 60s No we don't plan to include any of the Lefty Feep stories from Fantastic Adventures but we do have a few surprises up our sleeve including at least one overlooked story that might be called the bookend to Bloch's Lovecraftian Cthulhu Mythos stories And we have a bounty of fantasy and science fiction satires that rank with Bloch's wittiest fiction and essays In all the series will offer readers a generous helping of Bloch's writing from his most active and imaginative years      **The Early Fears** Robert Bloch, 1994 Features 39 of the author's short stories including all the stories from Bloch's first two short story collections plus 3 previously uncollected stories      **Robert Bloch's That Hellbound Train** Joe R. Lansdale, Robert Bloch, John L. Lansdale, 2011 Originally published as That Hellbound Train issues 1-3
