Historical Dictionary of Surrealism Keith Aspley,2010-10-16 Surrealism was a broad movement which attracted many adherents It was organized and quite strictly disciplined at least until the death of its leader Andr Breton in 1966 As a consequence its membership was in a constant state of flux persons were constantly being admitted and excluded and often the latter continued to regard themselves as Surrealists The wide ranging nature of the Surrealist movement was spread over many countries and many different art forms including painting sculpture cinema photography music theater and literature most notably poetry The Historical Dictionary of Surrealism relates the history of this movement through a chronology an introductory essay a bibliography and over 600 cross referenced dictionary entries on persons circles and groups who participated in the movement a global entry on some of the journals and reviews they produced and a sampling of major works of art cinema and literature Strands of Utopia Michael G Kelly,2017-12-02 The poetic is an abiding yet elusive qualification within the discursive system of twentieth century French literature No longer amenable to formal assignment its recurrences delimit a shifting multi layered practice of artistic and intellectual self invention This study attempts to outline certain durable properties of that practice by confronting it with the complex theoretical and spatial metaphor of utopia Drawing in particular upon the oeuvres of Victor Segalen 1878 1919 Rene Daumal 1908 44 and Yves

Bonnefoy b 1923 it traces poetic work work done in support of poetic difference along the social physical and textual axes of what is argued to be a sustained and radically inclusive utopian practice within the literary field The complex utopian quality of poetic work is linked to the cultural persistence of the poetic as a simple attribute within literary practice In uncovering this link the study encourages revised understandings of both the poetic and the utopian in the modern French literary context
