The Collected Prose of Robert Frost Robert Frost, 2006 Robert Frost is one of the most widely read well loved and misunderstood of modern writers In his day he was also an inveterate note taker penning thousands of intense aphoristic thoughts observations and meditations in small pocket pads and school theme books throughout his life These notebooks transcribed and presented here in their entirety for the first time offer unprecedented insight into Frost's complex and often highly contradictory thinking about poetics politics education psychology science and religion his attitude toward Marxism the New Deal World War as well as Yeats Pound Santayana and William James Covering a period from the late 1890s to early 1960s the notebooks reveal the full range of the mind of one of America's greatest poets Their depth and complexity convey the restless and probing quality of his thought and show how the unruliness of chaotic modernity was always just beneath his appearance of supreme poetic control Edited and annotated by Robert Faggen the notebooks are cross referenced to mark thematic connections within these and Frost's other writings including his poetry letters and other prose This is a major new addition to the canon of Robert Frost's writings

with its emphasis on replicating the rhythms of everyday speech rather than traditional conceptions of the literary gives evidence to the notion that poetics can be a register of social and political change and Tyler B Hoffman offering a unique reading of Frost's view of industrialism and the New Deal arguing that Frost was not the archconservative that leftist critics have made him out to be but rather took a highly nuanced view of the poet's obligations to politics Jeff Westover extends this vein of criticism by dissecting Frost's nationalism and Robert Bernard Hass discusses how Frost's interest in science especially astronomy impacted the religious beliefs his mother inculcated in him as a child Uniquely this volume also contains an original piece by Paris Review contributor Elizabeth Gumport who offers a writer's perspective on Frost's fierce independence Rounding out the collection is a brief biography and chronology of Frost's life and an extensive bibliography for readers wishing to study the poet's work in greater depth Each essay is 5 000 words in length and all essays conclude with a list of Works Cited along with endnotes
