Robert Menzies:

Man of the Century John Ramsden,2002 Man of the Century is the often surprising story of how Winston Churchill in the last years of his life carefully crafted his reputation for posterity revealing him to be perhaps the twentieth century s first and most gifted spin doctor Ramsden draws on fresh material and extensive research on three continents to argue that the statesman s force of personality and romantic imperial notion of Britain has contributed directly to many of the political debates of the last decades including American involvement in Vietnam and the role of the Anglo American alliance in promoting and protecting a certain vision of world order

A Pentecostal Hermeneutic for the Twenty First Century Kenneth Archer,2004-12-30 The purpose of this book is to present a critically informed contemporary Pentecostal hermeneutic rooted in Pentecostal identity in its stories beliefs and practices As Pentecostals began entering academic communities of higher learning their interpretive methods became both mainstream and modernistic as they adapted the historical critical methods or the so called scientific hermeneutic The proposed hermeneutic contained in this book desires to move beyond the impasse created by Modernity instead pushing Pentecostals into the contemporary context by critically re appropriating early Pentecostal ethos and interpretive practices for a contemporary Pentecostal community The Pentecostal hermeneutic is a three way interaction for theological meaning between the Holy Spirit the Pentecostal community and sacred Scripture

Secular Conversions Damon Mayrl,2016-08-30 Why does secularization proceed differently in otherwise similar countries Secular Conversions demonstrates that the institutional structure of the state is a key factor shaping the course of secularization Drawing upon detailed historical analysis of religious education policy in the United States and Australia Damon Mayrl details how administrative structures legal procedures and electoral systems have shaped political opportunities and even helped create constituencies for secular policies In so doing he also shows how a decentralized readily accessible American state acts as an engine for religious conflict encouraging religious differences to spill into law and politics at every turn This book provides a vivid picture of how political conflicts interacted with the state over the long span of American and Australian history to shape religion s role in public life Ultimately it reveals that taken for granted political structures have powerfully shaped the fate of religion in modern societies

The American Short-horn Herd Book ,1907 **Watching the Sun Rise** Jacqui Murray,2004-01-01 Historians have long claimed that a tradition of fear of Japan dominated Australian thinking about foreign affairs and defense after Japan s defeat of Russia in 1905 and that this fear remained widespread throughout the Australian

population until the Pacific War This study of Australian reporting on Japan challenges that claim by exposing a culture of state censorship intimidation of the media and neglect of official public discussion of foreign affairs in the years 1931 1941 which resulted in newspapers radio and news reels projecting a collective national consciousness of Japan as a nation of little import despite very real fears in senior political ranks about Japanese designs on Australia Jacqui Murray s argument for the Australian media s underestimation of Japan s threat is sustained by close examination of media practices publications and broadcasts which clearly show misleading representations of Japan before the Pacific War Watching the Sun Rise details not only government peace time media censorship but also war time propaganda flows from Australian British and Japanese sources into the Australian media and examples of cooperation and or espionage among media personnel

The Scotch-Irish Charles Augustus Hanna, 1902

Australia 1901 - 2001 Andrew Tink, 2014-11-01 Andrew Tink s superb book tells the story of Australia in the twentieth century from Federation to the Sydney 2000 Olympics A century marked by the trauma of war and the despair of the depression balanced by extraordinary achievements in sport science and the arts A country underpinned by a political system that worked most of the time and the emergence of a mainly harmonious society Australians at the start of the century could hardly have imagined the prosperity enjoyed by their diverse countrymen and women one hundred years later Tink s story is driven by people whether they be prime ministers soldiers shop keepers singers footballers or farmers a mix of men or women Australian born immigrants and Aborigines He brings the decades to life writing with empathy humour and insight to create a narrative that is as entertaining as it is illuminating
