Handbook of the American Novel of the Twentieth and Twenty-First Centuries Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions. and commentary on William Faulkner and his works Ordered by Words Judith Lockver, 1991 William Faulkner created compelling worlds with his words but he repeatedly used his characters to warn against words Relying on Mikhail Bakhtin s theory of language as both the creation of its user and a social construct Judith Lockyer outlines Faulkner's discovery of the power and danger in language Five of Faulkner's characters Horace Benbow Quentin Compson Darl Bundren Isaac McCaslin and Gavin Stevens were endowed with a desire for the absolute inviolable word Faulkner both shares that desire and argues against it making the dialogue about language the subtext of all his novels Here this continuing dialogue is traced chronologically from Flags in the Dust Faulkner's third novel to A Fable a late novel here shown in a revealing new light Lockyer also connects Faulkner's ideas about language and narration to his social and thematic concerns particularly to America's legacy of racial strife This is a coherent convincing reading of Faulkner from the time he finds his true voice and subject in the South through the late novels The Cambridge History of Literary Criticism: Volume 7, Modernism and the New Criticism George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction Critical Companion to William Faulkner A.
