Darkness **The Education of an Anti-Imperialist** Richard Drake, 2013-12-19 Robert M La Follette 1855 1925 the Republican senator from Wisconsin is best known as a key architect of American Progressivism and as a fiery advocate for liberal politics in the domestic sphere But Fighting Bob did not immediately come to a progressive stance on foreign affairs In *The Education of an Anti Imperialist* Richard Drake follows La Follette's growth as a critic of America's wars and the policies that led to them He began his political career with conventional Republican views of the era on foreign policy avidly supporting the Spanish American and Philippine American Wars La Follette's critique of empire emerged in 1910 during the first year of the Mexican Revolution as he began to perceive a Washington Wall Street alliance in the United States dealings with Mexico La Follette subsequently became Congress's foremost critic of Woodrow Wilson fiercely opposing United States involvement in World War I Denounced in the American press as the most dangerous man in the country he became hated and vilified by many but beloved and admired by others La Follette believed that financial imperialism and its necessary instrument militarism caused modern wars He contended they were twin evils that would have ruinous consequences for the United States and its citizens in the twentieth century and beyond An excellent book As Drake fully documents La Follette's warnings about World War I profiteers and the lust for power were fully justified Then as now the American people were lied to by the government and media and manipulated into the stink and blood of war Mark Taylor *The Daily Call* Scholars will value the insights into La Follette's foreign policy education *The Historian* [Our Paper](#), 1915 **Southern Historical Society Papers** Southern Historical Society, 1896 **The Enemy in Our Hands** Robert C. rest Was the treatment of America's most recent prisoners of war an isolated event or part of a troubling and complex issue that is deeply rooted in our nation's military history Military expert Robert C Doyle's *The Enemy in Our Hands America's Treatment of Prisoners of War from the Revolution to the War on Terror* draws from diverse sources to answer this question Historical as well as timely in its content this work examines America's major wars and past conflicts among them the American Revolution the Civil War World Wars I and II and Vietnam to provide understanding of the United States treatment of military and civilian prisoners *The Enemy in Our Hands* offers a new perspective of U S military history on the subject of EPWs and suggests that the tactics employed to manage prisoners of war are unique and disparate from one conflict to the next In addition to other vital information Doyle provides a cultural analysis and exploration of U S adherence to international standards of conduct including the 1929 Geneva Convention in each war Although wars are not won or lost on the basis of how EPWs are treated the treatment of prisoners is one of the measures by which history's conquerors are judged

Burton K Wheeler 1882 1975 may have been the most powerful politician Montana ever produced and he was one of the most influential and controversial members of the United States Senate during three of the most eventful decades in American history A New Deal Democrat and lifelong opponent of concentrated power whether economic military or executive he consistently acted with a righteous personal and political independence that has all but disappeared from the public sphere Political Hell Raiser is the first book to tell the full story of Wheeler a genuine maverick whose successes and failures were woven into the political fabric of twentieth century America Wheeler came of political age amid antiwar and labor unrest in Butte Montana during World War

I As a crusading United States attorney he battled Montana s powerful economic interests championed farmers and miners and won election to the U S Senate in 1922 There he made his name as one of the Montana scandalmongers uncovering corruption in the Harding and Coolidge administrations Drawing on extensive research and new archival sources Marc C Johnson follows Wheeler from his early backing of Franklin D Roosevelt and ardent support of the New Deal to his forceful opposition to Roosevelt s plan to expand the Supreme Court and in a move widely viewed as political suicide his emergence as the most prominent spokesman against U S involvement in World War II right up to three days before Pearl Harbor Johnson provides the most thorough telling of Wheeler s entire career including all its accomplishments and contradictions as well as the political storms that the senator both encouraged and endured The book convincingly establishes the place and importance of this principled hell raiser in American political history

The Archaeology of Darkness Marion Dowd, Robert Hensey, 2016-05-31. Through time people have lived with darkness. Archaeology shows us that over the whole human journey people have sought out dark places for burials for votive deposition and sometimes for retreat or religious ritual away from the wider community. Thirteen papers explore Palaeolithic use of deep caves in Europe and the orientation of mortuary monuments in the Neolithic and Bronze Age. It examines how the senses are affected in caves and monuments that were used for ritual activities from Bronze Age miners in Wales working in dangerous subterranean settings to initiands in Italian caves to a modern caver's experience of spending time in the one of the world's deepest caves in Russia. We see how darkness was and is viewed at northern latitudes where parts of the year are spent in eternal night and in Easter Island where darkness provided communal refuge from the pervasive sun. We know that spending extended periods in darkness and silence can affect one physically, emotionally and spiritually. How did interactions between people and darkness affect individuals in the past and how were they regarded by their communities? And how did this interaction transform places in the landscape? As the ever-increasing electrification of the planet steadily minimizes the amount of darkness in our lives, curiously darkness is coming more into focus. This first collection of papers on the subject begins a conversation about the role of darkness in human experience through time.
