Roberts Ridge:

Roberts Ridge Malcolm MacPherson, 2005-08-30 Afghanistan March 2002 In the early morning darkness on a frigid mountaintop a U S soldier is stranded alone surrounded by fanatical al Qaeda fighters For the man s fellow Navy SEALs and for waiting teams of Army Rangers there was only one rule now leave no one behind In this gripping you are there account based on stunning eyewitness testimony and painstaking research journalist Malcolm MacPherson thrusts us into a drama of rescue tragedy and valor in a place that would be known as ROBERTS RIDGE For an elite team of SEALs the mission seemed straightforward enough take control of a towering 10 240 foot mountain peak called Takur Ghar Launched as part of Operation Anaconda a hammer and anvil plan to smash Taliban al Qaeda in eastern Afghanistan the taking of Takur Ghar would offer U S forces a key strategic observation post But the enemy was waiting hidden in a series of camouflaged trenches and bunkers and when the Special Forces chopper flared on the peak to land it was shredded by a hail of machine gun small arms and RPG rounds A red haired SEAL named Neil Roberts was thrown from the aircraft And by the time the shattered helicopter crash landed on the valley floor seven miles away Roberts s fellow SEALs were determined to return to the mountain peak and bring him out no matter what the cost Drawing on the words of the men who were there SEALs Rangers medics combat air controllers and pilots this harrowing true account the first book of its kind to chronicle the battle for Takur Ghar captures in dramatic detail a seventeen hour pitched battle fought at the highest elevation Americans have ever waged war At once an hour by hour bullet by bullet chronicle of a landmark battle and a sobering look at the capabilities and limitations of America s high tech army Roberts Ridge is the unforgettable story of a few dozen warriors who faced a single fate to live or die for their comrades in the face of near impossible odds *Operation Anaconda* Lester W.

Grau, Dodge Billingsley, 2011-11-25 Long before it became Obama s War the long running conflict in Afghanistan was launched by President George W Bush in retaliation for the 9 11 attacks on the United States Only a few months later Operation Anaconda sent American led coalition forces into their most intensely brutal confrontation with Al Qaeda and their Taliban hosts in the Shar i Kot Valley near the Pakistan border The result was an unexpected set piece of conventional fighting in what has become an era of guerrilla warfare Drawing upon previously unavailable or neglected sources Lester Grau and Dodge Billingsley give us the most complete and accurate account of this thirteen day firefight waged in mountainous terrain nearly two miles above sea level They describe how allied troops fought a fierce and well entrenched enemy to a standstill close to an old Soviet battlefield and then drove them completely out of Afghanistan Grau and Billingsley s account also highlights problems encountered in Anaconda and the lessons we should learn from their in depth study The Army and Air Force operated under conflicting views regarding the appropriate application of Close Air Support and airpower both crippled and aided the overall effort In addition severe shortages of transport attack helicopters and artillery hampered the effort while the acquisition and timely sharing of intelligence barely occurred at all and coalition

relations frayed under the intense pressures of combat As an added bonus the authors also include with the book a documentary on DVD that features interviews with soldiers who fought in Anaconda provides additional information concerning major phases of the battle and presents insightful commentary by Grau and by Billingsley who was on the ground with U S forces for the operation Providing the richest description and critique of all the forces involved including those that fought on the enemy side the combined book and DVD surpasses all previous accounts of this landmark engagement and is an essential volume in the literature on our war in Afghanistan *Summary of Malcolm MacPherson's Roberts Ridge*

Air Power Against Terror Benjamin S. Lambeth, 2005 The terrorist attacks of 9 11 plunged the United States into a determined counteroffensive against Osama bin Laden and his al Qaeda terrorist network This report details the initial U S military response to those attacks namely the destruction of al Qaeda's terrorist infrastructure and the removal of the ruling Taliban regime in Afghanistan The author emphasizes several distinctive achievements in this war including the use of precision air delivered weapons that were effective irrespective of weather the first combat use of Predator unmanned aerial vehicles armed with Hellfire missiles and the integrated employment of high altitude drones and other air and space based

sensors that gave CENTCOM unprecedented round the clock awareness of enemy activity *On Killing Remotely* Lieutenant Colonel Wayne Phelps, 2021-06-08 A can't miss for anyone interested in current military affairs *On Killing Remotely* reveals and explores the costs to individual soldiers and to society of the way we wage war today Kirkus Reviews starred Throughout history society has determined specific rules of engagement between adversaries in armed conflict With advances in technology from armor to in the Middle Ages to nerve gas in World War I to weapons of mass destruction in our own time the rules have constantly evolved Today when killing the enemy can seem palpably risk free and tantamount to playing a violent video game what constitutes warfare What is the effect of remote combat on individual soldiers And what are the unforeseen repercussions that could affect us all Lt Col Wayne Phelps former commander of a Remotely Piloted Aircraft unit addresses these questions and many others as he tells the story of the men and women of today's chair force Exploring the ethics of remote military engagement the misconceptions about PTSD among RPA operators and the specter of military weaponry controlled by robots his book is an urgent and compelling reminder that it should always be difficult to kill another human being lest we risk losing what makes us human **Danger Close** Steve Call, 2010-01-15 America had a secret weapon

writes Steve Call of the period immediately following September 11 2001 as planners contemplated the invasion of Afghanistan This weapon consisted of small teams of Special Forces operatives trained in close air support CAS who in cooperation with the loose federation of Afghan rebels opposed to the Taliban regime soon began achieving impressive and unexpected military victories over Taliban forces and the al Qaeda terrorists they had sponsored The astounding success of CAS tactics coupled with ground operations in Afghanistan soon drew the attention of military decision makers and would eventually factor into the planning for another campaign Operation Iraqi Freedom But who exactly are these air power experts and what is the function of the TACPs Tactical Air Control Parties in which they operate *Danger Close* provides a fascinating look at a dedicated courageous innovative and often misunderstood and misused group of military professionals Drawing on the gripping first hand accounts of their battlefield experiences Steve Call allows the TACPs to speak for themselves He accompanies their narratives with informed analysis of the development of CAS strategy including potentially controversial aspects of the interservice rivalries between the air force and the army which have at times complicated and even obstructed the optimal employment of TACP assets *Danger Close* makes clear however that the systematic coordination of air power and ground forces played an invaluable supporting role in the initial military victories in both Afghanistan and Iraq This first ever examination of the intense life and death world of the close air support specialist will introduce readers to a crucial but little known aspect of contemporary warfare and add a needed chapter in American military history studies
