Christian devotion Christianity Today Christianity Today 2025 Book Award Finalist Culture Poetry and the Arts Southwestern Journal of Theology 2024 Book Award Honorable Mention Discipleship Spiritual Formation We tend to think of the imagination as the realm of fantasy and makebelieve However the imagination shapes our vision of reality in that the stories symbols and places that capture our hearts become part of who we are Becoming by Beholding restores the imagination to its central role in spiritual formation by recovering key works from the Christian tradition enabling us to experience the formative power of the imagination for ourselves It also revives the art of fashioning the soul as an essential aspect of Christian spiritual formation and character development Lanta Davis explains that many of the problems at the heart of the Christian church today such as nationalism consumerism and partisan politics stem from a crisis of the imagination She encourages us to reorient our gaze from diseased cultural forms and fix our eyes instead on works from the historic Christian imaginative tradition that better reflect the love joy and wonder of the gospel Becoming by Beholding will appeal to professors and students in spiritual formation worldview and theology and arts courses as well as to all Christian readers interested in the intersection of theology and art Each chapter introduces a different work of the Christian imagination icons sacred architecture imaginative prayer bestiaries and personifications of the virtues and vices The book also includes a twenty page insert featuring numerous full color images

The Idea of the Labyrinth from Classical Antiquity through the Middle Ages Penelope Reed Doob, 2019-03-15 Ancient and medieval labyrinths embody paradox according to Penelope Reed Doob Their structure allows a double perspective the baffling fragmented prospect confronting the maze treader within and the comprehensive vision available to those without Mazes simultaneously assert order and chaos artistry and confusion articulated clarity and bewildering complexity perfected pattern and hesitant process In this handsomely illustrated book Doob reconstructs from a variety of literary and visual sources the idea of the labyrinth from the classical period through the Middle Ages Doob first examines several complementary traditions of the maze topos showing how ancient historical and geographical writings generate metaphors in which the labyrinth signifies admirable complexity while poetic texts tend to suggest that the labyrinth is a sign of moral duplicity She then describes two common models of the labyrinth and explores their formal implications the unicursal model with no false turnings found almost universally in the visual arts and the multicursal model with blind alleys and dead ends characteristic of literary texts This paradigmatic clash between the labyrinths of art and of literature becomes a key to the metaphorical potential of the maze as Doob s examination of a vast array of materials from the classical period through the Middle Ages suggests She concludes with linked readings of four labyrinths of words Virgil s Aeneid Boethius Consolation of Philosophy Dante s Divine Comedy and Chaucer s House of Fame each of which plays with and transforms received ideas of the labyrinth as well as reflecting and responding to aspects of the texts that influenced it Doob not only provides fresh theoretical and historical perspectives on the labyrinth tradition but also portrays a complex medieval aesthetic that helps us to approach structurally elaborate early works Readers in such fields as
