Steiner, 1981-01-01 This volume provides an overview of Steiner's views on the nature and constitution of the human being, life after death and before birth, the laws of karma, the epochs of evolution and the future of humanity. This was part of Steiner's early work of building up the content of anthroposophy and is an excellent complement to his basic books.

Rosicrucianism and Modern Initiation Rudolf Steiner, 1982 These lectures given just after the Christmas Foundation Meeting describe the changes in the inner life and consciousness of Western people since the 9th century. Formerly there was an awareness of the spiritual within all realms of nature, but this disappeared and was replaced by the modern consciousness of the sense world alone.      *Rosicrucianism Renewed* Rudolf Steiner, 2006-03 After Rudolf Steiner had left us in the body, the gifts of the spirit that were offered by him in such overflowing measure could not continue. It must now happen that a community of human beings takes over the results of his spiritual research, takes them in such a way that they remain alive in the community. People must come together in anthroposophic work, united in such a way that Anthroposophy comes into its own. Carl Unger, Oct 29 1928 This volume provides perhaps the most comprehensive and profound exegesis of Rudolf Steiner's Anthroposophy, especially his book titled *Anthroposophical Leading Thoughts*. That book provides Steiner's final and most complete explanation of his Spiritual Science through brief aphoristic thoughts or meditations on the profound esoteric meaning of the modern spiritual path he called Anthroposophy. In *The Language of the Consciousness Soul*, Carl Unger unfolds and expands Rudolf Steiner's leading thoughts in 78 brief meditative chapters to help the reader comprehend the deeper meaning behind the *Leading Thoughts*. Unger helps us see how Steiner created a mandala-like image of Anthroposophy, revealing an ever-expanding cosmology and epistemology that goes far beyond mere philosophy or a belief system to a practical path of spiritual investigation and knowledge for modern humankind. Rudolf Steiner had this to say about Carl Unger: Dr. Carl Unger for many years past has always been the most industrious and devoted collaborator in the anthroposophic movement. At an early date Dr. Unger saw that Anthroposophy before all needs a strong foundation of the theory of knowledge. With a deep understanding he took up what I myself many years ago was able to give in my books *Goethe's Theory of Knowledge*, *Truth and Knowledge*, and *Intuitive Thinking as a Spiritual Path*. A Philosophy of Freedom he developed independently what I had intimated. Supported by mental discernment, his goal was to see through the nature of the human process of knowledge in a clear analysis and from that to form its true picture. Dr. Unger is not dialectical but an observer of empirical facts. This is why through the years he has been able to give results of the highest value, showing how the process of knowledge in ordinary consciousness produces always and everywhere out of itself the impulses to anthroposophic investigation. Moreover, Dr. Unger's method of thinking, trained through technical problems, is free from subjective vagueness and thus his scientific collaboration in Anthroposophy is the most important that we can have. *The Language of the Consciousness Soul* is an indispensable guidebook for group study and for individuals who wish to penetrate

the depths of Anthroposophy and apply its principles both inwardly and to daily life This volume is an edited translation by Effie Grace Wilson of *Aus der Sprache der Bewusstseinsseele Unter Zugrundelegung der Leits tze Rudolf Steiners*

**Khunrath in Context** Vladimir Karpenko,Ivo Purš,Martin Žemla,2024-12-23 The German physician alchemist kabbalist and theosopher Heinrich Khunrath ca 1560 1605 is one of the most remarkable figures in the intellectual history of the Renaissance His work combining text and images in a new way is a fusion of the contemporary currents of thought in which alchemy went hand in hand with philosophy and Lutheran heterodox theology As a follower of Paracelsus Khunrath was in search of both the secrets of nature and and the knowledge of God the theosophy *Rosicrucian Wisdom* Rudolf Steiner,2013-05-01 The work of Rudolf Steiner is unique in the way it combines esoteric teaching with practical suggestions for the development of social life Indeed Steiner is best known today for the application of his ideas in areas such as education medicine and agriculture But none of this could have developed without the coherent and profound body of spiritual knowledge which stands at the very core of Steiner s work In *Rosicrucian Wisdom* one of his most complete introductions to modern spirituality Steiner speaks out of the stream of Rosicrucian teaching But rather than borrowing old ideas from historical tradition Steiner presents a wholly new contribution arising from the results of his own experiential research He talks of the Rosicrucian path as being appropriate for the modern spiritual seeker but warns that Rosicrucian teaching should not be taken as abstract theory Rather than remaining in the head or even the heart spiritual ideas should reach into daily action transforming all aspects of life Steiner goes on to describe many facets of spiritual truth including the law of destiny the fact of life after death ways of developing spiritual vision humanity s past and future evolution and much more **Counterfeit Christianity** Roger E.
