struggle helped women gain control over their own bodies An idealist who mastered practical politics Sanger seized on contraception as the key to redistributing power to women in the bedroom the home and the community For fifty years she battled formidable opponents ranging from the US Government to the Catholic Church Her crusade was both passionate and paradoxical She was an advocate of female solidarity who often preferred the company of men an adoring mother who abandoned her children a socialist who became a registered Republican a sexual adventurer who remained an incurable romantic Her comrades in arms included Emma Goldman and John Reed her lovers Havelock Ellis and H G Wells Drawing on new information from archives and interviews Chesler illuminates Sanger s turbulent personal story as well as the history of the birth control movement An intimate biography of a visionary rebel *Woman of Valor* is also an epic story that extends from the radical movements of pre World War I to the family planning initiatives of the Great Society At a time when women s reproductive and sexual autonomy is once again under attack this landmark biography is indispensable reading for the generations in debt to Sanger for the freedoms they take for granted **Author - Title Catalog** University of California, Berkeley. *The Problem of Invented Religions* Steven J. Sutcliffe,Carole M Cusack,2017-08-15 Invented religions have been described as modern religions which advertise their invented status and reject traditional strategies of authorisation But what does it mean for a religious formation to be made up and how might this status affect perceptions of its legitimacy or authenticity in wider society Based in original fieldwork and archival sources and in the secondary literature on invented and constructed formations this volume explores the allure of as well as the limits of the invention of religion Through a series of case studies the contributors discuss strategies of mobilization and legitimation for new traditions at their point of emergence as well as taking issue with simplistic interpretations of the phenomenon which neglect wider cultural and political dimensions This book was originally published as a special issue of *Culture and Religion* **Who's who in America** ,1924 Mystics and Messiahs Philip Jenkins,2000-04-06 In *Mystics and Messiahs* the first full account of cults and anti cult scares in American history Philip Jenkins shows that contrary to popular belief cults were by no means an invention of the 1960s In fact most of the frightening images and stereotypes surrounding fringe religious movements are traceable to the mid nineteenth century when Mormons Freemasons and even Catholics were denounced for supposed ritualistic violence fraud and sexual depravity But America has also been the home of an often hysterical anti cult backlash Jenkins offers an insightful new analysis of why cults arouse such fear and hatred both in the secular world and in mainstream churches many of which were themselves originally regarded as cults He argues that an accurate historical perspective is urgently needed if we are to avoid the kind of catastrophic confrontation that occurred in Waco or the ruinous prosecution of imagined Satanic cults that swept the country in the 1980s Without ignoring genuine instances of aberrant behavior *Mystics and Messiahs* goes beyond the vast edifice of myth distortion and hype to reveal the true characteristics of religious fringe movements and

why they inspire such fierce antagonism      *Harbin* Mark Gamsa, 2020-11-03 This book offers an intimate portrait of early twentieth century Harbin a city in Manchuria where Russian colonialists and later refugees from the Revolution met with Chinese migrants The deep social and intellectual fissures between the Russian and Chinese worlds were matched by a multitude of small efforts to cross the divide as the city underwent a wide range of social and political changes Using surviving letters archival photographs and rare publications this book also tells the personal story of a forgotten city resident Baron Roger Budberg a physician who being neither Russian nor Chinese nevertheless stood at the very centre of the cross cultural divide in Harbin The biography of an important city fleshing out its place in the global history of East West contacts and twentieth century diasporas this book is also the history of an individual life and an original experiment in historical writing

web the point  $x$   $x$   $tv$  where  $t = 0$  is small is feasible belongs to the constraint set  $c$  if and only if  $a^T x - tv \leq c^T x - a^T v$   $0 \leq t \leq 3$  that is the vector  $s$   $a$   $v$  form an obtuse angle as in figure 4.1 since  $x$  is a solution we have  $x^T v \leq f^*$  for small enough  $t$  therefore applying the chain rule proposition 3.1 we obtain  $0 \leq \lim_{t \rightarrow 0} \frac{d}{dt} (a^T x - tv) = -v^T v = -\|v\|^2 \leq 0$
