Manipulating Images Tawnya J. Adkins Covert, 2011-03-03 *Manipulating Images World War II Mobilization of Women through Magazine Advertising* explores gendered and class based representations of American women in women's magazine advertisements published during the period surrounding the Second World War. Focusing on the interrelationships among political, economic and social forces in the construction of prevailing cultural images and gender roles for women in society, the book examines both the process of creating and the resulting content of wartime mobilization messages found in magazine advertising aimed at American women. The unique circumstances of the Second World War provide a window where the continuous but normally implicit interactions among the social forces which construct class differentiated gendered expectations for women in society are revealed, recorded and made accessible for study. During this period, the federal government altered the prevailing media representations of women and women's roles in response to widespread labor shortages stemming from the movement of male workers into the armed forces and increased demand for military and consumer goods. The advertising industry, business leaders and media representatives cooperated with the federal government in the creation of labor mobilization and other wartime campaigns. Two types of data are examined to assess the changing nature of the relationships among government, business and media, and the resulting media images and messages regarding women's roles. First, the study explores archived government documents that illuminate the relationships among government, business and media as they responded to the needs and conditions of war. Second, this book examines advertisements published in women's magazines before, during and following the Second World War. [Here on Lake Hallie](#)

Patti See, 2022-05-31 In these humorous and heartfelt essays, Patti See celebrates small town life in Wisconsin's Chippewa Valley. Featuring childhood memories of supper clubs, thrift sales and cribbage games, as well as the midlife concerns that accompany having a son in the military, a parent with Alzheimer's and a private onsite septic system, See's writing praises the quirky charm of her hometown and its people. Growing up in the 1970s and 1980s as the youngest of eight children, Patti never imagined she'd stay in Chippewa Falls as an adult. Now living on rural Lake Hallie, just five miles from her childhood home, she has a new appreciation for all that comes with country living, from ice fishing and eagle sightings to pontoon rides and tavern dice. These brief essays, many of which were originally published in the Sawdust Stories column of the Eau Claire Leader Telegram, establish that above all else, it's friends, family and other folks in our hometown who provide us with a sense of belonging. *Baby, You are My Religion* Marie Cartier, 2014-09-11 *Baby You Are My Religion* argues that American butch/femme bar culture of the mid 20th Century should be interpreted as a sacred space for its community. Before Stonewall, when homosexuals were still deemed mentally ill, these bars were the only place where many could have any community at all. *Baby You are My Religion* explores this community as a site of a lived, corporeal theology and political space. It reveals that religious institutions such as the Metropolitan Community Church were founded in such bars, that traditional and non-traditional religious activities took place there, and that religious ceremonies such as marriage were often conducted within

the bars by staff Baby You are My Religion examines how these bars became not only ecclesiastical sites but also provided the fertile ground for the birth of the struggle for gay and lesbian civil rights before Stonewall *Worth a Thousand Words* Bette D. centenary in 2017 She shows how political and military decision making within the fluctuating national security situation coupled with a growing cultural acceptability of women taking on military roles allowed for the growth of the service in World War II into realms never expected of women Although it shared a similar pattern in its formation to the Auxiliary Territorial Service ATS and had a similar ethos to its Air Force counterpart the WAAF the WRNS took on a wider ranging role in the war in part due to the latitude afforded to the service because of its uniquely independent origins From 1941 onward the WRNS spread internationally and subverted the combat taboo by adopting semi combatant roles Using twenty one new oral histories and a multitude of archived personal documents this book demonstrates the pivotal importance of the Women s Royal Naval Service in both the world wars

Gender, War, and Militarism Laura Sjoberg, Sandra E. Via, 2010-08-03 This compelling interdisciplinary compilation of essays documents the extensive intersubjective relationships between gender war and militarism in 21st century global politics Feminist scholars have long contended that war and militarism are fundamentally gendered Gender War and Militarism Feminist Perspectives provides empirical evidence theoretical innovation and interdisciplinary conversation on the topic while explicitly and uniquely considering the links between gender war and militarism Essentially an interdisciplinary conversation between scholars studying gender in political science anthropology and sociology the essays here all turn their attention to the same questions How are war and militarism gendered Seventeen innovative explanations of different intersections of the gendering of global politics and global conflict examine the theoretical relationship between gender militarization and security the deployment of gender and sexuality in times of conflict sexual violence in war and conflict post conflict reconstruction and gender and militarism in media and literary accounts of war Together these essays make a coherent argument that reveals that although it takes different forms gendering is a constant feature of 21st century militarism
