Roswell The Aliens Attack:

Enemies Within Robert Alan Goldberg, 2008-10-01
divdiv There is a hunger for conspiracy news in America. Hundreds of Internet websites, magazines, newsletters, even entire publishing houses disseminate information on invisible enemies and their secret activities, subversions, and coverups. Those who suspect conspiracies behind events in the news: the crash of TWA Flight 800, the death of Marilyn Monroe, join generations of Americans from the colonial period to the present day who have entertained visions of vast plots. In this enthralling book, Robert Goldberg focuses on five major conspiracy theories of the past half century, examining how they became widely popular in the United States and why they have remained so. In the post-World War II decades, conspiracy theories have become more numerous, more commonly believed, and more deeply embedded in our culture. Goldberg contends. He investigates conspiracy theories regarding the Roswell UFO incident, the Communist threat, the rise of the Antichrist, the assassination of President John Kennedy, and the Jewish plot against black America, in each case taking historical, social, and political environments into account. Conspiracy theories are not merely the products of a lunatic fringe, the author shows. Rather, paranoid rhetoric and thinking are disturbingly central in America today. With media validation and dissemination of conspiracy ideas and federal government behavior that damages public confidence and faith, the ground is fertile for conspiracy thinking. Atomic Bomb Cinema Jerome F. Shapiro, 2013-05-13 Unfathomably merciless and powerful the atomic bomb has left its indelible mark on film In Atomic Bomb Cinema Jerome F Shapiro unearths the unspoken legacy of the bombing of Nagasaki and Hiroshima and its complex aftermath in American and Japanese cinema According to Shapiro a Bomb film is never simply an exercise in ideology or paranoia He examines hundreds of films like Godzilla Dr Strangelove and The Terminator as a body of work held together by ancient narrative and symbolic traditions that extol survival under devastating conditions Drawing extensively on both English language and Japanese language sources Shapiro argues that such films not only grapple with our nuclear anxieties but also offer signs of hope that humanity is capable of repairing a damaged and divided world www.atomicbombcinema.com
