In this first full history of around the world travel Joyce E Chaplin brilliantly tells the story of circumnavigation Round About the Earth is a witty erudite and colorful account of the outrageous ambitions that have inspired men and women to circle the entire planet For almost five hundred years human beings have been finding ways to circle the Earth by sail steam or liquid fuel by cycling driving flying going into orbit even by using their own bodily power The story begins with the first centuries of circumnavigation when few survived the attempt in 1519 Ferdinand Magellan left Spain with five ships and 270 men but only one ship and thirty five men returned not including Magellan who died in the Philippines Starting with these dangerous voyages Joyce Chaplin takes us on a trip of our own as we travel with Francis Drake William Dampier Louis Antoine de Bougainville and James Cook Eventually sea travel grew much safer and passengers came on board The most famous was Charles Darwin but some intrepid women became circumnavigators too a Lady Brassey for example Circumnavigation became a fad as captured in Jules Verne s classic novel Around the World in Eighty Days Once continental railroads were

built circumnavigators could traverse sea and land Newspapers sponsored racing contests and people sought ways to distinguish themselves by bicycling around the world for instance or by sailing solo Steamships turned round the world travel into a luxurious experience as with the tours of Thomas Cook Son Famous authors wrote up their adventures including Mark Twain and Jack London and Elizabeth Jane Cochrane better known as Nellie Bly Finally humans took to the skies to circle the globe in airplanes Not much later Sputnik Gagarin and Glenn pioneered a new kind of circumnavigation in orbit Through it all the desire to take on the planet has tested the courage and capacity of the bold men and women who took up the challenge Their exploits show us why we think of the Earth as home Round About the Earth is itself a thrilling adventure

**All Round the World** W. F. Ainsworth, 1869      *Around the World in Eighty Days* Jules Verne, 1873-74 Jules Verne's classic a bestseller for over a century has never appeared in a critical edition before William Butcher's stylish new translation moves as fast and as brilliantly as Fogg's own journey Having assured the members of London's exclusive Reform Club that he will circumnavigate the world in 80 days Fogg stiff repressed English starts by joining forces with an irrepressible Frenchman Passepartout and then with a ravishing Indian beauty Aouda Together they slice through jungles over snowbound passes even across an entire isthmus only to get back five minutes late Fogg faces despair and suicide but Aouda makes a new man of him able to face even the Reform Club again *Around the World in Eighty Days* 1873 contains a strong dose of post Romantic reality plus extensive borrowing from the author's own Journey to England and Scotland but not a shred of science fiction Its modernism lies instead in the experimental literary technique with parallel plots a narrator constantly made to look foolish four characters in search of their own unconscious and a unique twisting of space and time Verne's classic a bestseller for over a century has never appeared in a critical edition before William Butcher's stylish new translation moves as fast and as brilliantly as Fogg's own journey      From the Earth to the Moon and 'Round the Moon Jules Verne, 1865-66 This darkness showed that the projectile has passed the atmospheric strata for the diffused light spread in the air would have been reflected on the metal walls which reflection was wanting This light would have lit the window and the window was dark Doubt was no longer possible the travelers had left the earth I have lost said Nicholl I congratulate you replied Ardan Here are the nine thousand dollars said the captain drawing a roll of paper dollars from his pocket Will you have a receipt for it asked Barbicane taking the sum If you do not mind answered Nicholl it is more business like This is the legendary novel of technological speculation and social satire that launched an entire genre of adventure fiction Verne's *From the Earth to the Moon and Round the Moon* is the first story of space exploration and remains a beloved work of daring exploits and surprisingly accurate scientific conjecture When the members of the Baltimore Gun Club bored Civil War veterans decide to fill their time by embarking on a project to shoot themselves to the moon the race is on to raise money overcome engineering challenges and convince detractors that they're anything but Lunatics With this work Verne inspired the first science fiction film 1902's *Le Voyage dans la lune* and accurately predicted that that ideal location for a spacebase is

in Florida First published in France in 1865 this replica 1918 edition includes the sequel 1870 s Round the Moon Also available from Cosimo Classics Verne s Five Weeks in a Balloon OF INTEREST TO science fiction fans readers of 19th century literature French author JULES GABRIEL VERNE 1828 1905 is considered the father of modern science fiction Among his many groundbreaking books are Journey to the Center of the Earth 1864 20 000 Leagues Under the Sea 1870 and Around the World in Eighty Days 1872
