## Round The Moon:

*Round the Moon* Jules Verne, 2015-11-28 Around the Moon French Autour de la Lune 1870 Jules Verne's sequel to From the Earth to the Moon is a science fiction novel continuing the trip to the moon which left the reader in suspense after the previous novel. It was later combined with From the Earth to the Moon to create A Trip to the Moon and Around It. Having been fired out of the giant Columbiad space gun the Baltimore Gun Club's bullet shaped projectile along with its three passengers Barbicane Nicholl and Michel Ardan begins the five day trip to the moon. A few minutes into the journey a small bright asteroid passes within a few hundred yards of them but luckily does not collide with the projectile. The asteroid had been captured by the Earth's gravity and had become a second moon.

Round the Moon Jules Verne, 2014-01-01 In this sequel to From the Earth to the Moon Barbicane Ardan and Nicholl have decided to take a trip around the moon. But first they have to get to the moon from Earth. Will their trip succeed as they attempt to dodge asteroids and realize that the scientists on Earth have miscalculated their trajectory towards the moon.

It is a science fiction tale which continues the trip to the Moon that was only begun in the first novel. Having been fired out of the giant Columbiad space gun the Baltimore Gun Club's bullet shaped projectile along with its three passengers Barbicane Nicholl and Michel Ardan begins the five day trip to the Moon. A few minutes into the journey a small bright asteroid passes within a few hundred yards of them but does not collide with the projectile. The asteroid had been captured by the Earth's gravity and had become a second moon. The three travelers undergo a series of adventures and misadventures during the rest of the journey including disposing of the body of a dog out a window suffering intoxication by gases and making calculations leading them briefly to believe that they are to fall back to Earth. During the latter part of the voyage it becomes apparent that the gravitational force of their earlier encounter with the asteroid has caused the projectile to deviate from its course. available together with an arresting new look In the aftermath of the American Civil War the members of The Baltimore Gun Club find themselves in a dilemma without a war there is no demand for their innovative gun designs Eager for a new challenge the club s President Barbicane sets an ambitious goal to build the largest gun in the world powerful enough to shoot a man to the moon Such a gun has never been attempted so the club faces a myriad of challenges including what to make it from where to build it when to shoot it and most importantly how to ensure that a passenger inside the gun s projectile can survive the trip In From Earth to the Moon the members of the gun club undertake the engineering challenge and Around the Moon follows the three voyagers on their journey to the moon and back

**From the Earth to the Moon, and a Trip Around It** Jules Verne,2013-12-24 Jules Verne was an incredible visionary His two stories regarding the first attempts by man to leave the surface of the Earth travel across a vast distance and visit our satellite were incredible for the time in which they were written But even more so in that Verne predicted that Florida in the United States would be the point of takeoff and that three men would take part in the journey There are many other surprises in store for the reader and though Verne was incorrect on a few details it is almost as if he had visited his future and witnessed the events This is a combination of the two stories detailing the trip and the return to our planet Eighty illustrations accompany the text This is a fine translation of Verne s original French writings with only minor interference by several editors over the years to standardize spellings and correct a few obvious typos

**From the Earth to the Moon; And, Round the Moon** Jules Verne,2018-07-12 From the Earth to the Moon and Round the Moon by Jules Verne The Gun Club a society based in Baltimore and dedicated to the design of weapons of all kinds come up with a plan to construct a cannon capable of shooting a projectile to the moon The projectile is successfully launched but the destinies of the three astronauts are left inconclusive The sequel Around the Moon deals with what happens to the three men in their travel from the earth to the moon We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
