Roundup of Memories Olan M. George, 1987-06-01 **Round Up the Usual Suspects** Raymond Ruble, 2008-12-30 TV shows that retain their popularity over the years do so for obvious reasons good production values good acting and compelling storylines But detective stories in particular also endure because they appeal to the gumshoe in all of us America is obsessed with crime solving Nancy Grace on CNN Headline News Greta Van Susteren on Fox and the seemingly annual recurrence of the courtroom sensation all testify to this fact And these people and cases are able to reach their phenomenal status not simply because of the media the media only demonstrates the enormous national appetite for this material Rather Cold Case CSI and Law Order have achieved their current popularity because they all respond to the same national craving for crime and do so with great skill and creativity Round Up the Usual Suspects provides a comparison of the crime fighting models and justice proceedings of each of these TV series Each series has its own special crime fighting niche and each approaches its job with a different set of values and different paradigms of discovery and proof Their separate approaches are each firmly grounded in different components of human nature analytical reasoning for instance in CSI memory in Cold Case and teamwork in Law Order After examining each of the individual series in depth Ruble goes on to investigate some of the historical antecedents in classical TV detective series such as The FBI and Dragnet It is interesting to note that these crime fighting methodologies are extensions of the way we all process information about the world Ray Ruble here aims to increase our appreciation for the ingenious manner in which fictional cases are broken and convictions convincingly secured and also illuminates the deeper human elements that lie under a more implicit spotlight in these runaway hits **Growing**

World War II Memory and Contested Commemorations in Europe and Russia Jennifer A. Yoder, 2024-01-01 Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial The study finds that while there are differences in context and strategy across cases and regions there are also areas of convergence Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations While World War II Memory and Contested Commemorations in Europe and Russia deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present **Cowboy Roundup**

Drew Hunt,2015-10-04 What's better than a story about a sexy gay cowboy? How about a whole posse of them! Editor Drew Hunt has rounded up some of the finest authors in the M/M western genre to bring you this collection celebrating gay cowpokes. Meet real men who ride the trail or ride the rodeo, join a wild west show or douse their thirst at the local country western bar. Whether in the bygone Old West or on a modern cattle ranch, these rugged hunks know how to ride 'em hard and put 'em away wet. And the ride lasts a lot longer than eight seconds, so saddle up, pardner, and let them take you on a wild ride or for a quick roll in the hay. NOTE: Each of the stories in this collection is available as an individual e-book for those readers who only want to pick and choose which they want to buy. Or do yourself a favor and rattle up all sixteen smoldering tales at once. Contains the stories: Roughshod by Dale Chase, Taming Brooks by R.W. Clinger, The Spring at Sloan Pond by Lee Crittenden, Rogayo by Landon Dixon, Cowboy Therapy by Hunter Frost, A Change of Pace by Drew Hunt, Firefly Ranch by Rebecca James, Wild Ride by Cassandra Lea, Guy Walks Into a Bar by Georgina Li, Nephi Takes a Husband by Bob Masters, Flyboys and Cowboys by Michael McClelland, Wild West Show by Rob Rosen, Riding for the Brand by J.D. Ryan, Daniel in Distress by Feral Sephrian, Save a Horse by J.D. Walker, and The Good, the Bad, and the Ojete by Salome Wilde. **Forgotten**

Battles and American Memory Douglas Smock,2022-06-14 *Forgotten Battles and American Memory* is a military history book that brings to life long ignored important conflicts through personal stories. Key figures include George Washington, Myles Standish, Daniel Morgan, Banastre Tarleton, Benjamin Franklin, Oliver Hazard Perry, Nathan Bedford Forrest, Joseph Stilwell, Chiang Kai-shek, and George Marshall. The battles covered are the Plymouth Plantation militia attack on the Massachusetts Tribe, the defeat of General Edward Braddock in the French and Indian War, Cowpens in the Revolutionary War, the Battle of Lake Erie in the War of 1812, the Fort Pillow Massacre in the Civil War, and the Battle for the Burma Road in World War II. The book also examines why the battles were lost to history and why they are still important today. In some cases, controversies remain, ranging from the depiction of Myles Standish on the Massachusetts flag to statues of Nathan Bedford Forrest. The book includes some never-reported information on the Battle for the Burma Road and the role of Pennsylvania militia in the War of 1812. **The Duty of Memory** Sébastien Ledoux,2025-07-01 Within France, the expression *duty of memory* (*le devoir de mémoire*) speaks to a complex and ever-evolving relationship with the past. Emerging in the 1970s, this term raised questions about memorialization, which dominated public debates in the 1990s, highlighting France's entanglements with colonialism and the Holocaust. Drawing on a variety of interviews, archival sources, and data surveys, author Sébastien Ledoux spotlights how the trajectory of this term offers a lens for understanding contemporary society's relationship with the past on a global scale. *Catalog of Copyright Entries* Library of Congress. Copyright Office,1920 *The Four Forces of Human Nature: A Unifying Theory* Roberto Trevino Pena,2024-06-13 Since physicists discovered the four fundamental forces of nature—weak, strong, electromagnetic, and gravity—they have tried to unify them into one theory. Physicists went down to the subatomic level to search and ended up with vibrating strings. They went up into

space and ended up with gravitons which are yet to be found But what do these forces mean in terms of human behavior In The Four Forces of Human Nature A Unifying Theory Dr Trevino Pena identifies the human forces and the specific areas of the brain responsible for processing them He demonstrates the analogy between physics and human forces and explains how the interaction of these influences human behavior The four forces are affective cognitive communicative and socio environmental The processing centers for each of these forces are respectively the amygdala thalamus cerebral cortex and insular cortex The aims of these are to get keep and increase the four necessities health status wealth and basic drives eat sleep sex Every person needs the four necessities for self preservation Without these humans can die prematurely or become extinct as a species Four groundbreaking and health advice are offered in this book Groundbreaking This is the first publication to bring together the feeling thinking talking and environmental sciences into one act to explain human behavior Groundbreaking The reader will be surprised to know that it is not the cerebral cortex that rules thinking it is the thalamus The thalamus is the driver and the cerebral cortex is the vehicle Health advice Examples are provided where the amygdala reacts to fantasy causing excessive secretion of stress chemicals that lead to chronic diseases Illnesses we self inflict by faulty feelings Health advice The thalamus is the best tool to mitigate these made up illnesses The problem is that people underutilize the cognitive force because it takes effort to put it into operation Lastly it is important to note that I have simplified the complexity of the human brain so as not to lose you the reader in the thick forest of brain circuitry

Mpofu,2023-03-28 Memory and Erasure is part of a growing body of academic literature to properly document and narrate the Gukurahundi genocide which hopefully may contribute to survivors and victims families quest for justice and closure Deployed in January 1983 the Fifth Brigades legacy has continued to cast a dark shadow not just over Matabeleland and Midlands but over the entire country As the title of the book and also the chapters forcefully underline a culture of violence led by the state and those who control its levers pervades the whole of Zimbabwe and continues to do so partly because of the failure to address the Gukurahundi genocide and its aftermaths which marked the height of Zimbabwean authorities tendency to use violence to crush dissent and opposition Collectively these essays explore different aspects of the Gukurahundi in order 1 to challenge the silencing of the genocide as a mainstream public issue in Zimbabwe 2 to demonstrate how deliberately and systematically Zimbabwes rulers have refused to allow this issue to be resolved and have in the process completely disregarded the views demands feelings and sensitivities of affected individuals and communities 3 to explore and critique the institutional legal constitutional and political frameworks that have sustained the failure to find a solution 4 to demonstrate how Zimbabwe as a state bears collective responsibility for Gukurahundi crimes and should

therefore hold itself accountable and institute a clear and honest programme to provide a lasting solution that does not lead to further division and 5 this collection emphasises in various ways that the solution to the political culture that has engulfed Zimbabwe and prevented it from attaining its independence goals lies in resolving the aftermath of Gukurahundi and addressing the culture of violence repression and impunity in Zimbabwean politics **2012 Memory Logbook** ,
