

A forsaken and foreclosed utopia: Rousseau and international relations

Fayçal Falaky

Tulane University, New Orleans, LA, USA

Abstract

In the field of international relations, Rousseau is generally considered an antiutopian and an exponent of the realist tradition. This view is based on his distrust of alliances and peace plans but also on the fact that he never offered any solution to how to lastingly ban war from the international scene. In this article, I argue instead that Rousseau's failure to propose any solutions in international politics lies rather in the utopian nature of his political philosophy. Rousseau intended to find remedies to the question of international law; if he never articulated them, it is, I submit, because the mere discussion of international relations would have undermined the lack of rationality which characterizes his model Republic. By envisioning the ideal state as self-sufficient and isolated (i.e. in the image of the *unsociable* man in the state of nature), Rousseau renders impractical the aspiration he had of resolving the question of sociability between states.

Keywords

Jean-Jacques Rousseau, international relations, confederations, realism, political philosophy

The notion that states stand in relation to one another as humans did in the state of nature has guided most early modern reflections on international law, from Alberico Gentili to Grotius to Hobbes to Locke. All of these political theorists developed their vision of international relations by taking as a basis the image they entertained of human relations in the state of nature.¹ Rousseau, in the first instance, did the same, without further distinction.² In the *Discourse on Inequality* (1754), he writes that upon the institution of civil societies, "the Law of Nature no longer operated except between the various Societies ... under the
